

LES FEUX DE COURCH'
— 1850 —

Bring a Piece of Courchevel Home.

Bring a slice of Courchevel into your home.

It is a concept birthed amidst the evocative smells of wood and fine millésimes, amidst the coziness of warm clothing by a fireplace in a chalet, symbolizing the elegant convergence of art and design. It's not just a product; it's an experience, a fragment of Courchevel's luxurious charm and warmth, now accessible in your personal space.

L'ECLIPSE - ONE

L'ECLIPSE - ONE

The conception of our product springs from the quintessential alpine experiences — the crisp mountain air during our day of skiing, followed by the warm embrace back to our chalet.

“

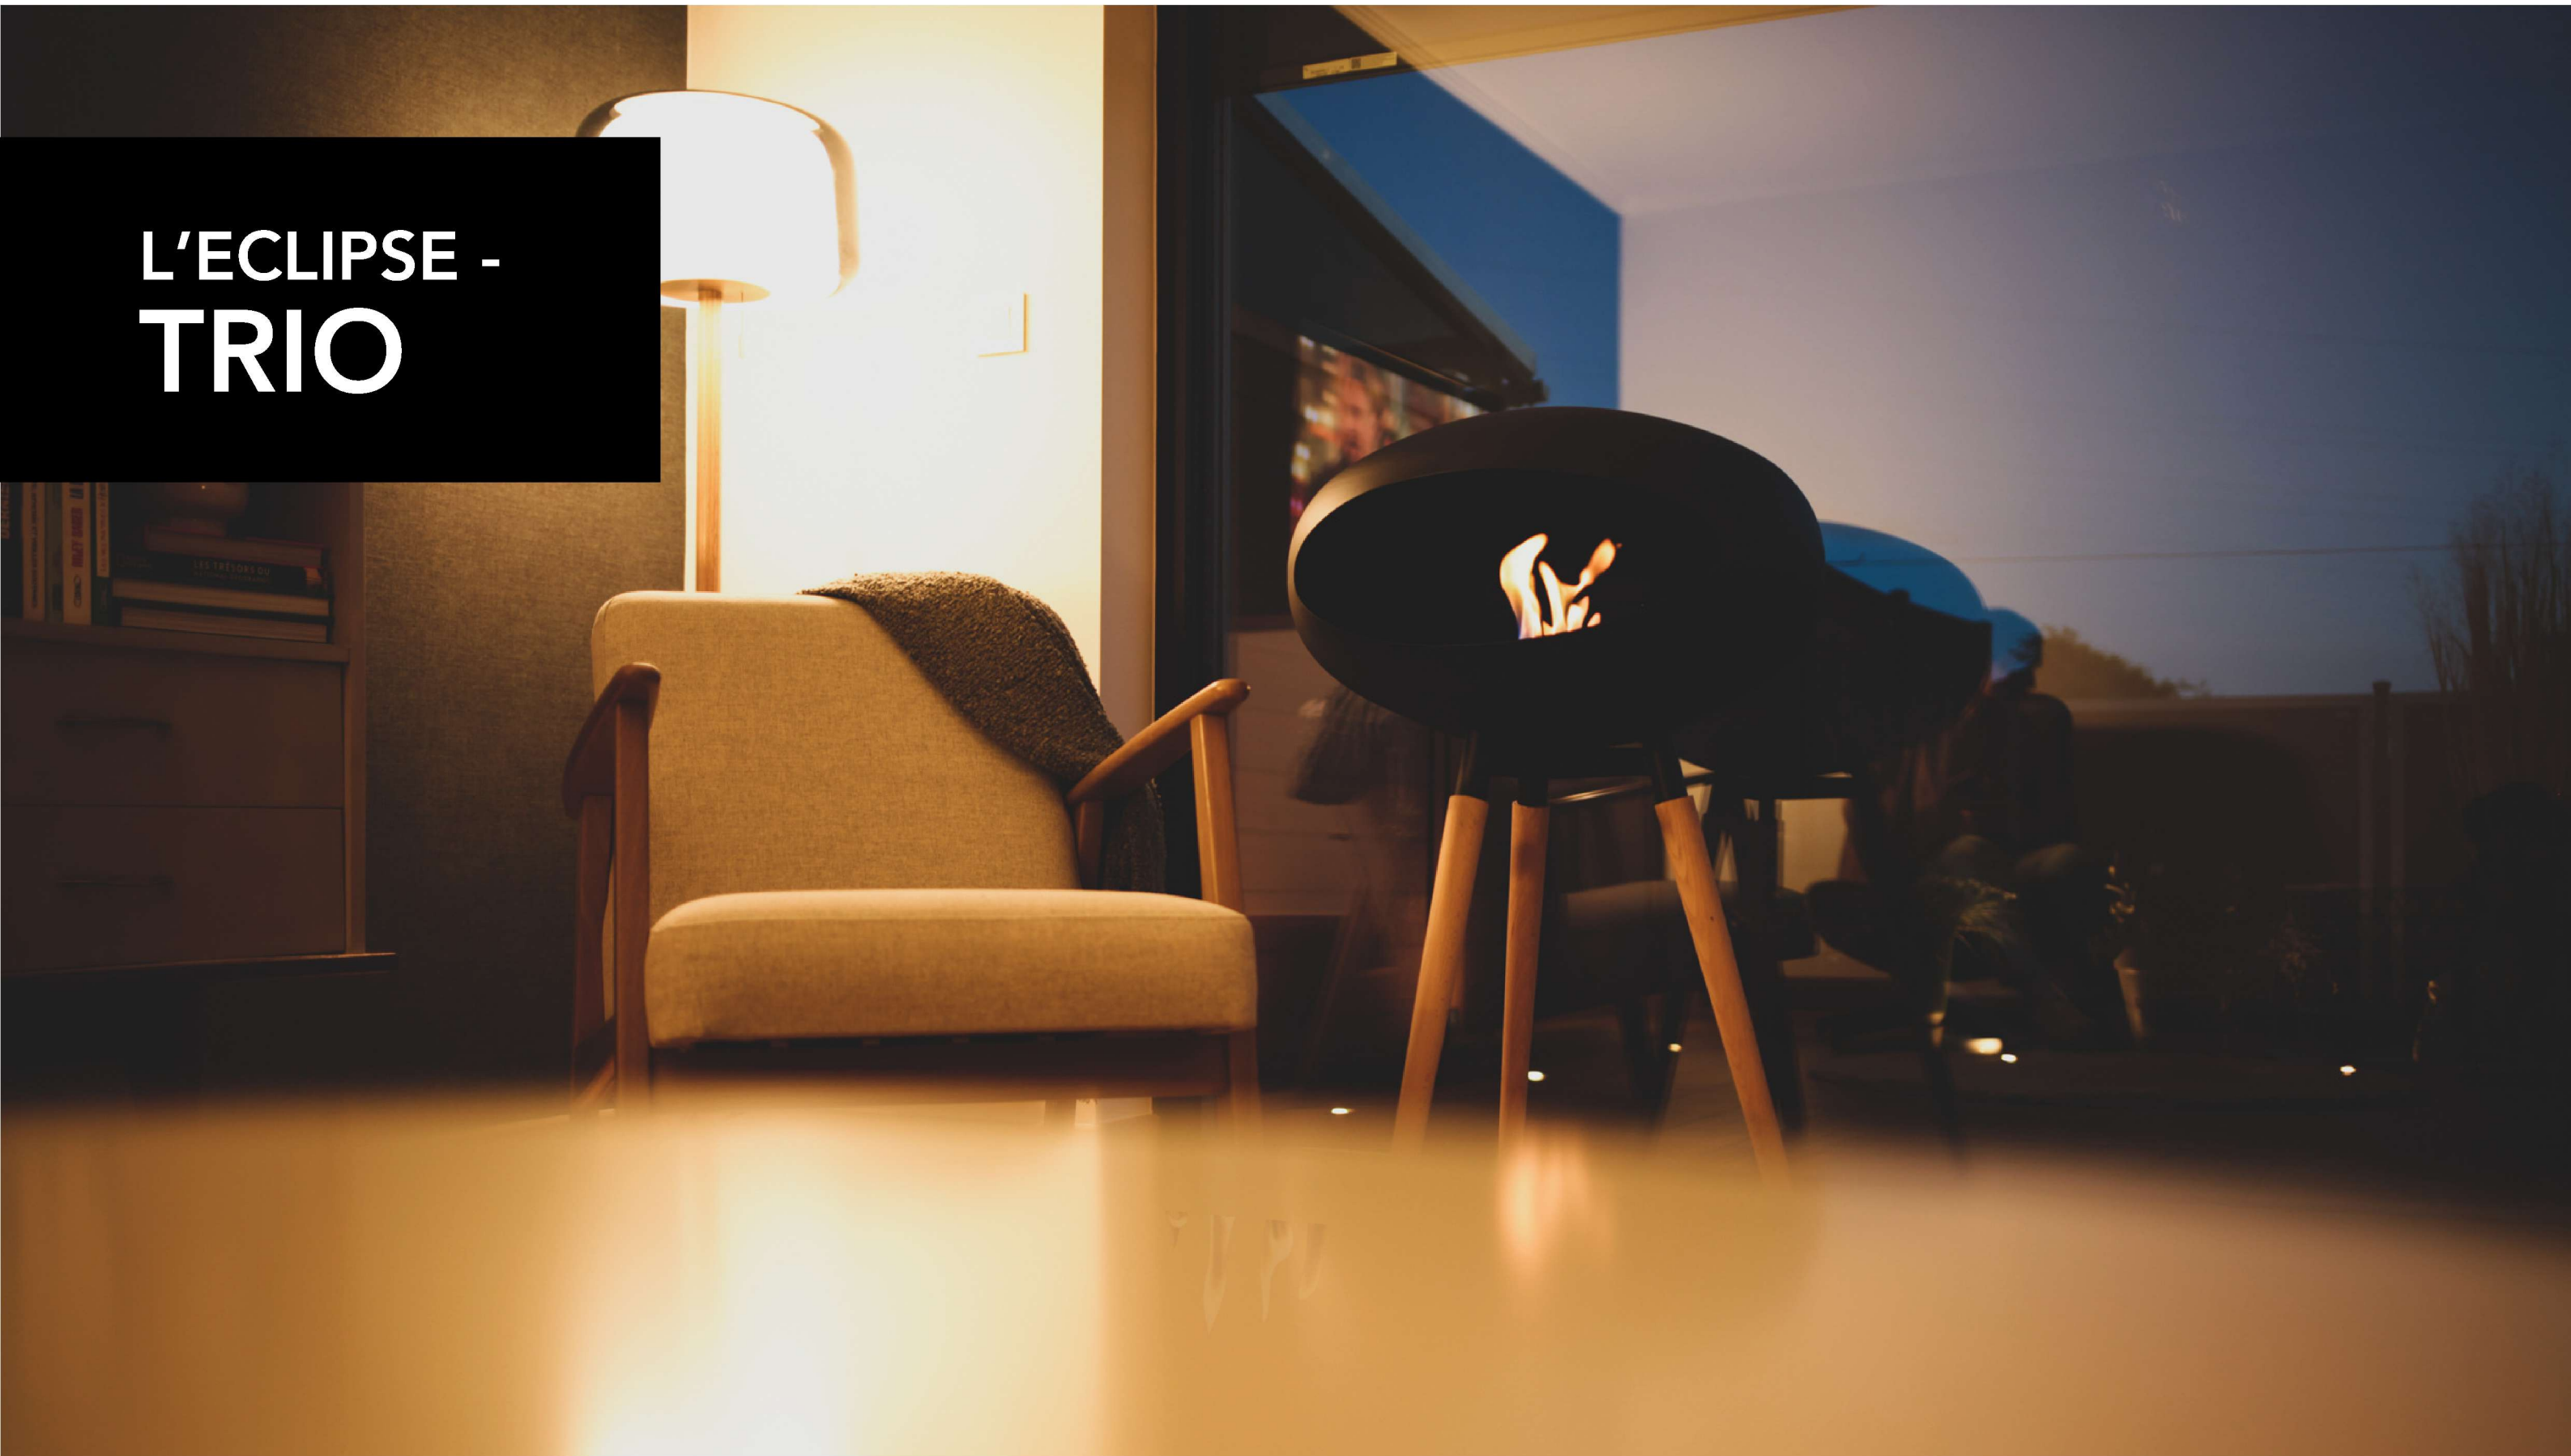

More than a product, L'Eclipse is a piece designed to create magical moments.

Smokeless. Eco- friendly. No chimney.

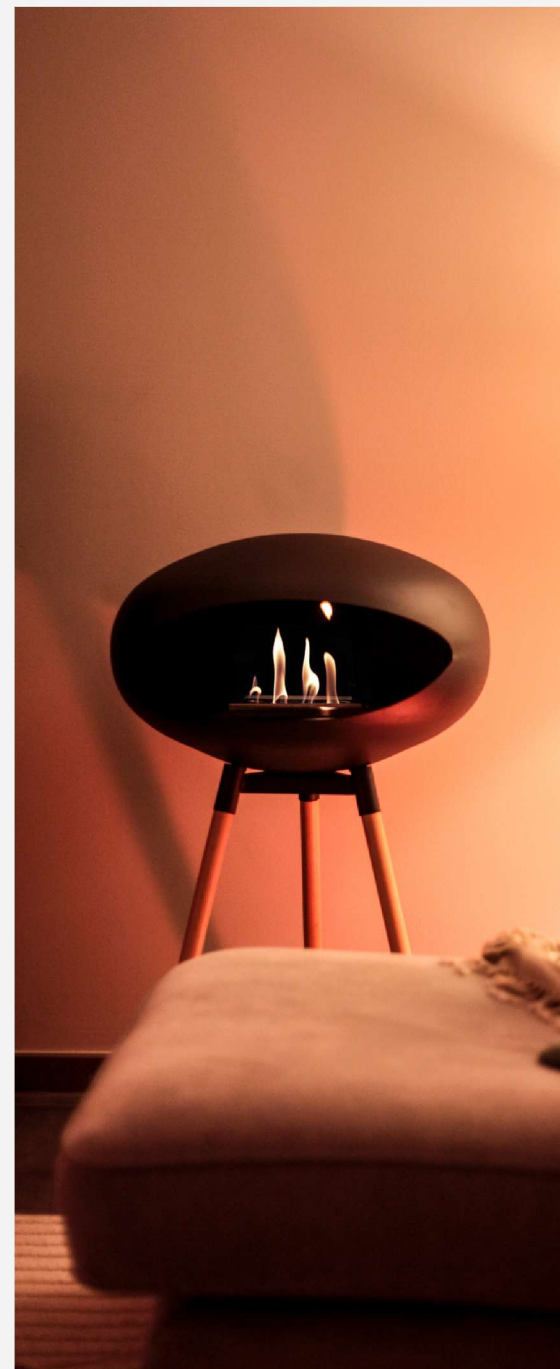

Crafted from high-quality steel, L'Eclipse One is a unique piece that will suit any interior, whether classic or modern. Its burner and shape have been designed to fit both indoors and outdoors.

L'ECLIPSE - TRIO

L'ECLIPSE - TRIO

L'Eclipse Trio, as its name suggests, lets a sparkling flame shine through its matte-black shell, supported by handcrafted legs in oak finish. It releases a reassuring warmth and brings comfort into your home.

“

More than a product,
L'Eclipse is a piece
designed to create
magical moments.

L'ECLIPSE - FLOAT

L'ECLIPSE - FLOAT

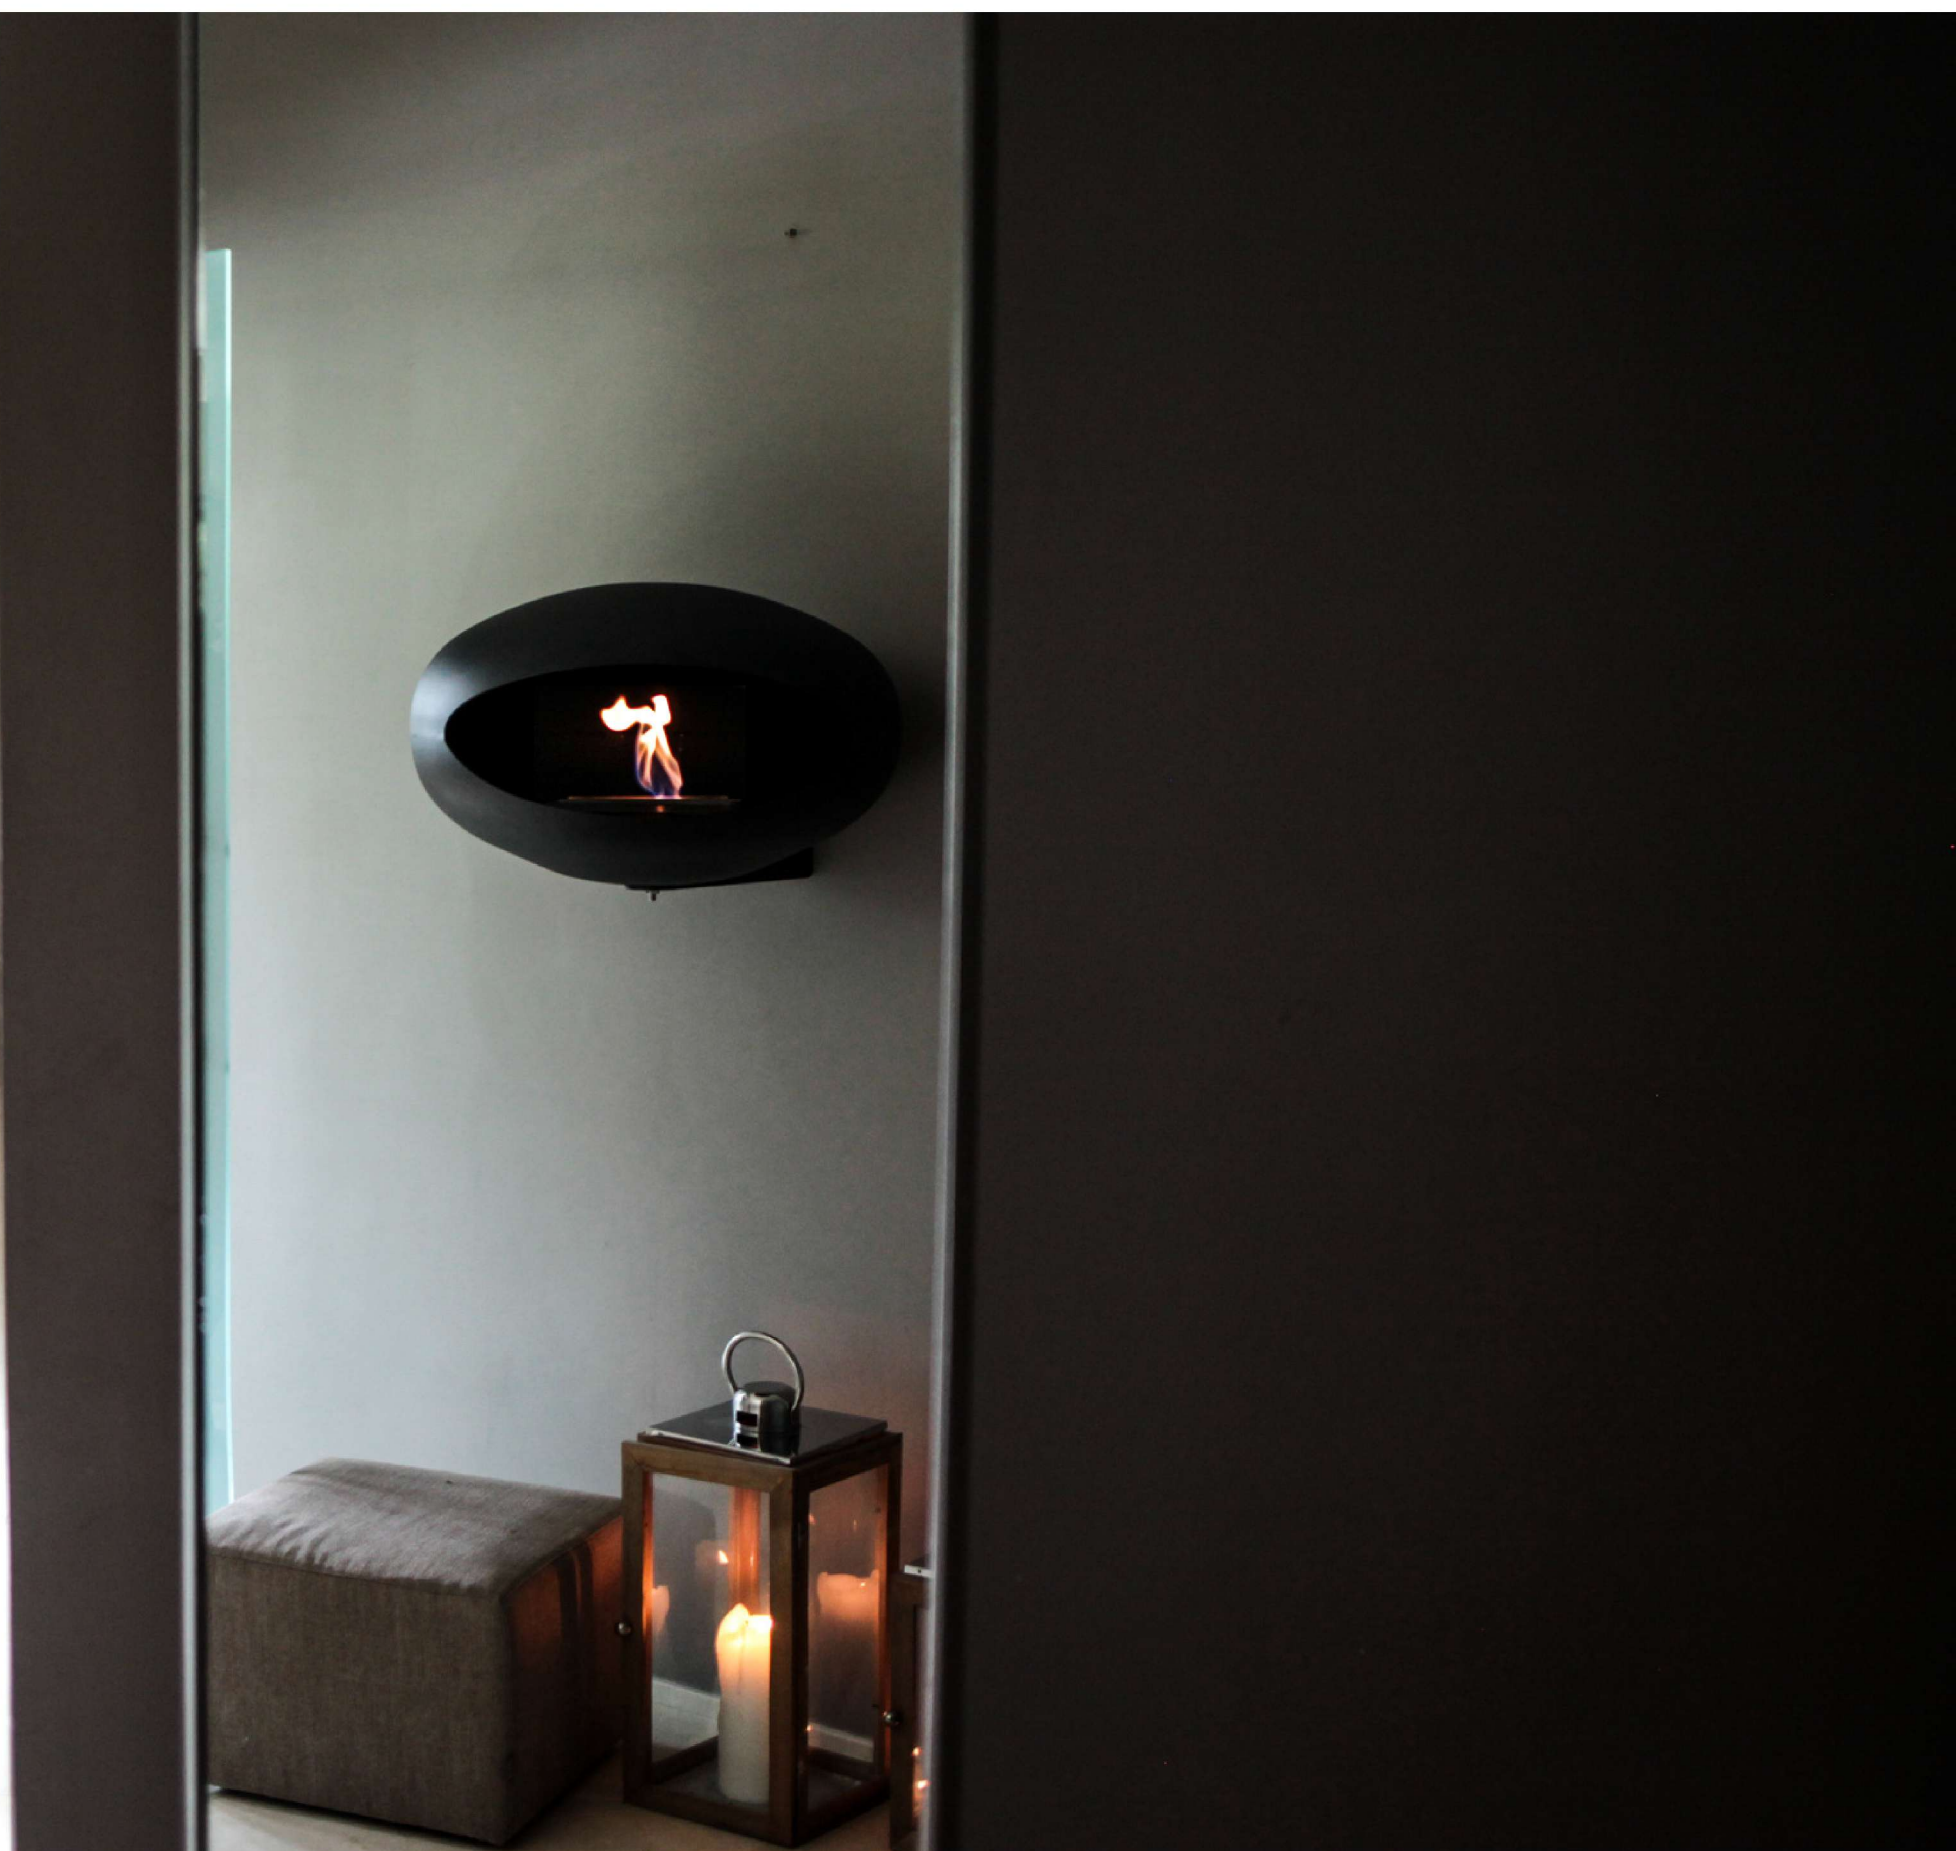

L'Eclipse Float is characterized by its elegance and lightness in the air. Like a stalactite, its presence bewitches and radiates. Its diffused warmth warms souls and brings happiness to your home.

0 smoke

ash residue

Dedicated to all those
without a fireplace.

L'ECLIPSE - WALL

L'ECLIPSE - WALL

L'Eclipse Wall can be easily and harmoniously placed in your living space without taking up floor space. It could well be the finishing touch to your decor.

180° TURN

Easily rotate the orientation of the Eclipse Wall. Its bracket lets you turn it 90° to the left or right. So you can safely adjust its flame and heat towards you, in your room.

Climate Commitment

We clean up after ourselves.

We acknowledge the environmental impact of online shopping deliveries. To address this, we are actively involved in supporting progressive organizations dedicated to carbon capture, effectively reducing the carbon footprint of each delivery.

Collaboratively, our partnership network:

- Has accomplished significant ecological milestones;
- Successfully extracted several thousand tonnes of carbon from the atmosphere;
- Achieved carbon-neutral delivery for several million orders;

Here's how it works:

With each order placed, we apply a scientifically derived formula to estimate the emissions associated with shipping. A dedicated share of our revenue is then allocated to scientifically accredited carbon removal initiatives, carefully selected with the expertise of Carbon Direct Carbon Direct, to offset these emissions effectively.

The contributions we make are utilized by these organizations to neutralize the carbon footprint of our shipments. Any additional funds are invested into advancing carbon removal technologies, fostering innovation and progress in our collective journey towards a more sustainable future.
