MOTOR AND MODEL MAY VARY PER PUMP CAPACITY

THE ELECTRONIC SOLENOID VALVE PREVENTS LEAKING WHEN THE SYSTEM IS OFF

INTERNAL EXHAUST FAN REMOVES HEAT FOR OPTIMAL PERFORMANCE

CAT BRAND PUMPS: THE HIGHEST QUALITY DIRECT DRIVE PUMPS AVAILABLE

The capability of the MCS Mist Cooling System to produce a cooler outdoor environment enhances your outdoor experience. The system provides a consistent and amplified water flow that elevates your standard water pressure to 1000 PSI. This results in smaller mist droplets, enabling faster evaporation and more efficient outdoor cooling. Our system effectively lowers outside temperatures by up to 20° Fahrenheit.
