

AOCPPI-16

Portable Plug-In Air Purification System Guest Room / Resident Room / Dorm Room / Classroom

...with Advanced Oxidation Cell (AOC) Technology

Continuously treat the air and surfaces in any living space, classroom, or common area 24 hours a day 7 days a week to mitigate and eliminate contaminants and malodors including but not limited to.....

- Viruses
- Allergens
- Bacteria
- Mold/Mildew
- Smoke Odor (cigarette; marijuana)
- Food / Curry Odors
- Chemical Odors (VOC's)
- Pet Odors

Other Benefits Include...

- Improve overall “Indoor Air Quality” for occupants and associates
- Positive impact on Health & Wellness
- Low to no ongoing preventive maintenance
- Safe and easy to use

Advanced Oxidation Cell (AOC) Ultraviolet Light + Proprietary Metal Target

The AOC Technology

The AOC PPI-16 Portable Plug-In Air Purification System utilizes our exclusive Advanced Oxidation Cell (AOC) technology. The AOC Technology consists of a broad spectrum UV light surrounded by a hydrated quad-metallic coated Cell. The interaction between the two creates Advanced Oxidation Products (AOP's). The AOP's are effective in eliminating airborne and surface contaminants (e.g. viruses; fungi), and are equally effective in eradicating virtually any malodor (e.g. smoke; must). The oxidizers break down into carbon dioxide and water vapor.

SPECIFICATIONS:

Model: AOC PPI-16
Dimensions: 11 ¾" H x 5 ¾" W x 3 ¾" D
Weight: ~2 lbs.
Material/Finish: Polymers/Beige
Voltage: 110 volt
Fan: 10 CFM
Cells: One (1) 5" Standard
Installation: Portable

**Area coverage for the AOC Systems can be positively or negatively affected by the areas organic load, type of materials utilized in the room (e.g. absorptive vs. hard surfaces), treatment time, structural configuration of the area to be treated, and the capacity/specification of air conditioning units; each application will be assessed and the appropriate System will be suggested based on the assessment*

Note: Standard Cells have a rated life of 25,000 hours
