CUSTOM PROGRAM

WE MAKE CUSTOM EASY

Some spaces simply call for unique solutions, with ideas that bring the people and area to life. Artsman makes customizing these spaces, and creating distinct pieces to suit them, easy. We can work with your design team or manage the entire process turnkey through our studios in Cincinnati, Ohio.

OUR PROCESS

1. Discovery

Custom is all about you. We start with understanding your vision, your wants and needs, space requirements, key dates, budget, and more.

2. Design

With your vision in mind, our design team will craft a range of solutions that enable you to choose the best fit for you.

3. Fabrication

Our craftsmen get to work creating your piece or pieces. For larger projects, we can provide work-in-progress images that let you see your art coming to life.

4. Delivery

For smaller pieces, we can ship directly to you. For larger projects, we ship for your installation team or manage installation turnkey.

5. Installation

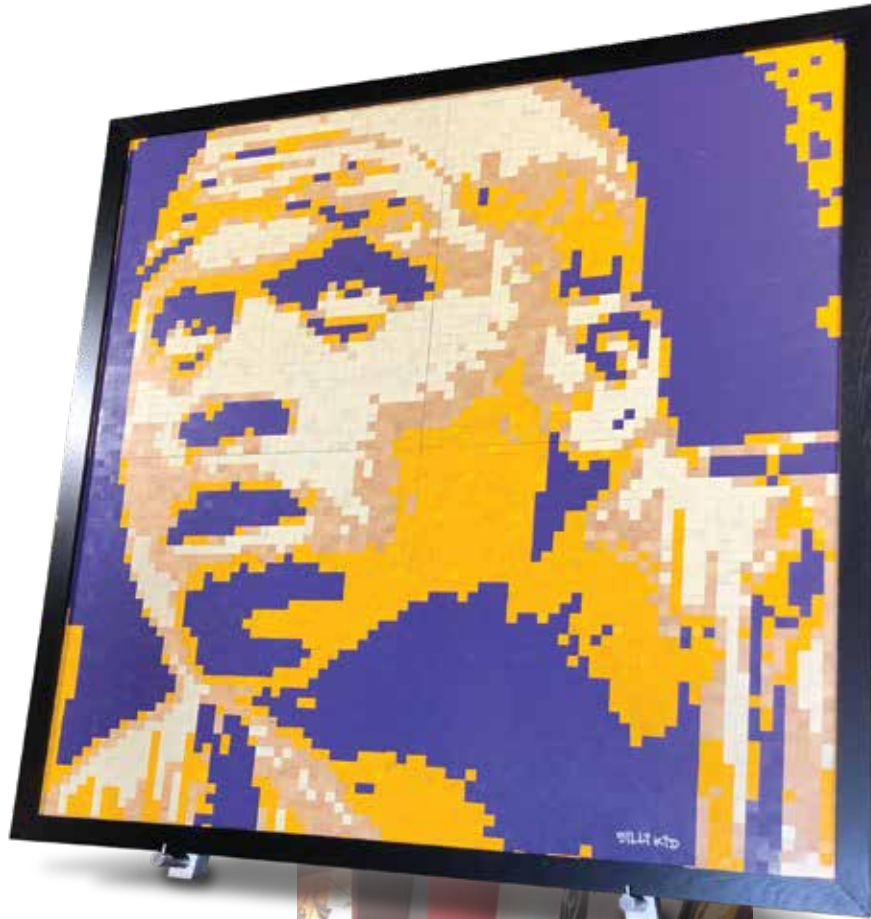

Our team can set up your custom creation on site to guarantee best fit and manage any space challenges in real time.

6. Follow Up

We stay engaged until the end to make sure your piece is perfect for you.
