CLEANING AND MAINTENANCE

You clean the toilet like a normal toilet, but it is not recommended to use chemicals. You should use water only or water with biological green soap. You may want to polish the toilet bowl with car/boat wax (non-abrasive) to preserve the surface's fine finish and to prevent odours.

URINAL

An odourless, waterless toilet

Cinderella Urinal is a waterless toilet solution specifically designed for urination. It is a perfect companion to Cinderella incineration toilets. The urine is discharged to a suitable receptacle such as a sand filter or a collection tank. The urinal is waterless and 100% odourless.

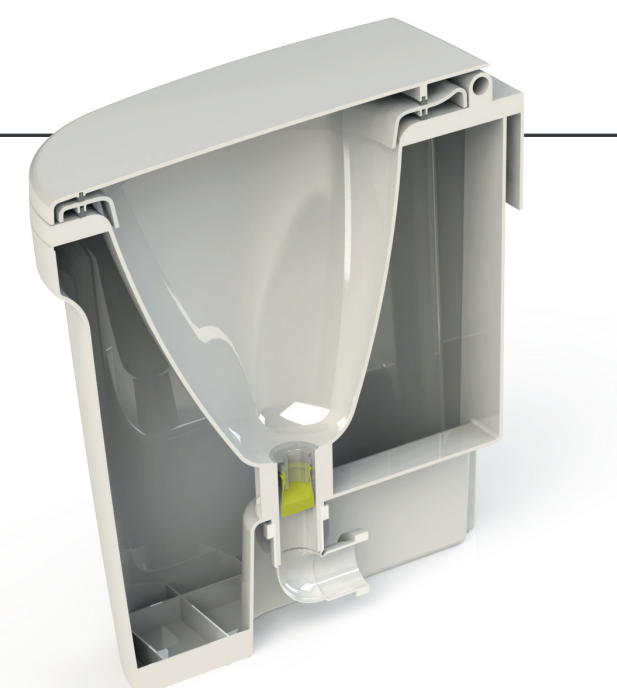

Cinderella Urinal is easy to install, and you can choose whether to run the drain pipe through the floor or wall. It uses a 50 mm drain pipe to a suitable receptacle. The urinal is mounted using screws or silicone. When Cinderella Urinal is mounted and the

drain pipes are connected, the toilet is ready for use.

Cinderella Urinal is a unisex model and is only used for urination.

Cinderella Urinal is equipped with an odour barrier, preventing undesirable odours inside the toilet room. The solution does not require a barrier liquid, and is therefore always frostproof.
