Oak Stop Chamfered Newel Post

Elevate your staircase with the Oak Stop Chamfered Newel Post, a more sophisticated design choice than our Oak Square Newel Post. Available in both Unfinished and Finished options, this oak newel post combines customisation with easy installation. The dimensions of 90 x 90 x 1500mm ensure a seamless fit for most use cases, however longer oak chamfered newels can be provided on request. We think the beautiful chamfered edges pair well with other chamfered products such as our Oak Stop Chamfered Spindle, helping to really take your staircase renovation to the next level.
