

A

Table Length and Width can vary,  
depending on location and shop preference.

Thickness of table  $\frac{3}{4}$ " exact for best results.  
(+,-)  $\frac{1}{32}$ " tollerane is accseptable.

A

Ø20mm

#### Notes/Recomendation:

- Choose a material thickness that is consistant/calibrated as close to  $\frac{3}{4}$ "
- For best results and preformance, pick a material with a Finish coating or lamination for best cleaning results from excess glue squeezeout.
- Consistent drilling, use 20mm Bit to drill pattern, if able.
