

Sample Specification

Designed and Handmade in Italy, the Ceramic range of simple yet elegant shapes and textures is ideal for illuminating interior and exterior spaces. Its design uses the Tuscan Hand-pressed ceramic practice to create these high-quality traditional pieces.

The hand-crafted nature of the Ceramic range creates unique and natural variations in character and detail. The varying colour and texture finishes of each fitting are not considered to be defects but rather celebrations of the authenticity and unique beauty of this stunning material.

Material: Tuscan maiolica, Metal components

Finishes: 30+
