

Talkpod

TQC01

Vertical Wireless Single Charger

New wireless fast charging!

Made of a whole piece of aluminum alloy CNC carved body, exquisitely exquisite, using the strong thermal conductivity of metal, combined with the heat dissipation area of the body, creating an excellent overall passive heat dissipation capability. The stability of heat dissipation and power makes charging faster.

- The black mirror glass panel has little hindrance to electricity and improves the charging speed.;
- 60° viewing angle design, which is both a charger and a Bracket for the radio;
- Double coil, sensitive induction, wireless charging distance up to 5mm, simple and smooth;
- Using USB Type-c interface and comes with a supporting data cable, power adaptor;
- Fully supports Talkpod D5/N5 series radios, which match reasonable fast charging power, and will not cause additional damage to the battery;

General Specifications	
Model Number	TQC01
Weight	175g
Size	59x70x100(mm)
Color	Black
Angle	60°
Input Connector	USB-C
Input	9V 1.67A/5V 2A
Output	5W/7.5W/10W
Charging Distance	< 5mm
