						5	0.50%				

As part of our partner program, we offer a credit that can be used toward testers, travel sizes, and marketing materials. This credit is a percentage of your retail and professional product orders and is designed to support your sales efforts. The percentage increases as you grow with us - based on the number of products, treatments, and offerings you bring into your spa.

Please note: credits are redeemed with your order and do not roll over to future purchases.
