This beautiful stone installation with striking Marazzi Capraia Porcelain takes luxury to a new level in this stunning suite.

Gorgeous Marble Effect Shelf Installation

Stone isn't just for worktops! This customer got creative and asked us to fit a shelf made of our gorgeous BQS Avenza marble effect quartz.

Quartz with marble effect is an extremely popular style and takes the unique, natural veining of marble and combines it with all the advantages of a quartz surface. Everything from a subtle mottled look to stark veins is available, with a range of base colours, there is a marble effect stone to suit any colour scheme or kitchen look!

Taking the Kitchen Outdoors

Reviving your garden has never been easier. We helped this client transform their outdoor space into a welcoming environment for entertainment and cooking.

Natural stone is the best material to use outside as it is very durable and will withstand all weather conditions. It is strong and resistant, so it can stand up to both the British weather and the extreme cooking temperatures of barbecues or pizza ovens.

One of our fave **CASE STUDIES**

Calacatta Monet

The House That Black Built is an interior and lifestyle blog owned by Chelsea and her husband. They have recently moved house and are starting a renovation from scratch, so we were thrilled to be involved in the transformation of their kitchen!

Chelsea visited Imperial Stone to view their extensive range of marble slabs, she narrowed it down to two incredible natural stones for her kitchen worktops - Calacatta Monet and Royal Antique Black, eventually deciding on the beautiful Calacatta Monet. Purple templated the worktops and then Chelsea came to our Kidderminster workshop to decide how we'd be cutting the marble slabs so that they perfectly fitted her vision for her kitchen. After being cut we delivered and installed the worktops. The marble had a final polish then sealed to add a layer of protection.

@thehousethatblackbuilt

Royal Antique Black

It's not just all about kitchens here! We love when our stone is used creatively, like this beautiful marble fireplace. When we asked our client Chelsea if there was anything else we could help her with after fitting her kitchen worktops, this was her vision. She decided on a super simple design to let the natural colours and veining in the marble take centre stage and it's created such a beautiful focal point in her reception room.

Known for their luxurious and timeless feel, characterful marble surrounds are ideal for making a beautiful design statement, so if you're looking to make heads turn then we'd be more than happy to help.

MARBLE

All about

Marble worktops are great features for fire surrounds, hearths and improving bathroom design.

Marble is a luxurious stone and adds a stylish touch to your rooms, creating a high-quality appearance overall.

Naturally formed from softened limestone that has been heated and cooled over thousands of years. This natural process is responsible for creating the lavish, stylish veins and traditional colours synonymous with marble.

Natural marble has been used for centuries and is still a popular choice today because of its beautiful, timeless aesthetic. It is perfect for use inside and outside your home and particularly lends itself to bathrooms, fireplaces and furniture tops.

It is important to note that when considering kitchen worktops, marble will need significant care due to its porous nature. Marble is therefore much more suited to fire hearths and bathrooms.

Our PROCESS

Layout and preferences

Give us an idea of what you're after. Just a basic layout, ideally by way of a plan or drawing, which you can contact us about, but don't worry if you haven't got an official plan, measurements of the pieces will work just as well. Once you've had a look at our surfaces, let us know which colours you like. These can be added to your basket for quoting.

Quantities and suppliers

Once you have selected your colour, we will work out the stone quantity required. Generally, the stone can be purchased in different sized slabs so, once we know what colour you want, we can then source the nearest slab size to your requirements. Often, searching various suppliers of granite and quartz, this reduces waste and keeps your price down.

Price guarantee for your order

Once you've placed your order with Purple, we will send you an order confirmation. Dates will be sorted for us to book a template with you. Once you've been templated, the fit for your new worktops will take place between 3 and 5 working days later, the fastest turnaround in the country. If you're desperate, then ask about our Express 48hr turnaround!

Templating

The template is a very important part of the process. Our experienced templater will visit when the new worktops are ready to be fitted. He will then make replica countertops from 3mm thick plastic sheets. This is the perfect opportunity to discuss overhangs, radius corners and precise locations of sinks, hobs and taps.

Fabrication

After the template, the templater will meet with the fabrication team and go through the finer details of your job. Then Purple's state of the art machinery takes over and cuts and polishes all of the pieces to the specification of the template.

Fitting

The morning of the fit the stone will be inspected and put through quality control. Once passed, the stone is loaded and taken to the fitting address. The fitters will talk you through the fitting process, then begin unloading the stone. The average fit for your new worktops takes between two and three hours.

CUSTOMER SATISFACTION

The customer is at the heart of everything we do, and we have the reviews to prove it.

Just had granite worktops and up-stands installed. The "blue in the night" looks amazing. What a great company to deal with. Polite and friendly. Quoted us promptly then sent a guy out to check the measurements. Kept us informed at every step of the order. Always arrived on time when promised. The installation was smooth and well planned. The two guys were a credit to the company. Quietly worked to sort the fitting. Tidied up and left leaving an excellent job Well done Purple Granite.

Graham Stradling

From start to finish the experience was great. The initial communication was very good & then we had someone drive about 100 miles to my house to measure up. I then went to the factory to choose the granite & was made to feel very welcome & was then given a tour of the factory to choose my granite.

Simon Smith

My experience with Purple has been first class from beginning to end. My wife and I are so pleased with our new worktops, they look amazing and the attention to detail is second to none. Get your tops from these guys, you won't be disappointed!

John Lenegan

The Purple sales and office staff were exceptionally accommodating and professional. Furthermore, Laura's perception of what my wife and I were actually looking for, helped us find the perfect granite worktops for our kitchen and utility room.

A big thank you to Charles for what transpired to be a perfect template, and Liam and Josh for a very efficient installation. A potentially stressful process made easy.

And finally, to the guys and gals in the workshop. Thank you all for actually creating our beautiful granite worktops.

From start to finish our 'Purple Experience' was flawless.

PURPLE GRANITE X KIDDERMINSTER HARRIERS

AGGBOROUGH Stadium, the home of Kidderminster Harriers, has turned purple now that a new sponsorship deal has been penned.

Purple Granite is delighted to announce its new partnership with Kidderminster Harriers Football Club with a name change of Aggborough Stadium's East Stand and the launch of The Purple Bar.

The Purple Granite Stand and The Purple Bar signify an important venture for Purple as we seek to support more sport in the area, particularly grassroots. Purple already sponsors ten Kidderminster Lions teams and want to continue nurturing new talent wherever possible.

Both the 2,000-seater stand, and the bar was officially unveiled on Saturday 8th October in the game v Farsley Celtic, with more than 200 young players, coaches and family members of Purple sponsored teams there on the day. The newly branded stand has the iconic Purple, boldly and brightly adorning a section of the much-loved stadium.

Harriers owner Richard Lane said:
 "We're extremely proud to be partnering with one of Kidderminster's leading businesses. Just like ourselves, Purple is proud of its roots and epitomises the local area with its hard work and dedication to its craft".

Jon Brewer, owner of Purple Granite, added: "We're thrilled to be an official partner of Kidderminster Harriers Football Club. They are a club that, like Purple, has huge ambitions to grow even bigger, and I am delighted that we can support them. With our head office in Kidderminster, our local area and community is very important to us, as is our love for sport".

"This sponsorship of KHFC and young age groups within the area is just the start, and you can expect to see a lot more of us in the future."
