## *Tours of LongHouse Reserve for 2018*

LongHouse Reserve has become a popular destination for museums, garden clubs, libraries, destination tours, and community groups who enjoy the natural beauty of spectacular garden displays blended with outdoor sculpture.

Located in beautiful East Hampton, New York, LongHouse Reserve is a sixteen-acre garden with established lawns, ornamental borders, plant collections and outdoor sculpture, planned by the internationally recognized textile designer, Jack Lenor Larsen. Mr. Larsen, along with the recommendations of the LHR Art Committee, has assembled a collection of over 90 sculptures for the gardens.

The gardens play host to sculptures by well-known artists including *Blue Cobalt Spears*, by Dale Chihuly; *The Fly's Eye Dome*, designed by Buckminster Fuller; *Play it By Trust*, by Yoko Ono, *Reclining Figure* by Willem de Kooning, *Irregular Progression* by Sol LeWitt and *Tumbling Woman* by Eric Fischl. Our water feature, Black Mirror, a 20'x20' reflecting pool with roaring water cascading down the center is both stimulating and peaceful.

Throughout the seasons, the gardens hold many surprises for guests. The dazzling display of over a million daffodil blossoms in April/May, or the "red garden" abloom in mid-May, delight and inspire visitors. In June, roses begin to bloom from all corners of the garden, followed throughout the summer and fall by the foliage and blossoms of many other trees, shrubs and perennials with each providing wonderful texture and structure to the LongHouse landscape.

We hope that you will join us for a docent-guided tour in 2018; it is a memorable and thoroughly enjoyable experience for both young and old.
