

### Grade 1

- |   |                                  |                                    |
|---|----------------------------------|------------------------------------|
| 1. Making Groups and Numbers                | 8. Organizing Information        | 15. Which One Takes Up More Space? |
| 2. Ordinal Numbers                          | 9. Which One is Longer?          | 16. Numbers Greater Than 20        |
| 3. Two Numbers Together                     | 10. Calculation of Three Numbers | 17. Time — Hours and Minutes       |
| 4. Adding Together and Adding More          | 11. Which One Has More?          | 18. Money                          |
| 5. What is Left and What is the Difference? | 12. Addition                     | 19. Let's Use Diagrams             |
| 6. Numbers Greater Than 10                  | 13. Playing with Shapes          | 20. Making Shapes                  |
| 7. Time — Hour and Half-Hour                | 14. Subtraction                  |                                    |

### Grade 2

- |                          |  |                                     |
|--------------------------|--|-------------------------------------|
| 1. Tables and Graphs     | 8. Better Ways to Calculate            | 15. Units of Length of Long Objects |
| 2. Time and Elapsed Time | 9. Addition and Subtraction Algorithms | 16. U.S. Customary Units of Length  |
| 3. Addition Algorithm    | 10. Triangles and Quadrilaterals       | 17. Units of Capacity               |
| 4. Subtraction Algorithm | 11. Fractions                          | 18. U.S. Units of Capacity          |
| 5. Units of Length       | 12. Multiplication (1)                 | 19. Addition and Subtraction        |
| 6. 3-Digit Numbers       | 13. Multiplication (2)                 | 20. Shapes of Boxes                 |
| 7. Units of Money        | 14. 4-Digit Numbers                    |                                     |

### Grade 3

- |  |   |  |
|--|---|--|
| 1. Multiplication                      | 8. Structure of Large Numbers                 | 14. Fractions                                      |
| 2. How to Find Time and Elapsed Time   | 9. Multiplication Algorithm (1)               | 15. Math Sentences Using $\square$                 |
| 3. Division                            | 10. Division With Large Numbers               | 16. Multiplication Algorithm (2)                   |
| 4. Circles and Spheres                 | 11. How to Measure the Length of Long Objects | 17. Bar Graphs and Tables                          |
| 5. Addition and Subtraction Algorithms | 12. Decimal Numbers                           | 18. Measurement Units of Weight and How to Measure |
| 6. Mental Calculation                  | 13. Triangles                                 |  |
| 7. Division with Remainders            |   |  |

### Grade 4

- |  |  |  |
|--|--|--|
| 1. Structure of Large Numbers                      | 7. Division Algorithm (2) - 2-digit Divisors | 13. Approximate Numbers                            |
| 2. Size of Angles                                  | 8. How to Organize Data                      | 14. Multiplication and Division of Decimal Numbers |
| 3. Division Algorithm (1) — 1-Digit Divisors       | 9. Properties of Operations                  | 15. Calculations with Money                        |
| 4. Perpendicular/Parallel Lines and Quadrilaterals | 10. How to Measure and Express Area          | 16. Cubes and Cuboids                              |
| 5. Broken Line Graphs                              | 11. Fractions                                |  |
| 6. Structure of Decimal Numbers                    | 12. Investigating Changes                    |  |

### Grade 5

- |                                      |  |  |
|--------------------------------------|--|--|
| 1. Whole Numbers and Decimal Numbers | 6. Even and Odd Numbers, Multiples and Factors | 11. Area of Quadrilaterals and Triangles       |
| 2. Volume of Cubes and Cuboids       | 7. Per Unit Quantity                           | 12. Percentage and Graphs                      |
| 3. Multiplication of Decimal Numbers | 8. Fractions and Decimal Numbers               | 13. Regular Polygons and Length Around Circles |
| 4. Division of Decimal Numbers       | 9. Angles of Geometric Figures                 | 14. Multiplication and Division of Fractions   |
| 5. Congruent Shapes                  | 10. Addition and Subtraction of Fractions      | 15. Prisms and Cylinders                       |
