

## PRO-HD 12/24V Pulse Charger & Battery Recovery Unit

**Part #:** 746X800

**Model #:** PRO-HD

**NSN:** 6130-01-500-3401

### Description:

The Pro-HD heavy duty rolling recovery charger is able to recover, charge and desulfate any 12V or 24V lead-acid battery (VRLA, AGM, gel and flooded cell) using the supplied clamps or NATO connector.

The Pro-HD senses battery condition and provides only the charge the battery can accept without overcharging. Pulse Technology removes and prevents the buildup of sulfates allowing batteries to charge deeper, maintain greater reserve capacity and last up to 3 times longer.

Smart charging with one-switch operation and easy to understand LEDs minimize operator training requirements.

Update older Pro-HD models with the Pro-HD Replacement Insert, Part #: 740X831

### Specifications:

<b>Input Electrical</b>	100-250V, 50/60 Hz
<b>Output Electrical</b>	14.8V for 12V charging / 29.8V for 24V charging
<b>Max Charging</b>	50 Amps
<b>Enclosure Type</b>	Sand steel cabinet on solid rubber wheels
<b>Enclosure Dimensions</b>	16.5" x 28.5" x 12"
<b>Operating Temperature</b>	0°F - 130°F (-18°C - 54°C)
<b>Leads</b>	10' - 2 AWG
<b>Termination</b>	Battery clamps or NATO connector
<b>Weight</b>	96 lbs with leads
<b>Mounting</b>	Mobile unit
