TOMAR

TOMAR **Spider** MICROBAR

The Spider™ Microbar is designed for ultra-durability and easy maintenance using a powder coated metal housing and six of TOMAR's RECT-13 or RECT-14, ultra-high intensity lamp modules. The all-weather waterproof design includes not only hermetically sealed lamps but a waterproof internal control module plus waterproof harness connections making it suitable for all mounting locations.

The Spider™ Microbar features six warning modes, user selectable flash patterns and a dim feature for nighttime operation. Available options include magnetic mounting system, cigar plug connectivity with two switch operation and 20', 30' or 40' cable lengths.

- ultra-high intensity LEDs
- LED's available in amber, blue, red, white and green
- easy, two screw lamp replacement
- built in flasher with multiple user selectable flash patterns
- black powder coated housing

Spider Microbar

Item	Description
Dimensions (excluding feet)	13.25" wide x 1.5" tall x 8.5" deep
Operating Temperature Range	-55°C to +65°C
Current Draw	R13 version 1.2A avg. R14 version 1.6A avg.
Input Voltage Range	12 VDC
