

SAFETY DATA SHEET

according to Regulation (EU) 2015/830

Page 1/7

SuspendaSlurry ZR

Revision **Revision date** 2020-05-07

SECTION 1: Identification of the substance/mixture and of the compar	y/undertaking
--	---------------

1.1. Product identifier

Product name SuspendaSlurry ZR

1.2. Relevant identified uses of the substance or mixture and uses advised against

Foundry material. Description

1.3. Details of the supplier of the safety data sheet

Company Ransom & Randolph

Address 3535 Briarfield Boulevard, PO Box 1570

Maumee, Ohio 43537 USA

Web www.ransom-randolph.com

Telephone +1 (419) 865-9497 +1 (419) 865-9997 Fax

Email RR.SDS@dentsply.com Email address of the RR.SDS@dentsply.com competent person

1.4. Emergency telephone number

USA +1 419 865 9497 **Emergency telephone number**

Ransom & Randolph Co. Company

08:00-17:00 (US Eastern Std. / GMT minus 5)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

2.1.2. Classification - EC Carc. 1A: H350; 1272/2008

2.2. Label elements

This substance / mixture has been classified in accordance with the US Federal OSHA Hazard Communication Standard 29CFR 1910.1200. Substance concentration band-ranges are presented, and minor ingredient composition maybe withheld, to protect trade secrets.

Hazard pictograms

Danger

Signal Word

Hazard Statement

Carc. 1A: H350 - May cause cancer inhalation.

Precautionary Statement:

P201 - Obtain special instructions before use.

Prevention

P202 - Do not handle until all safety precautions have been read and understood. P280 - Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary Statement:

Response

P308+P313 - IF exposed or concerned: Get medical advice/attention.

ChemSoft EH&S

Revision 6 Revision date 2020-05-07

2.2. Label elements	
Precautionary Statement: Storage	P405 - Store locked up.
Precautionary Statement: Disposal	P501 - Dispose of contents/container to local and national regulations
2.3. Other hazards	
Other hazards	This LIQUID product contains less than one-percent (<1%) crystalline silica.
	Amorphous silica may be converted to crystalline silica (cristobalite) when subjected to very high temperatures (1700° F). Exposure to respirable crystalline silica may cause lung disease.
	This material contains trace amounts of naturally occurring uranium, thorium, and radium.
Further information	

Not applicable. PBT and vPvB assessment.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

EC 1272/2008

Chemical Name	Index No.	CAS No.	EC No.	REACH Registration Number	Conc. (%w/w)	Classification
zirconium silicate		14940-68-2			60 - 70%	<u> </u>
deionized water		7732-18-5	231-791-2		10 - 20%	
silica (amorphous)		7631-86-9	231-545-4		1 - 10%	
quartz (conc. >/= 1.0%)		14808-60-7	238-878-4		0 - 0.5%	Carc. 1A: H350; STOT RE 1: H372;
Aluminum Silicate		1302-76-7	215-106-4		1 - 10%	

Further information

Full text for all Risk Phrases mentioned in this section are displayed in Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation	Move the exposed person to fresh air.
Eye contact	Rinse immediately with plenty of water for 15 minutes holding the eyelids open.
Skin contact	Wash with soap and water.
Ingestion	Drink 1 to 2 glasses of water. DO NOT INDUCE VOMITING.

4.2. Most important symptoms and effects, both acute and delayed

Inhalation	May cause irritation to respiratory system.
Eye contact	May cause irritation to eyes.
Skin contact	May cause irritation to skin.
Ingestion	May cause irritation to mucous membranes.

4.3. Indication of any immediate medical attention and special treatment needed

Inhalation	Seek medical attention if irritation or symptoms persist.
Eye contact	Seek medical attention if irritation or symptoms persist.
Skin contact	Seek medical attention if irritation or symptoms persist.
Ingestion	Seek medical attention if irritation or symptoms persist.

SECTION 5: Firefighting measures

Revision 6 Revision date 2020-05-07

5.1. Extinguishing media	
	Use extinguishing media appropriate to the surrounding fire conditions.
5.2. Special hazards arising from	n the substance or mixture
	Burning produces irritating, toxic and obnoxious fumes.
5.3. Advice for firefighters	
	Self-contained breathing apparatus. Wear suitable protective clothing.
SECTION 6: Accidental relea	ase measures
6.1. Personal precautions, protect	ctive equipment and emergency procedures
	Avoid raising dust. Wear suitable respiratory equipment when necessary.
6.2. Environmental precautions	
	No environmental requirements.
6.3. Methods and material for co	ntainment and cleaning up
	Avoid raising dust. Clean the area using a vacuum cleaner. Transfer to suitable, labelled containers for disposal.
6.4. Reference to other sections	
	See section [2, 8 & 13] for further information.
SECTION 7: Handling and st	torage
7.1. Precautions for safe handlin	g
	Avoid raising dust. Ensure adequate ventilation of the working area. In case of insufficient ventilation, wear suitable respiratory equipment.

7.2. Conditions for safe storage, including any incompatibilities

Keep containers tightly closed.

7.3. Specific end use(s)

Foundry material.

handling the product.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

exposure limits - Silica, vitreous (fused, amorphous) 80 mg/m3 / (% Silica), TWA PEL (respirable fraction).

Do not eat, drink or smoke in areas where this product is used or stored. Wash hands after

exposure limits - Crystalline Silica, quartz - 0.025 mg/m3 TWA ACGIH TLV (respirable fraction); 50 ug/m3 8 hr -TWA PEL (respirable fraction).

exposure limits - Zirconium silicate 10 mg/m3 STEL ACGIH (respirable fraction) 5 mg/m3 TWA OSHA PEL (respirable fraction).

8.2. Exposure controls

8.2.1. Appropriate engineering controls

Ensure adequate ventilation of the working area.

Revision 6 Revision date 2020-05-07

8.2.	Exposure	controls

8.2.2. Individual protection	Protective clothing.
measures	
Eye / face protection	In case of splashing, wear:. Approved safety goggles. safety glasses with side-shields.
Skin protection -	Wear suitable gloves.
Handprotection	
Respiratory protection	Suitable respiratory equipment.
8.2.3. Environmental exposure	Not normally required.
controls	
Occupational exposure	Appropriate local exhaust ventilation is required.
controls	

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance Viscous liquid. Colour Yellow Odour Slight Freezing Point ≈ 0 °C Initial boiling point No data available Evaporation rate No data available Vapour pressure No data available Vapour density No data available **Relative density** 1.2 - 1.8 (H2O = 1 @ 20 °C) Fat Solubility Not applicable. Partition coefficient No data available Viscosity No data available 9 - 11 pН Melting point Not applicable. Solubility Miscible in water

9.2. Other information

Conductivity
Surface tension
Gas group
Benzene Content
Lead content
VOC (Volatile organic compounds)
No data available
Not apalicable.
Not applicable.
Not applicable.

SECTION 10: Stability and reactivity

10.	1.	Rea	ctiv	/ity
-----	----	-----	------	------

To. I. Todouvity			
	Not applicable.		
10.2. Chemical stability			
	Stable under normal conditions.		
10.3. Possibility of hazardous re	actions		
	No Significant Hazard.		
10.4. Conditions to avoid			
	Moisture.		
10.5. Incompatible materials			

No Significant Hazard.

Revision 6 Revision date 2020-05-07

10.6. Hazardous decomposition products

Hazardous Decomposition Products (silica): Crystalline silica will dissolve in hydrofluoric acid and produce silicone tetrafluoride. Reaction with water or acids generates heat.

Hazardous Decomposition Products (Zircon): Zirconium silicate will disassociate to Zirconium Dioxide (ZRO2) and Silicon dioxide (SiO2) when heated above 1540 degrees Celsius. Hazardous Polymerization: Will not occur.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity

Skin corrosion/irritation

Serious eye damage/irritation

Respiratory or skin sensitisation

Germ cell mutagenicity

Carcinogenicity

Reproductive toxicity

STOT-single exposure

STOT-repeated exposure

Based on available data, the classification criteria are not met.

Prolonged or repeated exposure may cause irritation to skin and mucous membranes.

No irritation expected.

No sensitizaton effects reported.

No mutagenic effects reported.

Known Human Carcinogens (Category 1).

No observed effect level. No observed effect concentration.

No known adverse health effects.

Chronic effects

Prolonged inhalation of respirable crystalline silica

In 1997, the International Agency for Research on Cancer (IARC) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However it pointed out that not all industrial circumstances, nor all crystalline silica types, were to be incriminated. (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibers, 1997, Vol. 68, IARC, Lyon, France). In June 2003, the European Commission's Scientific Committee for Occupational Exposure Limits (SCOEL) concluded:

"that the main effect in humans of the inhalation of respirable crystalline silica is silicosis. There is sufficient information to conclude that the relative lung cancer risk is increased in persons with silicosis (and apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk. Since a clear threshold for silicosis development cannot be identified, any reduction of exposure will reduce the risk of silicosis."

(SCOEL SUM Doc 94-final on respirable crystalline silica, June 2003)

There is a body of evidence supporting the fact that increased cancer risk would be limited to people already suffering from silicosis. Worker protection against silicosis should be assured by respecting the existing regulatory occupational exposure limits and implementing additional risk management measures where required (see Section 16).

This product contains trace quantities of naturally occurring radioactive uranium, thorium and radium (106-120 Picocuries/gram). Overexposure to respirable dust containing radioactive materials may cause lung cancer. Zirconium silicate is exempt from NRC regulations for source material per 10 CFR 40, since it falls under the definition of material containing less than 0.05% uranium or thorium. However, calculations show that observance of 2-2.8 mg/m3 of respirable dust will, under voluntary guidelines, ensure that intake is less than 10% of the annual limits on intake (ALS) specified in 10 CFR 20.1502(B) and NRC Standards for the protection against radiation for uranium, thorium, radium and radioactive daughter decay products.).

Aspiration hazard

Repeated or prolonged exposure

No Significant Hazard.

Inhalation may cause coughing, tightness of the chest and irritation of the respiratory system.

11.1.4. Toxicological Information

Not determined

Revision 6

		Revision date 2020-05-07
SECTION 12: Ecological info	ormation	
12.1. Toxicity		
	Not determined	_
12.2. Persistence and degradab	ility	
	No data is available on this product.	
12.3. Bioaccumulative potential		
	Does not bioaccumulate.	
Partition coefficient		
	SuspendaSlurry ZR No data available	
12.4. Mobility in soil		
	Not determined.	
12.5. Results of PBT and vPvB	assessment	
	Not determined.	
12.6. Other adverse effects		
	Not applicable.	
SECTION 13: Disposal cons	iderations	
13.1. Waste treatment methods		
	Dispose of in compliance with all. local and national regulations.	
Disposal methods	·	
	Contact a licensed waste disposal company.	
Disposal of packaging		
	Empty containers can be sent for disposal or recycling.	
SECTION 14: Transport info	rmation	
14.1. UN number		
	The product is not classified as dangerous for carriage.	
14.2. UN proper shipping name	·	
	The product is not classified as dangerous for carriage.	
14.3. Transport hazard class(es)	
	The product is not classified as dangerous for carriage.	
14.4. Packing group		
	The product is not classified as dangerous for carriage.	
14.5. Environmental hazards		
	The product is not classified as dangerous for carriage.	
14.6. Special precautions for us		
	The product is not classified as dangerous for carriage.	
14.7. Transport in bulk accordin	g to Annex II of MARPOL 73/78 and the IBC Code	
	The product is not classified as dangerous for carriage.	
Further information		
	The product is not classified as dangerous for carriage.	

Revision 6 Revision date 2020-05-07

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulations

U.S. FEDERAL REGULATIONS: Suspendaslurry ™. CERCLA 103 Reportable Quantity: is not subject to CERCLA reporting requirements. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

SARA TITLE III:

Hazard Category For Section 311/312: None

Section 313 Toxic Chemicals: This product contains the following chemicals subject to Annual Release Reporting Requirements Under SARA Title III, Section 313 (40 CFR 372): None

Section 302 Extremely Hazardous Substances (TPQ): None

EPA Toxic Substances Control Act (TSCA) Status: All of the components of this product are listed on the TSCA inventory.

U.S. STATE REGULATIONS

California Proposition 65: This product contains the following substances known to the State of California to cause cancer: Quartz < 1%

INTERNATIONAL REGULATIONS:

Canadian Environmental Protection Act: All of the components in this product are listed on the Domestic Substances List (DSL).

15.2. Chemical safety assessment

No data is available on this product.

SECTION 16: Other information

Other information

Revision	This document differs from the previous version in the following areas:.
	3 - Further information.
Text of Hazard Statements in	Carc. 1A: H350 - May cause cancer .
Section 3	STOT RE 1: H372 - Causes damage to organs through prolonged or repeated exposure.

Further information

Training

Workers must be informed of the presence of crystalline silica and trained in the proper use and handling of this product as required under applicable regulations.

The information supplied in this Safety Data Sheet is designed only as guidance for the safe use, storage and handling of the product. This information is correct to the best of our knowledge and belief at the date of publication however no guarantee is made to its accuracy. This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any other process.
