

Ducted - Split Cooling Systems

Wine is your Passion. Preserving it is ours.

Wine Guardian® ducted split wine cooling systems are the **quietest**, **most versatile** on the market. They provide optimal **temperature and humidity control** for both commercial and residential cellars and accommodate many different types of applications.

Wine Guardian ducted split systems provide the **reliability** you can count on to be sure you are creating the perfect environment for the preservation of your fine wine collection— even though the unit is **hidden from view**.

Versatile enough for use in any wine cellar...

- The split system is our most versatile unit with multiple capacities for cellars of any size and configuration
- Multiple supply air openings for installation flexibility (5 sides, including bottom option)
- High static pressure fans for extended lengths of ductwork

Ducted split system with optional, integrated humidifier

Sophisticated enough for use in your cellar

- Commercial-grade, all-aluminum construction for long-term durability
- Remote user interface for temperature control and humidity readout
- Operates in ambient temperatures between 0° - 122°F (-18° - 50°C) with standard low ambient protection on DS025 & WGS40

Options

- Integrated humidifier
- Integral electric heat
- Duct kits
- Remote monitoring and sensing
- Factory-configured serving temperature option

Ducted - Split Cooling Systems

Benefits of a ductable split system

- Flexibility in system location and cellar design (Can be located above, below or adjacent to cellar)
- Quiet operation on fan coil (Evaporator) side
- No vibration transmitted to the cellar
- Superb air distribution and temperature control
- Easy access to components

Removable cover panel for easy access

Fan coil unit (Left) and outdoor condensing unit (Right) (SS050, SS088, SS200, WGS100, WGS175 only)

Wine Guardian Evaporator (L) and condensing unit (R) (DS025, WGS40 only)

*Condensing unit is patented
US Patent No. D791294
EU Patent No. 003189349-0001

DS025/WGS40 Condensing unit with easy-access cover

SS050, SS088, SS200, WGS100, WGS175 Condensing unit with easy-access cover

Ducted - Split Cooling Systems

60 Hz System Specifications

Model	Capacity*		Length	Width	Height	Electrical	Weight
DS025	3,400 BTU/H	Fan coil condensing unit	14" 9"	17" 34"	14" 25.12"	115v / 1ph / 60Hz 208 - 230v / 1ph / 60Hz	25 lbs. 75 lbs.
SS050	5,500 BTU/H	Fan coil condensing unit	22" 24"	17" 19"	14" 18"	115v / 1ph / 60Hz 115v / 1ph / 60Hz	35 lbs. 98 lbs.
SS088	9,420 BTU/H	Fan coil condensing unit	22" 30"	17" 23"	14" 22"	230v / 1ph / 60Hz 230v / 1ph / 60Hz	37 lbs. 152 lbs.
SS200	14,900 BTU/H	Fan coil condensing unit	22" 38"	21" 38"	18" 27"	230v / 1ph / 60Hz 230v / 1ph / 60Hz	56 lbs. 192 lbs.

* Net cooling capacity at entering temperature and humidity conditions of 57°F/14°C and 55% RH at rated airflow and 80°F/27°C condenser inlet air. Reduce capacity by 3% for each 10% reduction in evaporator airflow. Sizing note: Many variables affect proper unit sizing, including type of construction, insulation values, amount of glass, residential vs. commercial applications, etc. (specifications nominal). Proper unit size should only be determined by using the Wine Guardian cooling calculator. Check with your Wine Guardian authorized distributor for more information. Not all systems may offer all the features described above. For instance, humidity can only be controlled if the unit is equipped with a humidifier. Wine Guardian split systems should be installed by a professional HVAC technician. Wine Guardian systems are made in the USA. Manufacturer reserves the right to make changes to this document, without prior notice, at its sole discretion.
