Fire Rated Cable Supports

AS/NZS3013:2005 Compliant

Independently Certified for Fire Compliance

The Studbite Suspension Support system now offers fully compliant Fire Rated cable support systems certified to AS/NZS 3013:2005 Appendix C Classification WS5X - 2hour fire rating up to 1050C.

Blitz Systems fire-rated cable support systems are independently tested for compliance with Australian and New Zealand Standard AS/NZS3013:2005 *Electrical installations - Classification of the fire and mechanical performance of cable system elements.*

AS/NZS3013:2005 sets out a classification scheme and type tests for cable systems according to their resistance to the hazards of fire and mechanical damage, in alignment with the National Construction Code (NCC) and New Zealand Building Code (NZBC).

**REDUCE
INSTALL
TIME** | by over
50%

Gain compliance peace-of-mind with Studbite Suspension Support Systems now offering fire-rated electrical cable suspension support systems.

Reduce installation time by more than half, minimise onsite labour costs, reduce materials and waste, reduce supply expenses, and eliminate onsite frustrations.

Unlike traditional trapeze or suspending mechanical and electrical service cable supports that rely on nuts and bolts, all Blitz Systems rely on modular gripper patented designs that streamline installation for new and existing infrastructure.

Independent test results reveal Blitz Studbite Fire Rated Cable Support systems have a high suspension capacity of up to 50 KG/Lm for sizes of 150, 300, 450 & 600 mm tray widths. They are also certified for seismic compliance, tested in accordance with ANSI/ASHRAE Standard 171-2017 to comply with AS1170.4 for seismic bracing and earthquake resistance.

Blitz cable supports are the preferred system for commercial construction projects requiring cable supports for commercial electrical, data networks, HVAC and mechanical installations requiring either seismic and/or fire-rated compliance.

Blitz Systems has supported thousands of company owners, estimators, project managers, procurement managers, contractors and trades, by boosting efficiency and productivity and saving time and money.
