Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Community Action

Ascendant in Aquarius

You look like you can be all things to all people this year, and you probably can, but you may have to step beyond that to be one thing to one person. It will be easy to parallel process and multitask, but real concentration on something important will require shutting down some systems in order to get it done. Leading edge efforts come naturally, however, as you're attuned to multiple information streams and people notice it, so you'll be the first person to get and give out the news. It's a multimedia event, and you're at the center.

Self Examination Arises

Sun Sextile Ascendant

You look your best when you're lost in conversation this year, perhaps because you're the least self-conscious when you're thinking of something else. Of course, you don't notice that, by definition, but others do and it gives you a smooth, readable image that eases your way like a boat cutting through a smooth sea.

Objective Values Arises

Venus Square Ascendant

Be careful that your body language does not belie your actual intent this year, because that's a decided possibility. Mixed signals, even if you're not the one mixing them, are at best an inconvenience, at worst an embarrassment, so it might be wise to back up presumed messages verbally to see that you're on the same page.

Examining Action Arises

Mars Sextile Ascendant

You'll be picking up a lot of energy and physical support from your friends this year, so don't hesitate to let the cheering section urge you on and even lend a hand in your efforts. The more enthusiasm happening around you, the stronger you'll be and the more work you'll get done as a result.

The Foundation for Your Year (continuation)

Sudden Progress Arises

Uranus Square Ascendant

Unexpected events can throw off your physical timing this year, so take extra care where you step lest you trip, literally. Things appearing out of nowhere seem to startle and disrupt, though only temporarily, butg still putting a nervous edge on situations that might normally flow more easily.

The Midheaven

Your Reputation, Career, Life Path

Truth Management

Midheaven in Sagittarius

You're talked about in truthful but sometimes overly simplistic terms this year. Appreciation and plaudits abound for your more obvious endeavors when your more complex efforts may go right over people's heads. Don't look a gift horse in the mouth, however, and time will bring your subtler side to light soon enough.

Manage Physical Progress

Saturn Square Midheaven

Criticism of your work can come from both without and within this year, and you should welcome it to the extent it helps you improve your act. Watch out for gratuitous put-downs, however, as they're in the wind, too. Don't let self-deprecation get out of hand, or people might think you seriously doubt yourself and join in.

Manage Accepting Power

Pluto Sextile Midheaven

You've got support you don't know about this year, forceful friends that are smoothing your way not necessarily because you deserve it but because the situation demands it. So if you act like destiny is on your side, you're probably on the right track, but don't take all the credit for it.

The Sun

Your Inner Personality and Style

Practical Vision

Sun in 10th House

When you raise your flag this year, you raise yourself with it. You're right out their in view because it just seems like the obvious thing to do to get what you want. You personally and maybe financially find it natural to "go public" and put yourself and your wares on display – not just for immediate gain but because you're proud of what you've got, what you've done, and who you are. The essence of success lies in that equation, that you believe in your product and your product is, in essence, you. When you believe your own message, the rest of the world pays attention, and this year you've got that feeling.

The Foundation for Your Year (continuation)

A New Vision

Moon Conjunct Sun

A new Moon means a year of beginnings, all things old out the door as a new broom sweeps clean. Intensity of turnover describes the feeling of a voyage commencing that may require rearrangements of all sorts. Necessary partings are eclipsed by the optimism of turning your face toward the dawn of a new day.

Ideas for Effort

Sun Conjunct Mars

It's going to be a forceful, high-energy year for you, so expect to be putting out all the time and feeling like doing just that. The heat in your kitchen is high, however, and some lower-keyed people may reasonably want to escape it, so don't push your pace on others not up to the task. You want help, not baggage.

Public Peace

Sun Square Neptune

Inner confusion is a stumbling block this year, as when you're not sure about your own inner truths it's hard to determine what outside reality is. It's easy to get lured off the path and into the bushes by beckoning promises that seem to offer a better way, but you may be best putting on blinders

The Moon

Your Feelings, Reactions, Emotions

Practical Support

Moon in Capricorn

This year may find you erring on the side of caution, especially where emotional commitments or entanglements are concerned. In one sense that will make yours a cool and calming presence when those around you are overwrought - but it could also cause you to seem a bit on the chillier side than your usual self, a bit more of the loner. Your business acumen is certainly heightened, as practical considerations become like inner feelings unto themselves, but your likelihood of sharing your more intimate takes on matters will be diminished. You will not stoop to complain, perhaps even when you should, displaying a more Spartan side than you may have thought possible.

Community Support

Moon in 11th House

Whether you're pushing on the way up or relaxing at the height of your career, your closest company is what defines the way your world develops. This year you are particularly sensitive to those near and dear, your elected personal elite, and who you'd like either to become or remain among them. Dreams don't come true until they're imagined, and the road to their fulfillment is almost always determined by the people you choose and who choose you. Your ability to create and sell yourself here, as well as protect what you are already working on, is particularly highlighted this year.

Fresh Ideas

Moon Conjunct Mercury

You're quick with a word this year, and it will usually be the right one, immediately appropriate to the situation at hand and how you feel about it. Emotional expression is clear and even witty, and you needn't agonize or plumb the depths to say what you really mean. It's right there on the surface, what you say is what they get.

The Foundation for Your Year (continuation)

Preserving

Moon Trine Jupiter

An ever-increasing rhythm of positive reaction and enthusiasm mark the year, as your encouraging responses nurture the same in others and creativity increases all around due to your consistent application of support. By easily letting people know how hopeful you are, you confirm and elevate the general rise of optimism.

Critical Control

Moon Sextile Saturn

Editing yourself and your reactions this year comes so naturally that you don't give it a second thought. It's not reticence when you are simply cool at the right moment and don't bat an eye. Remaining unruffled in the face of turbulence comes from keeping an eye on the horizon, so you don't notice it in the first place.

The Public

Moon Square Neptune

You can get lost counting on your usual ways of intuitively reacting, which this year can unexpectedly lead you astray. It's like an inner gear has lost a tooth and you're slipping without really realizing it. Periodic resets entirely from the head may be in order while your inner clock goes through some changes.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Practical Ideas

Mercury in Capricorn

Hard-headed plans that smack of experience and practical use offer more appeal than trying anything and everything new that comes to hand. Ambition requires that what you propose works and works well, so cutting out speculation and handing onto reality is what you'll choose when asked for your opinion.

Community Ideas

Mercury in 11th House

Knowing who your friends are is one thing, but telling them they are is another. This is a year for both, actually, as you come to realize there's a pattern to those who are so special to you and you let them know it. A good year for lining up your useful connections, as well, forge links with higher echelons.

Obstacle

Mercury Sextile Venus

Planning ways to get what you want, whether that be personal or physical, isn't really necessary this year as things tend to run themselves under the radar, functioning on automatic. Indeed, if you're spending more time thinking about taking care of others' needs, you'll find your own taken care of behind your back.

Librarian

Mercury Trine Jupiter

Your plans evolved exponentially this year, but you may not realize just how much, because it tends to go smoothly and a lot gets done when you're on top of your spiral of growth. One good new idea builds upon another until you've got a whole new edifice built that you might not have anticipated at the beginning.

Venus

Your Needs, Wants, Desires

Critical Love

Venus in Scorpio

There is a certain hunger that can only be satisfied by going all the way, pulling out all the stops. That will be a compellingly key notion as you find it doesn't satisfy when you only go halfway, especially when you're distracted by competing desires. Pick one, whatever or whoever, and plumb the depths...

Spiritual Love

Venus in 9th House

You can't get what you want unless you can get your head around it. This is a year when you increase the width, breadth, and depth of your desires, when by thinking bigger you can imagine a new scale of satisfaction that can be obtained. You've got to know what to ask in order to receive it.

The Experience

Venus Opposite Jupiter

Sometimes when you're ravenously hungry and order big, when the meal comes the appetite dies. That's a general challenge of life timing you may have to meet this year as the best course gets served just after you've pigged out on the appetizers. Or worse, you realize when the main dish arrives that you should have.

Mars

Your Energy, Life Force, Excitement

Spiritual Drive

Mars in Sagittarius

The more aboveboard your action, the more traction you'll get. Straightforward and true is your trajectory, your efforts reflecting what you honestly believe in and want to see happen. You don't have to clothe yourself in cleverness, only what you believe is honest effort, and that will speak for itself.

Efficiency Drive

Mars in 10th House

Maximum effort goes into making your mark this year, raising your billboard so that everybody knows who you are and what you've got. It's important to do it well, because once it's done it will yield dividends well beyond these twelve months. Make yourself memorable, you're worth the effort.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter Ambitions, Goals, Possibilities

Productive Career *Jupiter in Taurus*
 A year of slow expansion is now ahead, during which the best-laid plans take a long time to lay down, but once they're in place, there's no stopping them. The future looks bright, but gradual, and the sure-footed approach is the accepted way to go. It's all about doing it well, making it all come true at the right time.

Productive Career *Jupiter in 2nd House*
 Expect greater cash flow this year, but it may be up to you to make sure the direction is in the black, not the red. There are lots of opportunities to spend for gain, but many fool's errands are among them, so your judiciousness makes all the difference. Spend with confidence, but with care.

Follow the Rules *Jupiter Sextile Saturn*
 This year is generally good for profit-taking and cashing in on positions taken morally and financially and establishing newer and more solid structures on which to base both income and moral life. It is a time to dispense with prejudice but not abandon caution, to reach out to others but without selling out to them.

Progress on the Path *Jupiter Square Pluto*
 In the enthusiasm for a new cause or idea this year you can sometimes back it up with a little too much or ill-placed force and break the very thing that you want to sustain. There is a general climate right now for making that judgment error, and once you have made it, there usually is no going back. Be willing to back off before you must.

Saturn

Caution, Wariness, Wisdom, Boundaries

Obstacle: Sacrifice

Saturn in Pisces

This year will produce the end of many illusions and hard times for those who perpetrate them. Matters of unconfirmed belief are likely to be tested, and those who have relied on intuition alone to get by may have to take a more tangible and practical approach. Real and imagined spirituality are set side by side to see which passes the test.

Obstacle: Energy

Saturn in 1st House

Rushing this year along won't help, as you're more likely to take it at a slower pace, and perhaps the better for it. A sometimes-grave demeanor gets you taken seriously, but don't take yourself too seriously as a result. Gravitas is great, but it's sometime short on fun or a reasonable resemblance to reality.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus Discovery, Revelations, New Ground

Freedom: Productivity *Uranus in Taurus*

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

Freedom: Ideas *Uranus in 3rd House*

Sudden changes of mind because of unexpected new communication lines opening up keep you on your toes. A lot of them may emanate from you, so you shouldn't really be so surprised. By insisting on doing it a new a better way, the flow gets interrupted, but for the better, once you've adjusted to the new approach.

Neptune Dreams, Hopes, and Fantasies

Embrace: Life *Neptune in Pisces*

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

The Stage You Share (continuation)

Release: Action

Neptune in 1st House

You can be as smooth an operator as you like this year, but that can work for or against you. You can wear the mask, but take it off and others may think you're still wearing one. It's the actor's dilemma. Use it to fool people into doing what is right, not just what you want, and it won't backfire on you.

Change Blocked

Neptune Sextile Pluto

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Life

Pluto in 12th House

Kids shouldn't play with guns, because they go off when least expected. So it is with adults, and when you think you're safe with the equalizer in your palm, it could turn out you've brought a pistol to a tank battle. Smug delusions of power are the danger this year, with undoing from unexpected quarters if you get to feeling too sure wielding your advantage.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Sun

Your Inner Personality and Style

A New Vision

Moon Conjunct Sun

A birthday new Moon emphasizes your Sun-sign for the whole year, so you get an extra boost of confidence and self-assuredness for the duration. It's like a double-barreled shot of your own native style up front and center, with ammunition to spare. Just don't be too unsufferable while reveling in it.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Fresh Ideas

Moon Conjunct Mercury

Really feeling what you say is a theme for the year, as your new emotional take is tied to your talent for figuring things out. So articulating your reactions come easy, and while others are still stammering to say what they mean, you've already hit the nail on the head with the first words out of your mouth.

Uranus

Discovery, Revelations, New Ground

Innovative Ideas

Moon Conjunct Uranus

The more inspired, if sometimes edgy, part of your personality is emphasized this year, and you've got a feel for the unusual approach right off the bat. You may be a bit unpredictable in your reactions, which can be rather sudden and intermittent, not exactly a rock to rely on. But when you hit it, it's the jackpot.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Mental Accent

Mercury Conjunct Mercury

Your native mindset is reinforced this year, and you're a step further along in your fundamental approach to thinking and analysis. Essentially, you're revisiting your own mind, re-familiarizing yourself with what's unique about your thought processes and sharpening your wit based on a new plateau of self-awareness.

Featured Natal Positions (continuation)

Saturn

Caution, Wariness, Wisdom, Boundaries

Ideas of Discipline

Mercury Conjunct Saturn

You can see and understand your boundaries, and good fences make good neighbors is something everyone around you can understand and agree with. When you make it clear where one plan stops and the next begins, everyone feels more comfortable about where they stand and where they're going. Clarity begets confidence.

Uranus

Discovery, Revelations, New Ground

Insights and Ideas

Mercury Conjunct Uranus

The trouble with the arrival of sudden inspiration is that it departs just as quickly. Not this year, however, as your ability to get that brilliant plan down on paper and get it out to everyone is particularly enhanced. Not only do you have the invention, you have the patent, too, and that's what pays in the end.

Neptune

Dreams, Hopes, and Fantasies

Mystical Ideas

Mercury Conjunct Neptune

Articulating your dreams is never easy, but it's a step more so this year as that nebulous plot line suddenly has characters and dialogue and you're pretty sure what the next development is likely to be. When you say too much, it can be confusing, but when you choose just the right words for the feeling, it's poetry.

Pluto

Necessity and Fate, Power, What Must Be

Ideas of Control

Venus Conjunct Pluto

The iron fist in the velvet glove has almost the feeling of a caress this year, as your inclination to enforce your will has greater appeal and approval than it has at other times. Don't push it too far, but if you stamp your foot and insist, you may find them falling at your feet, ready to deliver the goods.

Sun

Your Inner Personality and Style

Ideas for Effort

Mars Conjunct Sun

You'll be burning hotter than usual this year, and your sometimes fiery approach to selling yourself can be just what's needed to heat up passions all around. You'll have more energy to spare, to add to your endeavors in work or play, and you may tend to leave others behind who aren't up to your inner intensity.

Venus

Your Needs, Wants, Desires

Ideas of Control

Pluto Conjunct Venus

You may find it difficult, if not impossible, to get the things you want for a while and there is little to do about it except to do without until you better understand why. Essentially your fortunes are turning a corner and what you want now you will have no use for later, so it's for the best.

Mars

Your Energy, Life Force, Excitement

Manage Practical Action

Midheaven Conjunct Mars

What you do is up for public display this year, whether it's your professional work or just your physical way of pursuing your daily accomplishments. People will hear that you're the one who's taking action, so it will be expected of you. That's a good way to find yourself in charge, but watch that it doesn't turn into a general expectation and a burden.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Dec 13, 2023 to Dec 13, 2024

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

You may be taken extra seriously about how you present yourself right now, so when in doubt, lighten up for the sake of all concerned.

High physical energy is pushed by extra motivation and a lot can be accomplished as long as burnout is avoided. Push it to the edge and then back off before pulling a muscle. Similarly, don't let the person behind you urge you beyond your limits. The power available should be harvested, then invested.

Ideas of Control

Venus Conjunct Pluto (TR-SR)

Compulsive desire is all the rage, and some people are ready to go to any ends to get what they want. Gotta, gotta, have it, whatever the price anyone pays. So, be sure that you don't get in between the desirer and the desiree. On the other hand, this is the aspect of unbearably overwhelming passion when put into effect.

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
