Smart sustainable solutions
for a greener environment

BIOTUFF'S VISION

“ We aim to reduce our greenhouse gas emissions by 2030, while continuing to assist with sustainable growth.

Our vision serves as the framework for our mission, guiding every aspect of our business on the path to accomplish sustainable growth for the future of our planet.

We will reduce landfill waste and our carbon footprint!

We will inspire and create sustainable growth for future generations!

We will create value and make a difference! ”

GROW WITH
biotuff[™]

**EARTH FRIENDLY
COMPOSTABLE BAGS**

1300 246 883

**MADE FROM
COMPOSTABLE MATERIAL**

Biotuff compostable resins are manufactured from renewable and sustainable resources and plant based thermoplastic corn starch that also contains no GMO.

Making the switch to compostable products such as Biotuff will help reduce the volume of litter on Earth.

- Reduce landfill waste and carbon emissions
- Certified Biodegradable
- Certified to Australian Standards AS4736 and AS5810
- GMO free + food grade
- Practical, reliable and sturdy
- Superior puncture, tear and heat resistant
- Impact tough and leak-proof
- Unique soft touch with option of printable company logo
- Breathable – great for controlling odour and dissipating moisture
- Can be composted in aerobic, industrial composting facilities
- Independently verified
- Long shelf life
