Finger Trainer:

- Dorsal Proximal Inter-Phalangeal (PIP) reduction trainer
- Compact design for easy circulation in classroom settings
- Ergonomic handle to facilitate the application of counterforce during reduction

PRACTICE IN THE CLASSROOM
PERFORM IN THE FIELD

A LUNA LABS
PRODUCT LINE

Dislotech was started in 2017 as an Army SBIR to improve soldiers' ability to diagnose and reduce shoulder dislocation. This initiative was bolstered by a collaboration with orthopedic surgeons and athletic trainers from the University of Virginia, leading to the creation of Dislotech.
