

VINYL CARPETS

BASIC COLLECTION

sueños de cigüeña

Vinyl carpets with exclusive printed designs ideal for customising any type of space and protecting delicate floors.

The carpets are anti-slip, hypo-allergenic, antimicrobial, waterproof, resistant, thermal insulating and flame retardant.

In addition, they are phthalate and BPA free contributing to a safer and toxic free home. They do not accumulate dust, hair or dust mites making them perfect for homes with pets. They are maintenance free, can be easily washed with water and neutral soap and even cleaning robots can pass over them thanks to their low thickness.

They are 100% recyclable and do not require any adhesive for installation, they are laid just like a normal carpet.
Functionality and style in one product!

PVC fabric with a thickness of 2 to 2.4 mm.
Suitable for any type of floor.
