# 900 SERIES SIRENS & CONTROLLERS

948-DCP

## Digital Controllers & Amplifiers

Tomar's 948-DCP and 940-DCP digital control panels feature programmable function switches, progressive mode switches allowing Jump To Mode™ activation as well as a traffic direction switch for use with TOMAR LED or NEOBE® lightbars equipped with the traffic direction option or arrowsticks. All control panels are backlit with LED indicators for easy identification and feature a spill resistant housing. The 940-AMP features 200 watt maximum load with one or two drivers, auxiliary connections for Horn Ring, Horn Relay, Air Horn, Park Kill and Alarm, seven selectable siren tones and a simple RJ45 connection to 948-DCP or 940-DCP.

940-DCP

940-AMP

## 943-SB SwitchBox

The 943-SB SwitchBox is a compact, programmable, full function lighting controller featuring two warning mode switches, two programmable auxiliary switches, a step through arrow switch, a dedicated dim switch that can be used as a third auxiliary switch and a progressive system off switch. The switch panel incorporates LED backlighting and LED switch indicator lights for easy day or night readability.

## SPK100

The SPK100 Slimline speaker is 100 watts and designed for use in emergency vehicles, security alarm, public safety, and 2-way radio systems. The two-piece aluminum bell houses the driver and provides complete weather and corrosion protection for all internal components.
