Black Metal Square Rectangular Design Spindle

Modernise your staircase with the Black Metal Square Rectangular Design Spindle, expertly finished in a sleek matt black powder coat. The generous 1120mm length allows plenty of flexibility for your individual staircase installation, simply cut down this iron spindle on-site using a hacksaw or equivalent tool to achieve the desired length.

These metal spindles easily integrate with brackets or can be fitted effortlessly into a 12.5mm x 12.5mm groove. Our black iron spindles combine modern aesthetics with practicality, providing a stylish and durable solution for your new staircase balustrade.
