LongHouse Reserve Student Annual V

This year’s Student Annual took on new meaning when not only the children and their artwork was celebrated, but our own Selena Rothwell was honored by Jack Larsen, the LHR Board and all of us here with the first ever Founder’s Award. Jack spoke with numerous accolades to Selena’s dedication to the Education Program and for her tireless work in providing students with docent led tours, creating material such as Hand in Hand, building ties with community and schools and for encouraging participation in our ever growing Student Annual.

This year’s Annual exceeded all expectation. We had 232 submissions, both individual and collaborative, and 97 ribbons were awarded to students, K-12th grade, from the following schools: Amagansett School, Bridgehampton School, Brookhaven Technical Center, East Hampton Middle School and High School, Eastern Suffolk BOCES, Half Hollow Hills West, John M. Marshall Elementary School, Montauk Public School, Pierson High School, Robert Frost Middle School/Deer Park Schools, Rocky Point High School, Ross School, Sag Harbor Elementary and Sayville High School, Smithtown High School East, Southampton Elementary School and Intermediate School, Springs School, Tuckahoe Common School, West Babylon High School and Westhampton Beach High School.

All entries were based upon inspiration from visits to LongHouse. Students were encouraged to express themselves in any media of their choice including theatrical and musical performance.

Congratulations to all who submitted and to all those who were awarded ribbons.

The Education Committee would like to thank our East End communities, teachers, schools and press for valuing the importance of Arts in Education and for encouraging each student’s creative talents. We thank the students for seeing, thinking and creating in new ways; “your” voice and creative expression do make a difference! To our volunteer School Docents, your tours inspire us all. Finally, a BIG thank you to all of our Education Donors. Your continued support make all of our offerings to the children, schools and families possible. We eagerly look forward to Student Annual VI and to welcoming you back to LongHouse.

Have you ever felt like you're alone?
Like no one’s there
Like no one understands
Truth is...
You’re not alone
People are there you just don’t see them
Your head is down...
When it should be up
Life’s like a rollercoaster
As soon as you think you’re done
And you’ve hit rock bottom
It just goes back up again
There’s no way in saying how long it lasts
So why not treat every day
Like it’s your last and
Expect the unexpected
Because people were there,
You just never took the time to stop and realize
That you were never alone
When people look at me
They don’t exactly understand me
When they look at me
They wonder what I am
Some are disappointed
Some scream
Some cry
But they don’t know my story
I try to please
But they know I’m not
I try to fit in
But all the them turn me down
I stay hidden
But they find me
They listen
And understand
They return and adore me
I feel happy
They come and smile
I smile back
They don’t make funny faces
Or say mean things
They understand what I am
They understand I am
They know my story

_Cactus_
Spiky
Pointy
Grows in the Desert
Dry
Hot
Never thirsty
Strong
Green

I am a lilly
Some people may think I look silly
I float upon the water
No one ever bothers
I like my location
Because there are no situations
The pond is very warm
But not when it comes to storms

The lotus flower shows
Life it does not fright, but
It lives Staying where it wants to
Providing food for life
The lilly pad lives in water
Traveling where the current takes it
Bringing it to its peak
Together, these flowers
Make the beauty of nature
Filling it with life and joy
These are some of nature’s many joys

_Untitled_
It flows from a water point
to the waterfall.
The water is black
Like the night
But some is
Bright with light
When it splashes

The X
The X is in a swimming pool
It likes to swim all day
It likes to swim all night
It thinks swimming is a delight

I stood there and watched
The elephant balance on
One limb, its trunk.
A great plant, magnificent and true.
Black as night, its tough and tough skin
Is lighter than a sweater you
Would get on Christmas,
Fine as its does gymnastics
On its trunk.

_Arches_ (The Secret Hands)
The hands twist the vines
Plant the grass
Grow the bushes
But somehow
They speak.
The hands grow flowers
Over the arch.
They find seeds
But where?
They get soil
But where?
They are magic
Hands never
to be discovered.

_Be the Red Garden_
I am a garden
Green and red
My flowers smell good
It’s what people have said
I am a garden
Fresh and lush
Well, I’ll tell you this
My flowers are the color of
My hands mean to be
Discovered.

Sculptures I wonder,
Were they real people,
Or are they just made out of clay
From inspiration
Are the artists still alive or are they dead
Do they live in the reserve or somewhere else?
Some sculptures can be funny, and some
Can be someone or something that is alive
But it really doesn’t matter what you
Make unless it come from your own
Hands and you thought of it yourself.

On Rays Way we shout hurray that we’re at LongHouse. The Fly’s Eye Dome is as quiet as home, as peaceful as a flowering waterfall. Elefantet that you can’t pet is made out of metal.
