## LABYRINTH RADIO with FLASH TUNING

See the difference—hear the difference. This is the difference between a radio that just plays music and a radio that plays music the way you want it. The Labyrinth Radio with Flash Tuning is the only radio in the world that lets you tune in any station you want. It's the only radio that lets you tune in any station you want. It's the only radio that lets you tune in any station you want. It's the only radio that lets you tune in any station you want.

# STROMBERG CARLSON, SINCE 1894

**"STOP!"** exclaimed Mother, the wife of the family. "Let's wait awhile for a new radio. But Dad and I played a hunch. We felt that once she'd seen and heard a really fine new radio-phonograph with FM—she'd go for it! In one bright Saturday, we loved her to a Stromberg-Carlson dealer.

**"LOOK!"** cried Dad. "Isn't that Pam Armstrong—a most-looking cabinet? And that Silem Chas—wouldn't you make out living room!" Mother's face lit up. Dad had touched her weakness for beautiful furniture.

**"LISTEN!"** said Mother suddenly. "That sounds like a concert artist—playing a Chopin waltz right on this floor! Why hasn't someone told me that FM is so glorious! Dad winked at me—then at the salesman—who winks the eye to show us the wonderful! Stromberg-Carlson features that make his voice so rich and true to life."  
P. S. Now Mother's big ambition comes every time she shows off her "discovery!"

See the difference—hear the difference. In magnificent special cabinets, executed by master craftsmen in flawless, life-like imitation of rose. Your Stromberg-Carlson dealer—listed in the classified pages of your phone book—will be happy to show you how Stromberg-Carlson's 30 years of experience in sound reproduction makes possible today's best dollar-to-dollar value!

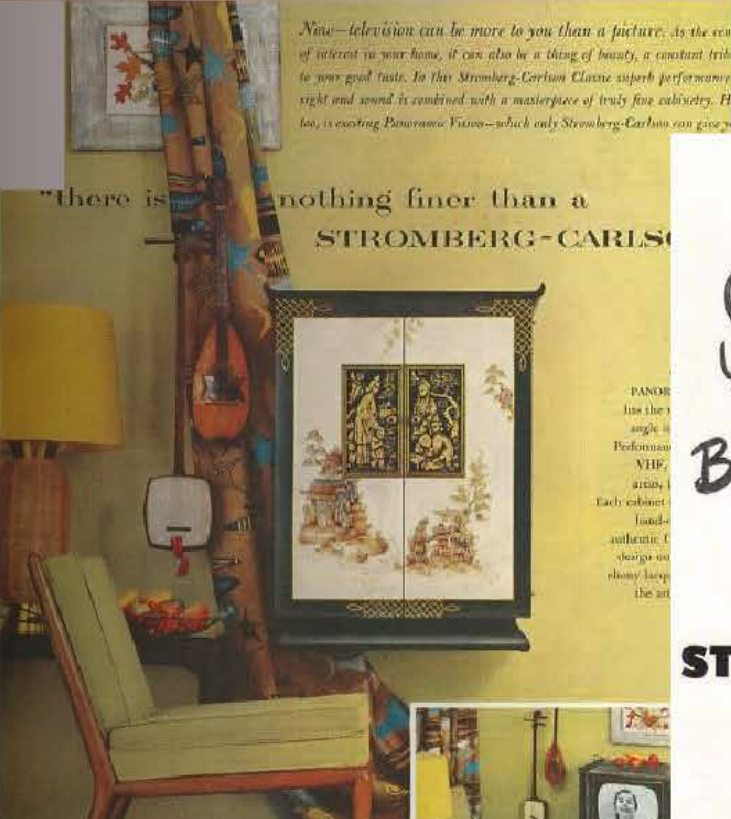

**PIONEER SPECIAL.** This new FM-AM radio. Twenty-eight cabinet of solid, hand-rubbed mahogany. Standard double door trim. May select reception of both standard broadcast and FM program.
