

CARRINGTON TRADITIONAL BIO ETHANOL FIREPLACE

Carrington fireplace is the stylish answer to an electric fireplace alternative – a beautiful bio ethanol fireplace with a smooth classic mantelpiece, satin black back panel and hearth.

The fireplace produces real dancing flame, is fully adjustable and will instantly transform your room. It can be placed against a flat wall and easily moved to another room. You can place a TV or artwork above it as the mantel top acts like a barrier preventing the heat from rising.

FEATURES:

- Full fireplace suite, complete with stunning smooth finish wooden surround in light cream colour
- A fully fireproof firebox insert with a traditional basket in black powder-coated steel
- Fully adjustable 750 ml bio burner
- Built-in Fragrance Diffuser for use of 7 amazing fragrances for bio fires
- Heat output: 2–2.5 kW (regulated)
- Burning time per refill: 2.5–4 h
- Dimensions: 104.5 W, 98 H, 30 D cm (41.14" x 38.58" x 11.81")
- Complete set, including a set of coals
- Flat-packed for your convenience, with simple step-by-step assembling instructions

Fully adjustable burner

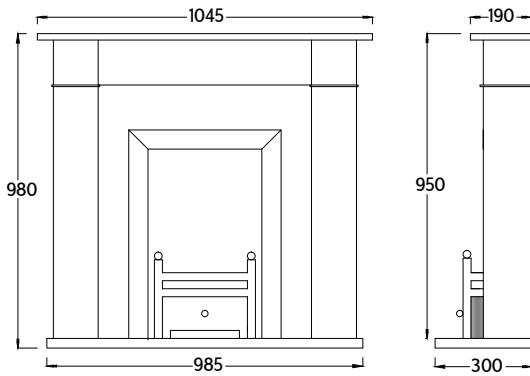

Recommend for easy set up and traditional stylish look!

I have always wanted a fireplace in my living room but was put off by all the daunting DIY work involved. However, the Carrington offered such an easy solution. It has all the beauty and style of a traditional fireplace but was so simple and easy to set up (even for a DIY-phobe like myself!). Absolutely love how it looks and has completely transformed my living room. Thank you Bio Fires for the great service!

Julia
