## PREM-L Cabinet Loading with Presentation Shelf options

See above it will give the answers to all your questions.

- How many presentation shelves could you do as a max in a Prem L:
   5 but I like better the 3 because the bottles are better presented, and you stock more bottles
- If you did the entire cabinet in presentation shelves, how many bottles would that be?
- 3. How many shelves does the presentation shelf replace? Depending on the inclination desired: 2 or 3
- 4. How many bottles does each presentation shelf hold?

  Depending on the inclination desired: 22 or 32
