RF Radiation Information

The radio is not intended for use by general population in an uncontrolled environment. It is only for occupational useand only applied to work–related conditions.

The radio must be only used by users, who are fully awareof the hazards of the exposure and who are able to exercise control over their RF exposure to qualify for

 thehigher exposure limits.

RF Radiation Profile

Radio Frequency (RF) is a frequency of electromagnetic radiation in the range at which radio signals are transmitted. RF technology is widely used in communication,

medicine,food processing and other fields. It may generate radiation during use.

RF Radiation Safety

In order to ensure user health, experts from relevant industries including science, engineering, medicine andhealth work with international organizations to develop

standards for safe exposure to RF radiation. These standards consist of:

- United States Federal Communications Commission, Code of Federal Regulations; 47CFR part 2 sub–part J;
- American National Standards Institute (ANSI)/Instituteof Electrical and Electronic Engineers (IEEE) C95. 1–1992;
- Institute of Electrical and Electronic Engineers (IEEE) C95. 1 — 1999;
- International Commission on Non–Ionizing Radiation Protection (ICNIRP) 1998;

Operational Instructions and Training Guidelines

To ensure optimal performance and compliance with the occupational/controlled environment RF energy exposure limits   in the above standards and guidelines,

users should transmit no more than 50% of the time and always adhere to the following procedures:

- RF energy will be generated only when the radio is transmitting.
- The radio must be 2.5 centimeters away from humanbody when transmitting.
EU Regulatory Conformance

As certified by the qualified laboratory, the product is in compliance with the essential

requirements and other relevant provisions of the Directive 1999/5/EC.

Please note that the above information is applicable to EU countries only.

3. Button Details

NO	Icon	Name	Description
1		LED Light	Green: RX Red: TX
2		PTT	Press to Talk
3		Side Button 1	Programable Side button
4		Side Button 2	Programable Side button (Better use Long press S2 for SOS)
5		Accessory Jack	For Headsets, Program Cable
6		Power/Volume Knob	Turn clockwise to power on and increase the volume Turn counterclockwise to power off the power and decrease the volume
7		SOS button on the top	One click on SOS alarm

4. Specifications

Version Information

Model Name	N50
A-A4-E18 For Europe	2G:GSM850/900/1800/1900 3G:B1/2/5/8 TDD:B34/35 CDMA2000: BC0
	4G:B1/3/5/7/8/18/19/20/ 28A/28B TDD:B34/38/39/40/41
A-A4-E19 For US	2G:GSM850/900/1800/1900 3G:B1/2/4/5/8
	4G:B1/2/3/4/5/7/12/13/ 17/25/26/27

General Specifications

Battery Capacity	7.4V 1650/3000mAh Li-Ion Battery
Sensitivity	–106dBm
GPS	Default
SIM Card Slot	1xStandard SIM
Antenna Impedance	50Ω
Dimensions	115x56x30 (mm)
Weight	253g

Certification

CE FCC & IC ID	FCC 2ADQZTP4GNX
Dustproof and waterproof	IP54(Standard)/IP67(Optional)

The above specifications are tested according to applicable standards. Due to the continuous development of technology, the above index data is subject to change without notice.

5.Attach Battery

"Click"
Note

● Turn off the radio before removing the battery.

● If not assembled with battery specified by Talkpod,the radio will give alarm tone to remind you when powering on.Afterwards,it will operate normally.
6. Assemble Antenna

"Spin"

Talkpod

MIC

Note

Do not swing the radio when holding it by the antenna, so as to avoid lowering the performance and shorteningthe life span of the antenna.

7. Assembling the Belt Clip

8. Assembling the Accessories

9. Charge the radio

"Click"

"Click"
Charging Status		
☀ Blinking Red	-✕-	Unchargeable
☀ Blinking Orange	-□-	Waiting to charge.(Either the battery Voltage is too low or the battery temperature is to low or too high to allow charging.When this condition is corrected,the battery will automatically begin charging.)
○ Steady Red	-▣-	Rapid Charging
☀ Blinking Green	-▣-	Charged(90% capacity)
○ Steady Green	-▣-	Fully Charged

10. LED Indicator

LED
LED Status	Product Status
Steady Green	Receiving
Steady Red	Transmiting

11. Powering On/Off

"Click"

"Click"

12. Button Details

13. Channel Selection Button

"Click"

Talkpod

According to different models or interfaces, you can ues the knob to select a group, member,friend,or function.

14. Side Buttons

"Press"

According to different models and user habits, side buttons can be set to group/member/friend selection,SOS or to broadcast current groups.

15. PTT Button
"Press"

In different interfaces,press PTT button to make group call,single call, private call.

16. Product Care

Do not pierce or scrape the product with any edged instruments or hard objects.

Keep the product far away frpm substances that can corrode the circuit.

Do not hold the product by its antenna directly.

Do not hold the product by its earpiece cable directly.

Attach the accessory jack cover when the product is not in use Keep the product far away frpm substances that cancorrode the circuit.

17. Troubleshooting

Phenomena	Analysis	Solution
Power-on Fallure	The battery may be improperly installed.	Remove the battery and reassemble it.
	The battery power may be used up.	Remove or replace the battery.
	The battery is poorly connected due to dirtied or damaged battery contacts.	Clean the battery contacts.If the problem cannot be solved, contact your dealer or authorized service center for inspection and repair.
During receving, the voice is weak, discontinuous or totally inactive.	Low battery voltage.	Recharge or replace the battery.
	Low volume level.	Increase the volume by rotating the Volume Control knob.
	The antenna may be loosened or improperly installed.	Reassemble the antenna after turning off the radio.
	The speaker may be blocked or damaged.	Clean the surface of the speaker.If the problem cannot be solved, contact your dealer or authorized service center for inspection and repair.
Unable to communicate with other members.	The frequency or signaling may be inconsistent with that of other members.	Set your TX/RX frequency and signaling to the same as that of other members.
	The channel type(digital/anaiog)may be set inconsistently.	Make sure all members are on the same digital/analog channel.
	You may be interrupted by radios using the same frequency.	Change the frequency，or adjust the squelch level.

Phenomena	Analysis	Solution
Irrelevant communication or noise is heard on the channel.	You may be interrupted by radio using the same frequency.	Change the frequency, or adjust the squelch level.
	The radio may be set with no signaling.	Set signaling for all member radios to avoid inference at the same frequency.And change the signaling settings for all portable radios at the same time.
The noise is too loud.	You may be too far away from otjer members.	Move towards other members.
	You may locate in an unfavorable position.For example, your communication may be blocked by high buildings or frustarted in the underground areas.	Move to an open and flat area, and restart the radio to try again.
	You may suffer from external disturbance (such as electromagnetic interference).	Stay away from equipment that may cause interference.

18. Optional Accessories

The following items are main optional accessories for the radio. For more information of other accessories, please consult your local dealer.

Note

Use the accessories specified by Talkpod only. If not, the Company shall not be liable for any losses or damages arsing out of use of unauthorized accessories.

Charger
4/5 Series Standard Desktop Charger 7.4V/DC12V Input
5 Series Power Adaptor Desktop Charger(All-in-one) 7.4V/ AC220V Input with US Plug
5 Series Power Adaptor Desktop Charger(All-in-one) 7.4V/ AC220V Input with Euro Plug

Battery
5 Series High Capacity Li-ion Battery 7.4V/3000mAh (4 Golden Contact)
5 Series Standard Li-ion Battery With Wireless Charging 7.4V/ 1650mAh (4 Golden Contact)
5 Series High Capacity Li-ion Battery With Micro-USB 7.4V/ 3000mAh (4 Golden Contact)

Data line / write frequency line
Universal USB-Micro Cable/OD3.8PVC for All Series (Charging/Data)
Universal K Connector Program Cable for N4/N5/D4/B3
Android K Connector Program Cable for N5 Android Series

Power Adapter
Power Adaptor/12V1A/US //Euro /UK/AU Plug
Power Adaptor for Multi Unit Charger/DC14V3.5A/US/UK/EU/AU Plug
Power Adaptor with USB Port 5V2A US Plug (Compatible with TPC06 Charging Micro-USB Cable)/US/EU/UK/AU Plug
Power Adaptor with USB Port 5V1A US Plug (Compatible with TPC06 Charging Micro-USB Cable/US/EU/UK/AU Plug

Multi-channel charger
3 Series 1X6 Straight 6 Slots Charger 8V3A-3.7V
3 Series 3X2 type 6 Slots Charger 8V3A-3.7V

Back clip
5 Series Belt Clip/8.5CM

Headset
2-Wire Earloop with On-MIC PTT
2-Wire D-Ring Earphone with On-MIC PTT
2-Wire Acoustic Tube with On-MIC PTT
Earloop with In-line Microphone
D-Ring Earphone with In-line Microphone
Acoustic Tube with In-line Microphone
3-Wire Acoustic Tube Surveillance Kit (Black)
Rotatable ear-hook type oval clip PTT headset
Right earhook type oval clip PTT headset
C-type ear-hook oval clip PTT headset
Ear hook + earplug type oval clip PTT headset

Hand microphone
Speaker Microphone
Speaker Microphone With Volume Control

Protective case
Semi-packed nylon cover / adhesive type / with oblique lanyard / small
Semi-packed leather holster / button type / oversized iron back clip / with diagonal strap / medium
Wearable chest bag protector / all black
Wearable chest bag protective cover / fluorescent strip
Waterproof bag

Packing Box
