

KURO-SHIRO

What's the greatest secret no one tells you, and yet it is what we chase half our lives. Balance. Yin-yang. A little of everything to make our lives a little of everything. Too less or too much killing the flavours, but in the right about enhancing them.

Our New Collection was woven out of trying to understand that balance. Kuro in Japanese translates to black and Shiro to white. Kuro-Shiro your way through our light as light pieces- perfect to balance out the grey monsoons.
