SleepyBaby®

HEALTHE™ LED NURSERY LAMP

Our Sleepy Baby® LED Nursery Lamp was designed with our proprietary light spectrum to reduce harmful blue light and will not disturb your infant's sleep when you need the lighting on to care for your little one. The proprietary LED spectrum helps your baby to develop a natural circadian rhythm, fall asleep faster, stay asleep longer and fall back asleep quicker if awoken in the middle of the night.

For Best Results: Use the SleepyBaby LED lamps for any illumination in the evening, especially before going to bed and during standard bedtime routines. Please turn off SleepyBaby before going to sleep, as the best sleep is always attained in a dark, cool room. SleepyBaby should be used if light is required during any nighttime activities, such as changings or feedings.

- **Start Your Baby Out Right:** Encourages your baby to develop healthy sleep patterns right from the start—an important step in maintaining a healthful and balanced circadian rhythm
- **Patented Spectrum to Encourage Healthy Natural Sleep:** Proprietary light spectrum technology minimizes the types of light energy known to cause sleep disruption
- **All Natural Solution:** Natural and effective way to allow your baby's body to produce melatonin - a hormone necessary to fall asleep and stay healthy
- **Standard E26 Base:** Fits most nursery/ household lamps

PRODUCT SPECIFICATIONS

SPECIFICATIONS ¹	TABLE COLUMN HEADER
Color Temperature	SLPB - Sleepy Baby
Output (Lumens)	270
Equivalent Source Standard	40 WE
Input Voltage (V)	120 V
Power Consumption	3.5 W
Power Factor	> 0.9
Dimmable	Yes
Product Dimensions (LxWxH in/cm)	3.5 x 1.8 in / 8.89 x 4.57 cm
Weight (lbs/kg)	0.1 lbs / 0.045 kg
Base	E26
Warranty	5 Year Limited
Environment	Dry
Certifications	ETL Intertek, FCC
