

Omar Al Gurg with
his Shelly shelf and
Coco rocking lounger

OMAR AL GURG

UNITED ARAB EMIRATES modumethod.com

A master of the multifunctional, Dubai designer Omar Al Gurg's studio, Modu, is short for "modular": its furniture and objects are inspired by heirloom pieces, but are also practical and intended to enhance the everyday. Al Gurg says that he wants to use interactive designs to "create a fun way of living". His new Coco rocking lounger, for example, is a curved fibreglass shell reminiscent of child car seats. Next up is a furniture collaboration with materials brand Cosentino.
