

# BHUTAN

Inspired by the HAMSAs - The Hand of God, this icon stands for Handcrafted in India. All our pieces are hand-blocked printed by our skilled craftsmen.

We spent last New Years driving through the tranquil countryside of the Kingdom of Bhutan. Looking out of our car window at lands nestled within the great Himalayas, we found ourselves sketching and drawing and talking about the birth of a new collection. We wanted to imbibe the silence and peace and yet do pieces that still had our signature colour and prints. Pieces we'd love to wear in Bhutan. Our tiny ode to this beautiful country.
