### Pfizer/BioNTech vaccine

Store in a freezer between -80°C to -60°C

Store in a thermal container between -90°C to -60°C

Store up to 5 days in a fridge between 2°C to 8°C

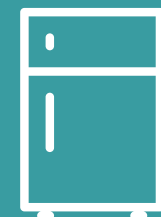

Safe to use up to 2 hours at a temperature up to 25°C

### Moderna vaccine

Needs to be stored between -25°C and -15°C

Thaw vials before use between 2°C to 8°C for 2.5 hours

Leave vial at room temperature for 15 minutes before use

### Oxford/AstraZeneca vaccine

Needs to be stored between 2°C and 8°C (normal fridge temperatures)

Use vial as soon as possible and within 6 hours after first dose withdrawal in temperature between 2°C and 25°C
