NET ZERO FIREPLACES

COOL FLAME 500 PRO SEE-THROUGH FIREPLACE

WATER VAPOUR FIREPLACE

Net Zero fireplace with Optimyst® technology

OPTIMYST® TECHNOLOGY

This quiet ultrasonic device produces a mist that is then illuminated, simulating flames. This effect creates the illusion of fire, which is both visually appealing and safe.

CUSTOMIZABLE FIREBOX

Cool Flame Fireplace has a unique firebox that gives you the option to install the fireplace in one of three possible arrangements.

ACTIVE LED

Multidimensional steam backlighting with the ability to change color and intensity, providing unique experiences. Special spectral lenses scatter light, allowing for the creation of flames in a full color spectrum.

REMOTE CONTROL

The remote control feature designed for your convenience. With a practical remote, you can easily control all the features of the fireplace without having to get up from your couch.

WATER SYSTEM CONNECTION

Cool Flame Pro offers a direct connection to your home's water system, simplifying the refilling process. It eliminates the need for manual water tank refills, ensuring continuous operation and ease of maintenance.

SOUND OF CRACKLING WOOD

Includes a realistic wood crackling sound effect, enhancing the experience of a traditional fire. Cool Flame comes witha an optional log set, enhancing the authentic fireplace experience and adding an extra touch of traditional charm to your modern fireplace.
