ASSEMBLY AND FITTING INSTRUCTIONS

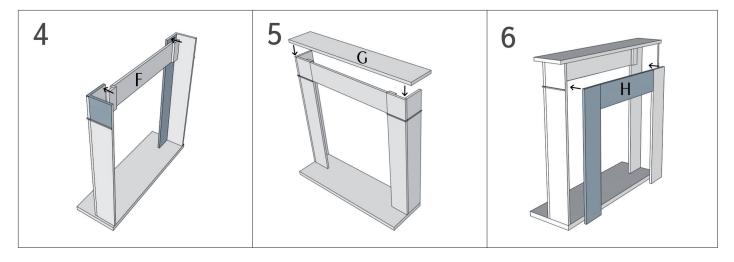

Note: Protect floor surfaces against scratching while assembling by placing a towel or any other soft material underneath.

Keep children away while assembling and fitting this fireplace.

- 1. Place black satin panel marked with number 'A' (hearth) on the floor with the pre-drilled holes facing upright. Screw in the bolts.
- 2 & 3. Locate the four side panels marked with letters 'B'; 'C'; 'D' and 'E'. Screw bolts into pre–drilled holes in panel number 'B'. Bring together with panel 'C', making the right column. Place onto hearth and tighten locking wheels. Repeat the same with panels 'D' and 'E' building the left column.

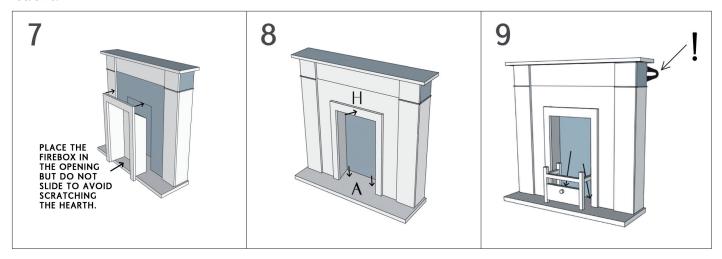

- 4. Facing the fireplace from the back, join front panel 'F' to the two columns securing it with the screws.
- 5. Place panel 'G' (mantel top) upside down showing the pre–drilled holes taking care to protect it from scratches. Screw bolts into pre–drilled holes. Secure the mantel top onto the fireplace.
- 6. Place panel 'H' (black satin frame) under 'F' (front panel) and fasten from the back of the fireplace to the columns with screws, painted part facing front.

- 7 & 8. Position the firebox in the middle of the fireplace and secure onto the hearth (A') and panel H' with the provided screws.
- 9. Position the Mini Basket inside the firebox, securing it by placing the open holes underneath the basket on to the two protruding fixed pegs at the back of the firebox.

To prevent any movement that could cause spillage of fuel, attach the mirror plates to the back of the ready assembled wooden fireplace tightening the screws into the pre-drilled holes. Secure the fireplace to the wall with the provided wall screws.

- 10. Place the burner into the burning chamber of the MINI GRATE, then position the lid/fragrance diffuser on top of the stainless steel burner, covering the opening.
- 11. Arrange any ceramic accessories around the burner, leaving its opening clear for the flame to burn cleanly.
- 12. Remove the warning stickers from the burner's lid before use.
- 13. Your fireplace is ready to be enjoyed!
