

EXTERIOR CERAMIC WALL LIGHTS

INSTALLATION REQUIREMENTS

- 1. Wall light must be installed by a licensed electrician.
- 2.The wiring and installation of this light fitting must follow local and national wiring rules- eg. AS/NZS 3000.
- 3. This product is suitable for exterior installation IP-33.
- 4. Installation height should be no less than 1.8m above the finished floor level unless the installing licensed electrician determines minimal risk of inadvertent contact as per Section 4.5 of AS/NZ 3000:2018.
- 5. Light is NOT to be installed above garden beds or in location where upwards water spray is unavoidable.
- 6. Care must be taken when unpacking to ensure the light fitting and ceramic is not damaged.
- 7. Do not operate / install any product which appears damaged in any way.
- 8. In order for We Ponder to assist with rectifying any purchase that may of been damaged during delivery, We Ponder must be notified via email within 7 days of receiving the product order.
- 9. Ensure all steps are followed carefully and neatly to prevent any damage to the wires or mounting bracket.

MOUNTING PLATE INSTALLATION INSTRUCTIONS (TO BE INSTALLED BY A LICENSED ELECTRICIAN)

- 1. Ensure power to the circuit you are working on has been isolated.
- 2. Use the mounting plate as a template to mark the screw positions on the wall prior to creating any drill holes.
- 3. Use a spirit level to ensure mounting plate is level and plumb.
- 4. Install the mounting plate onto wall using appropriate screws (capable of supporting the weight of your light), screws not included.
- 5. Connect the mains supply wire to the IP Junction box.
- 6. Ensure that the wires are secure and no bare wires are exposed.
- 7. Please use below guide as an indication for rough in location/dimensions.

CERAMIC INSTALLATION INSTRUCTIONS

- 1.The ceramic light fitting should be one of the last items that is installed in your project to ensure it has minimal chance of being accidentally damaged by people on site. Your mounting bracket has been correctly installed to your wall following the above instructions by your licensed electrician.
- 2. Holding the ceramic light fitting in both hands, gently place it over the globe holder and lift the light fitting up and over the holding arm until it slots into place.
- 3. Use the two plastic bolts on mounting plate to adjust light fitting by hand to ensure ceramic is straight / plumb.
- 4. Screw your GU10 Lampshade into place.

GENERAL CARE INSTRUCTIONS

Use eco-friendly spray and wipe and / or a microfibre cloth to remove fingerprints and dust
