# Dynamic **Bluetooth®** v4.0 Mono Headset

**Steer**

## User Guide

## Introduction

Music either rock or romantic, wouldn't be any better without Steer, an ultra-light-weight Bluetooth® v4.0 mono headset. It is among those rare headsets that gives you crystal clear sound in addition to being extremely trendy. It supports up to 5 hours of talk time and around 100 hours of stand-by time! Impossible it sounds, but these features are truly available in this amazing Bluetooth® Headset. What makes the Headset almost priceless is its high number of useful features. It allows you to accept / reject the incoming calls, redialing, voice-dialing, end calls and also increase / decrease the volume while listening to music on your mobile. It features up to a radius of 10 meters from your smartphone. All these features make steer a clear winner for audiophiles.

## Precautions

Please read all safety instructions and warnings thoroughly before using this product. Improper use of this product may result in damage to this or attached products. To keep the product working at its optimum performance, never use it in the following conditions:

1. Moist or underwater conditions.
2. Conditions near the heater or high-temperature service.
3. Conditions with direct sunshine.
4. Never dismantle the product without due permission, else this may nullify warranty clauses.

## Appearance & Interface Description:

1. Receiver
2. Volume (-) Button
3. Multi-Function Button
4. Volume (+) Button
5. LED indicator
6. Micro-USB charging port
7. MIC

## Operation Instructions:

### 1. Turning the Steer On/Off

- To power on: press and hold multifunction button for about 3 seconds until green light flashes
- To power off: press and hold multifunction button for about 6 seconds until indicator light goes off

### 2. Pairing Steer with your Bluetooth® device

You are required to pair Steer with your smartphone once before using it.

- Press and hold the Multi-function button for 6 seconds until the green LED and red LED start flashing alternately to enter pairing mode.
- Activate *Bluetooth®* on your mobile phone.
- Set your phone to discover 'Steer' and follow the instructions.
- If your phone asks for a passkey or PIN code, confirm with '0000' (4 zeroes).

When the phone and Steer are paired and connected, green LED starts flashing.

### 3. Pairing Steer with a second Bluetooth device(Multipoint Pairing):

- Restart Steer. Press and hold the Multi-function button for 6 seconds until the green LED and red LED start flashing alternately to enter pairing mode.
- Activate *Bluetooth*® on both your smart phones.
- Set your 1st phone to discover "Steer" and follow the instructions to pair with the device.
- Find "Steer" in the second device and pair again.
- Two bluetooth device both connected now.
- If your phone asks for a passkey or PIN code, confirm with '0000' (4 zeroes). When the phone and Steer are paired and connected, green LED starts flashing.

### 4. Answering a call:

- **With one phone connected**
  - Short press any button once to answer an incoming call.
- **With two phones connected**
  - Short press Multi-Function button once to answer an incoming call.
  - When you are on first phone and a call is coming on the second phone, press multi-function button twice to keep the first call on hold and answer the second call. Press the multi-function button once to end the second phone call and continue the first call.
- Press and hold the Multi-function button for two seconds during the first call to reject the second call.
- Short press the Multi-function button once to end the first call and answer the second call.

## **5. Rejecting a call:**

- Press and hold the Multi-Function button for 2 seconds to reject a call.

## **6. Using the Last number Re-Dialing feature**

- Short press Multi-Function button twice to re-dial the last dialed number.

## **7. Adjusting the volume of the headset and controlling music playback**

- Press the volume (+) button to increase the volume. Long press (-) to go to the next song.
- Press the volume (-) button to decrease the volume. Long press (+) to go to the previous song.

## **8. Charging the Steer**

Charging using the Micro-USB cable. Connect the Micro-USB connector to the charging port of the Steer to start charging the *Bluetooth®* device.

The LED is lit up in red while charging and LED will be green when charging is done.
