

TOMAR's 970L Scorpion lightbar maintains the rugged structure of Tomar's previous line of lightbars but with a low profile modern look. With extruded aluminum housing, cast aluminum end caps, and optical Lexan light modules the 970L lightbar is built to last. The 970L lightbar includes many scalable features such as standard or high power single color LED or dual color LED front and rear warning modules, standard or high power single color LED or dual color LED corner modules along with LED takedowns in 4 different lens choices and alley lights. With this much versatility you are sure to find a configuration that meets your budget and performance needs.

- Easy maintenance and lamp replacement in minutes
- Waterproof lamp modules
- 4 takedown lens choices: Spot, Flood, Composite, 13 degree Tilt Down
- Potted controller and waterproof wiring
- Front, Rear and corner modules available in standard or high power also available in dual color
- Integrated traffic director no extra charge on full size bars
- Fully programmable flash patterns and digital version available
- Optional on-board integrated traffic preemption emitter, 2,500 ft range
- STT lights available on 49' and larger bars
- ICC lights available all length bars
- 5 year warranty
- Standards Met: J595, SAEJ2498, CCR Title 13, NFPA Configurations available
