WILD LAND

NFPA compliant safety package for Wildland Fire Apparatus

SCORPION/BLACK WIDOW

The 970L Scorpion and 970B Black Widow lightbar are the **most rugged lightbars** on the market; the dual color lightbars can switch from warning mode to intense bright white flood lights to illuminate your scene.

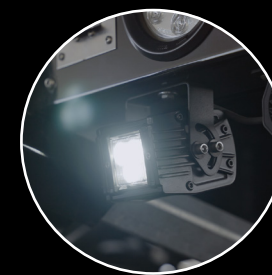

SCORPION

BLACK WIDOW

LSTICK TRAFFIC DIRECTOR

With a built-in controller, these self-contained, fully waterproof slim-line modular light-sticks provide **powerful traffic directional** and warning patterns.

TRX SERIES

With the **dual-color mode** the TRX can switch between powerful white flood lights or amber light for fog, dust, snow, rain, or smoke, making the TRX series lightbar **adaptable** to any condition.

DOT 3 STACK

Provide rugged, long-lasting performance by adding the TOMAR **DOT-compliant stop, tail, turn and warning lamp package**. All TOMAR DOT lamps meet light output and optical light dispersion as required by DOT standards.

ILED SERIES

The iLED series delivers unprecedented functionality with the ability to switch between **warning mode** and **powerful white lights** making this light extremely versatile for any application.

REVOLUTION SERIES

The Revolution Series provides **award-winning warning and illumination**. This rugged and versatile light is available in 3 different options.

1. **Revolution Warning** is an NFPA complaint and Triple-K complaint warning light. Which can be **single or dual-mode** to act as additional scene lighting.
2. **Revolution Illumination** provides xtreme scene illumination to make your scenes safe.
3. **Revolution Multifunction (MFR)** is a single light head with dual color capable warning light, and a high intensity tilt down scene light.
