- *Classification Report defines Fire Resistance Classification and is dependent on framing system and glazing configuration. The Classification Reports which determine the above EN13501-2 classifications detail the precise field of application for fire resistant applications within the scope of UKCA marking. Additional 'market application' tests or extended application reports may also be appropriate for use with UKCA marked glasses.
- This Certificate of Constancy of Performance indicates groups of glass structures/designs. It is not possible to list all available glass structures/designs in detail. These are available in high diversity and described for each product in the Declaration of Performance.
- The Declaration of Performance for each product configuration including the characteristics of performance is made available by the manufacturer.
