DR. VILLY SKINCARE

General Instructions

- Vitamin C + F Super-Power Serum as well as Skin Whitening Cream should only be used at night during the summer, day & night during the winter.
- B+ R Super-Power Serum should only be used at night regardless of the season (please read carefully our personalized instructions below).
- B+R & Vitamin C+F Super-Power Serums cannot be combined in one application. You can apply them alternately instead.
- Sunscreen Face Cream Spf50+ can be used indoors as well if prolonged exposure to Blue Light should occur.

B+R Super-Power Serum Super-Power Serum -30ml

Apply a small amount (2-3 drops) on the entire face only at night.

Gently massage the product in circular and upward motions until fully absorbed.

The product is suitable for all skin types.

Adjustment Period Instructions:

- First 2 weeks: Once x week, only at night.
- 3rd & 4th week: Twice x week, only at night.
- 5th & 6th week: 3 times x week, only at night.

After week 6, transitioning period, you can start using it on a daily basis, strictly at night, regardless of the season.

Avoid eye and mouth area.

While using the Bakuchiol + Retinol 3% Signature Serum, remember to apply a broad-spectrum sunscreen the morning after, and reapply it throughout the day as appropriate.
