

AVAILABLE IN 3 COLORS:

# OmniBlend

## Buyers Guide

2015-2016

## Introducing the OmniBlend

There are certain commercial-grade appliances that, thanks to their durability and versatility, are must-haves in any kitchen or bar. The OmniBlend with its powerful 3 Horse Power Motor can be compared with the VitaMix, BlendTec and Hamilton Beach [\(watch comparison videos\)](#).

The OmniBlend range consists of 2 models: OmniBlend V and the OmniBlend I. Please compare the differences between both models on page 4.

## How durable is the blender?

The 2,238 Watts Motor is one of the most reliable motors in the industry and comes with a 7 year warranty. The motor is protected against power surges and overheating with its overload reset button. The jugs are virtually unbreakable.

## Competitive pricing

The OmniBlend is the most inexpensive 3 Horse Power blender on the market. Its affordability make it a very logical choice for novice cooks and master chefs.

Maintenance and spares are also very affordable and spares are always in stock.

## Many possible applications

OmniBlend is also known for its versatility. Whether you require a reliable blender for frappés, smoothies, milkshakes, nut butters, soups or pastes, it can do it all!

## Warranty, After Sales and Returns

The OmniBlend comes with a commercial warranty and a domestic warranty. The motor has a warranty of 3 years, parts and labor fall under the limited warranty.

## How to order your blender?

You can order in 3 ways:

1. Online: visit [omniblend.co.za](http://omniblend.co.za)'s online webshop.
2. Email: email us your order: [sales@omniblend.co.za](mailto:sales@omniblend.co.za)
3. Telephone: give us a call on 010 312 5999

## You are in great company!

OmniBlend is the workhorse of choice for many commercial outlets. With these brands putting their trust in OmniBlend, you know you are in great company.

# Which OmniBlend model to buy?

The OmniBlend Blenders come in 3 colors – Stone White, Red/Maroon and Black. This is however not the biggest and most important difference.

The difference between the OmniBlend I and the OmniBlend V is the user interface. The OmniBlend I allows for variable speed control - which the OmniBlend V does not. The OmniBlend V has the touchpad with 3 fixed speeds.

They both have the same 3HP motor, so they are equally powerful. They both have the same warranty of 3 years.

# Customer Testimonials

We need to be able to pump out smoothies non-stop, sometimes as many as 1500 smoothies a day. Using a commercial blender has streamlined the process and an all-in-one appliance also takes up less space. The OmniBlend is also really hardy so we can crush ice without the blades snapping. OmniBlend really goes above and beyond to help us out.

ALEXIA LILIKAKIS - FOUNDER BARMOTION

The blenders are the best value for money on the market and are commercial quality. Many low-end blenders run into all sorts of problems. The OmniBlend is durable and a great 'health' investment for any household.

TIM SPENCER - OWNER OF ORCHARD ON LONG

Great after-service, quick turn-around times. OmniBlend is an affordable blender that can do everything a Blendtec or Hamilton Beach could do.
