Digital Library

A document management and training system, allowing healthcare organisations to multi-manage documents

What is Digital Library?

Digital Library is a document management and training system that meets the security requirements for the NHS in full. You can control versions, set up questionnaires to aid your training requirements, make items confidential, and much more.

It is a system specifically designed for healthcare and, therefore, offers what is needed within primary and secondary care settings.

Key Functionalities of Digital Library

1   *Manage documents safely*

2   *Manage Standard Operating Procedures & other confidential documents*

3   *Train staff via assessments & set desired learning outcomes*
