CHE DINING CHAIR - NATURAL

Inspired by early Cape Dutch furniture, the Che Chair is simple, lightweight, and strong. The Che Chair is a relaxed yet refined aesthetic. This modern take on a traditional South African design, known as Riempie, uses leather strips woven together to make a unique seat. The solid American Oak frame forms the cushionless chair while intricately woven polyester cording forms a surprisingly comfortable seat.

Not suitable for outdoor use; however, can be used on a covered patio avoiding water and drastic humidity changes. Wood is a natural product and finish may vary.
