TABLE OF CONTENTS

| | |
|---|--|
|  | Fuel System Products 4 |
| | Bardahl Pro fuel products are made to clean and maintain the performance of the fuel system in all types of vehicles, including gas and diesel engines from older models to the latest electronic controlled injection technology. Bardahl fuel system products will help resolve common fuel system problems like loss of power, rough idling, and lower fuel mileage, while maintaining the operating efficiency to reduce emissions and improve fuel economy. |
|  | Diesel Fuel System Products 6 |
| | Bardahl Pro Diesel fuel products are made to clean and maintain the performance of the fuel system in all types of vehicles, from older models to the latest electronic controlled injection technology. Bardahl Pro Diesel fuel system products will help resolve common fuel system problems like loss of power, rough idling, and lower fuel mileage, while maintaining the operating efficiency to reduce emissions and improve fuel economy. |
|  | Engine Treatment & Oil Additives 7 |
| | Bardahl Pro oil products are made to enhance the motor oil properties used in a vehicle to protect the engine from harmful deposits, reduce wear due to friction, and extend the life of the parts and components. |
|  | Transmission System Products 7 |
| | Bardahl Pro transmission products remove harmful sludge and varnish from the system, which improves shifting and helps control 'shudder' while reducing the chance of costly repairs and extending the life of the transmission. |
|  | Differential & Gear Oil Products 8 |
| | Bardahl Pro differential additive, limited slip additive, and gear oil products will remove harmful sludge and varnish to help extend component life and reduce maintenance cost. |
|  | Power Steering Products 10 |
| | Bardahl Pro power steering products include high-quality fluids with cleaners and conditioners that are specially designed to keep the system operating at peak performance for different climates and driving conditions. |
|  | Brake System Products 11 |
| | Bardahl Pro offers a full line of brake service products, including synthetic brake fluids, a brake parts cleaner and an anti-squeal solution. These products will help maintain the proper and safe operation of the braking system. |
|  | Climate Control Products 12 |
| | Bardahl Pro AC products contain the latest chemistry to quickly and efficiently eliminate the odor producing organisms. The solution also has powerful deodorizers that keep the automobile interior smelling fresh and clean. |
|  | Battery Products 12 |
| | Bardahl Pro offers Battery Services products. |
|  | Cooling System Products 13 |
| | Bardahl Pro radiator products have been formulated to effectively clean and maintain the cooling system in all vehicles. These products include flushes, anti-rust conditioners, and sealants to help protect the cooling system from corrosion and contamination that cause leaks and operating failure. |
|  | Wiper Blades 14 |
| | The full line of Bardahl wiper blades is available through Bardahl Pro. These blades have universal connectors for fast and easy installation and provide smooth, quiet and chatter-free performance. Bardahl blades are designed to effectively clean the windshield in all types of weather conditions. |
|  | Motor Oil Products 15 |
| | Bardahl Motor Oil products are formulated with the latest in petroleum chemistry. Your engine will be protected from the common causes of engine breakdown and stress, and no matter the varying temperatures your vehicle performs in, Bardahl oil will keep your engine performing as you intended. |

BARDAHL MANUFACTURING CORPORATION

Company Overview

Since 1939, Bardahl Manufacturing Corporation has produced innovative high quality products for the automotive industry including lubricants, oils, and additives. Bardahl products are sold worldwide in over 90 countries on 6 continents and are packaged in 16 different languages. Bardahl has established a vast network of manufacturing and packaging facilities to support its worldwide distribution.

Since its inception, Bardahl has followed the philosophy of its founder, Ole Bardahl, of only producing the highest quality products by constantly improving its proprietary formulations and providing innovative “solutions” to the marketplace. Bardahl is constantly developing technically advanced products for OEMs, professional technicians, and consumers that enhance vehicle performance.

Bardahl is still a family owned and operated company, managing its worldwide business from the headquarters in Seattle, WA and its products are proudly made in the USA.

History

Ole Bardahl, a Norwegian immigrant, came to the United States in 1922 and settled in Ballard, a community of Scandinavian immigrants located in Northwest Seattle. After purchasing a small chemical company, he developed a unique formula for oil additives. Over the next 20 years the business steadily grew and based on its reputation for quality, the company expanded rapidly across the country and internationally until it became the leading additive manufacturer and supplier in the U.S.

Bardahl is also famous for its long heritage of racing, having sponsored many race teams around the world. Through this racing experience, Bardahl realized that higher compression engines were excellent testing grounds for its products, allowing for new formulations to be evaluated and perfected in various types of racing vehicles.

In August of 2014, Ole Bardahl was inducted into the Motorsport’s Hall of Fame of America. In October of 2014, Bardahl was named as a sponsor and the official Automotive Lubricants Supplier for the LeMay Car Museum.

Innovative Technology

The Bardahl commitment to innovative technology through research was founded from the very beginning with its first oil additive product that used a unique formulation to reduce friction. This technology was further developed with a Polar Attraction Formula that improved the anti-wear, anti-friction, and extreme pressure properties of motor oils. Bardahl continues to develop innovative products and recently designed “ultra-concentrated” formulations that include smaller volumes of chemical solutions, yet perform at higher levels of effectiveness for less cost.

Quality Control Standards

Bardahl has built its leading worldwide reputation by maintaining the highest quality standards to produce the finest specialty lubricants, additives, and automotive service chemicals in the industry. Scientific research is continuously being conducted by chemists at the company’s state-of-the art laboratory. All products are tested according to the standards established by the Society of Automotive Engineers (SAE), American Society for Testing and Materials (ASTM International), and other professional associations. From formulation to production, Bardahl uses advanced technology and strict quality control procedures to ensure every product meets or exceeds its defined specifications.

The R&D Team constantly evaluates the automotive market to identify potential opportunities for new and improved products. This process enables Bardahl to develop unique formulations and technological advancements to meet the demands of today’s hi-tech vehicles, while maintaining compliance with environmental standards and regulations.

#92000 11 oz

INJECTOR CLEANER

Cleans the fuel injectors to decrease emission and improves drivability.

- Removes carbon, varnish and other deposits from the injectors
- Reduces drivability problems by eliminating stalling, hard starting and rough idling
- Improves fuel economy, restores performance and decreases emissions

#92015 5 oz

FUEL SYSTEM DRYER

Water Dispersant

- Safe for gas & small diesel engines
- Protects against the harmful effects of ethanol
- Removes water from the fuel system
- Inhibits corrosion and prevents freezing

#92030 5 oz

E10 & E85 FUEL STABILIZER

Stabilizes fuel during storage and disperses water.

- Provides excellent fuel storage stability
- Protects against the harmful effects of ethanol
- Removes water from the fuel system

#94080 11 oz

GDI CLEANER

Cleans Intake Valves to Restore Power in GDI Systems.

- Removes carbon deposits on intake valves
- Eliminates hesitation, hard starting and rough idling
- Improves fuel economy, restores performance, and reduces emissions

#94350 11 oz

ULTRA PRO

Safely cleans the entire fuel system to restore power and improve fuel economy.

- Removes carbon deposits from the injectors, intake valve and combustion chamber
- Eliminates hesitation, hard starting and rough idling
- Restores power, enhances performance and improves fuel economy
- Reduces the octane requirement and need for premium fuel
- Effective in all types of injectors, including gasoline direct injection (GDI/DIG)

#94050 11 oz

C-C-C (COMBUSTION CHAMBER CLEANER)

Removes deposits from the fuel injectors, combustion chamber, and air intake system.

- Formulated with PEA (Poly Ether Amine) fuel additive chemistry
- Used through the fuel rail – it cleans injectors, intake valves and combustion chambers
- When applied with a Vacu-matic or canister tool it cleans the plenum, intake valves and combustion chamber
- Restores drivability by eliminating hard starting, rough idling and hesitation
- Reduces emissions and improves fuel economy

#94060 11 oz

F-I-A-I-C (FUEL INDUCTION AIR INTAKE CLEANER)

Removes stubborn carbon deposits from the air intake, runners, cylinders and induction system.

- Formulated with PEA (Poly Ether Amine) fuel additive chemistry
- Cleans the plenum, intake valves, induction system and combustion chamber
- Improves fuel economy and enhances performance
- Restores drivability by eliminating hard starting, rough idling and hesitation

#93076 6 oz

AIR INTAKE CLEANER

Powerful aerosol cleaner to remove deposits from the induction system.

- Cleans throttle body, idle air passages and intake plenum to improve drivability
- Removes deposits from the throttle plate to restore efficient operation
- Safe for throttle body catalytic converter and O2 sensors

#94040 11 oz

FAST CLEAN

Rapidly cleans fuel injectors and intake valves to reduce emissions and improve drivability.

- Removes carbon deposits, varnish and other deposits from the injectors and intake valves
- Reduces drivability problems by eliminating stalling, hard starting and rough idling
- Improves fuel economy, restores performance and decreases emissions
- Removes combustion chamber deposits to reduce spark knock
- Can be used to help pass an Emissions Test

#94055 11 oz

F-I-C (FUEL INDUCTION CLEANER)

Cleans the fuel injection system, the combustion chamber and intake valves when used with appropriate delivery systems.

- Formulated with PEA (Poly Ether Amine) fuel additive chemistry
- Used through the fuel rail– it cleans injectors, intake valves and combustion chambers
- When applied with Vacu-matic or canister tool it cleans the plenum, intake valves and combustion chamber
- Restores drivability by eliminating hard starting, rough idling and hesitation
- Reduces emissions and improves fuel economy

#34003 32oz

D-T-1

Premium direct injection fuel system cleaner applied through the fuel rail or installed with a new fuel filter to quickly and effectively remove deposits from the entire fuel system.

- Restores the injector spray pattern for improved combustion
- Removes stubborn deposits caused by oxidation and the use of biodiesel fuels
- Restores lost power, enhances performance and decreases emissions
- Improves fuel economy and reduces operating cost

#94390 11 oz

DIESEL FUEL CONDITIONER

Cleans fuel systems to reduce emissions, restore power and improve fuel economy.

- Disperses water and excess moisture
- Converts regular diesel into premium grade diesel fuel
- Removes fuel injector deposits and keeps injectors clean
- Restores injector spray patterns to improve power, performance and fuel economy
- Increases cetane rating of fuel to improve combustion and reduce emissions
- Enhances lubricity of fuel to protect pumps and injectors from wear
- Suitable for use with all types of fuel injectors and safe with DPF and catalytic converters

#94361 64oz

DIESEL EGR CLEANER

Diesel EGR Cleaner is a water based product that safely and efficiently removes even heavy soot and carbon deposit buildup from diesel engines equipped with EGR systems.

- Restores proper EGR valve operation
- Cleans sticking variable vanes in turbochargers
- Removes blockages in EGR and exhaust systems, including the DPF
- Cleans entire induction system including intake valves and combustion chambers
- Safe for use with all diesel emissions control systems, including DPF's and catalytic converters

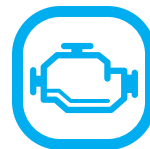

#94360 32 oz

DIESEL EGR RINSE

Diesel EGR Rinse is the 2nd step of a 2-step service that safely and efficiently removes soot and carbon from diesel engines with EGR systems.

- Restores proper EGR valve operation
- Loosens sticking variable vanes in turbochargers
- Removes blockages in EGR and exhaust systems, including the DPF/catalyst
- Cleans entire induction system including intake valves and combustion chambers
- Restores power, improves performance and increases fuel economy
- Safe for use with all diesel emissions control systems, including DPF's and catalytic converters
- Suitable for use with all types of fuel injectors and safe with DPF and catalytic converters

#93400 11 oz

PRO-1 OIL SUPPLEMENT

Enhances motor oil to increase lubrication, prevent oxidation deposits and reduce friction and wear in newer vehicles with less than 50,000 miles.

- Increases protection against thermal oxidation
- Reduces deposit formation throughout the engine
- Improves acid and corrosion protection
- Extra protection during high temperature / high load conditions
- Boosts anti-wear, anti-friction and extreme pressure performance of the oil

#93450 11 oz

PRO-2 OIL TREATMENT

Enhances motor oil to prevent oxidation, reduce oil consumption and restore power in older vehicles with more than 50,000 miles.

- Improves oil's ability to control excessive oil consumption and protect components during extended drain intervals
- Restores compression and engine power to improve performance
- Boosts anti-wear, anti-friction and extreme pressure performance of the oil
- Increases oxidation and corrosion protection of the oil
- Safe to use in gas or diesel engines and will not harm plastic or Teflon components
- Compatible with all types and grades of motor oil, including modern synthetics

#93250 11 oz

AUTOMATIC TRANSMISSION CONDITIONER

Enhances the performance of transmission fluids to maintain efficient operation.

- Inhibits the buildup of harmful deposits and extends the life of the transmission
- Improves transmission shifting and helps control 'shudder'
- Conditions seals and O-rings to prevent leaks
- Compatible with all types of automatic transmission fluids, including synthetics

#93208 11 oz

CVT-2 SYNTHETIC FLUID CONDITIONER

Enhances the performance of CVT transmission fluid to maintain efficient operation and extend component longevity.

- Enhances CVT fluids shear stability
- Increases anti-shudder durability
- Excellent anti-wear, oxidation and low temperature capabilities

#93201 32 oz

CVT SYNTHETIC FLUID

Synthetic transmission fluid for continuously variable transmissions CVT type transmissions.

- Anti-wear protection for longer transmission life
- Provides very smooth shifting, reduces vibrations
- Excellent thermal and oxidation stability for longer oil life

TRANSMISSION PRODUCTS

#57090 32 oz

LO-VIS ATF 100% SYNTHETIC MULTI-VEHICLE

Lo-Vis ATF is a multi-purpose fluid that meets and exceeds current original equipment manufacturers specifications for automatic transmission fluids.

- Excellent wear protection and quiet, smooth operation
- Superior thermal and oxidation stability compared to conventional ATF Fluids
- Protects against rust and corrosion
- Outstanding seal compatibility and will not degrade nylon components
- Dyed red to detect leaks.

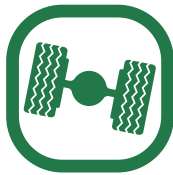

#57095 32 oz

HI-VIS ATF 100% SYNTHETIC MULTI-VEHICLE

Hi-Vis ATF is a multi-vehicle heavy-duty fluid designed for heavy-duty trucks and passenger vehicle applications.

- Excellent wear protection and quiet, smooth operation
- Superior thermal and oxidation stability compared to conventional ATF Fluids
- Outstanding seal compatibility and will not degrade nylon components
- Dyed red to detect leaks
- Can be used as a Power Steering Fluid in all types of vehicles with exception of Honda and OEM specific

DIFFERENTIAL PRODUCTS

#93260 4 oz

LSD (LIMITED SLIP DIFFERENTIAL ADDITIVE)

LSD is a synthetic friction modifier that restores normal operation in limited slip differentials.

- Eliminates clutch plate chatter
- Reduces noise and vibration
- Compatible with all differential fluids, including mineral based and synthetic
- Contains a synthetic friction modifier to reduce resistance and abrasion

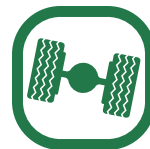

#75110 32 oz

80W-90 MULTI-GRADE GEAR OIL

80W-90 Gear Oil is a versatile multi-grade sulfur-phosphorus type hypoid gear lubricant.

- Exceeds API GL-5 quality, Meets SAE J 2360 requirements
- Protects hypoid gears from wear and scuffing
- Provides rust protection to gears
- Recommended for differentials and conventional transmissions in passenger cars and trucks where GL-5 fluids are specified
- Meets Mack GO-J specification and is backward compatible with GO-F, GO-G and GO-H specifications

#75120 32 oz

85W-140 MULTI-GRADE GEAR OIL

85W-140 Gear Oil is a versatile multi-grade sulfur-phosphorus type hypoid gear lubricant.

- Exceeds API GL-5 quality, Meets SAE J 2360 requirements
- Protects hypoid gears from wear and scuffing
- Provides rust protection to gears
- Recommended for differentials and conventional transmissions in passenger cars and trucks where GL-5 fluids are specified
- Meets Mack GO-J specification and is backward compatible with GO-F, GO-G and GO-H specifications

#75180 32 oz

75W-140 SYNTHETIC GEAR OIL

75W-140 Gear Oil is a Synthetic limited slip multi-purpose gear lubricant designed specifically for high performance automotive applications.

- Exceeds API GL-5 quality, Meets SAE J 2360 requirements
- Protects hypoid gears from wear and scuffing
- High performance Domestic and Foreign automobiles
- Suitable for both, limited-slip and non limited-slip applications
- Compatible with other automotive gear oils

#75580 32 oz

MTF 75W-80 SYNTHETIC GEAR OIL

75W-80 Synthetic Gear Oil multi-purpose gear lubricant is specifically formulated with extreme pressure technology suited for high performance automotive applications.

- API Service GL-4
- Meets various OEM specifications that need API GL-4 requirements
- Suitable for top-up in Limited Slip Differentials (LSDs)
- Provides rust protection to gears
- Fully Synthetic, therefore allows start-up at extremely low temperatures.

#75590 32 oz

XTG 75W-90 SYNTHETIC GEAR OIL

75W-90 Synthetic Limited Slip Gear Oil is a synthetic multipurpose gear lubricant designed specifically for high performance automotive applications.

- Exceeds API GL-5 quality, Meets SAE J 2360 requirements
- Protects hypoid gears from wear and scuffing
- High performance Domestic and Foreign automobiles
- Suitable for both, limited-slip and non limited-slip applications
- Compatible with other automotive gear oils

#57124 (RED) 64 oz

POWER STEERING FLUID (RED)

Premium fluid formulation that optimizes performance in modern power steering systems.

- Superior Group II base oils
- Protects against wear, rust and corrosion
- Contains seal conditioner to prevent leaks
- Excellent wear protection for smooth quiet operation
- Resists foaming and enhances low temperature performance

#57134 64 oz

PSF FOR HONDA & ACURA CARS

Fluid Formulated to Use in Honda & Acura Power Steering Systems.

- Superior Group II base oils
- Excellent wear protection for smooth quiet operation
- Protects against wear, corrosion and hose breakdown
- Contains seal conditioners to prevent leaks
- Resists foaming and enhances low temperature performance

#57144 (YELLOW) 64 oz

POWER STEERING FLUID (YELLOW)

Premium fluid formulation that optimizes performance in modern power steering systems.

- Superior Group II base oils
- Protects against wear, rust and corrosion
- Contains seal conditioner to prevent leaks
- Excellent wear protection for smooth quiet operation
- Resists foaming and enhances low temperature performance

#57154 64 oz

PSF SYNTHETIC (RED)

Red synthetic fluid formulated to provide maximum performance.

- Synthetic PAO and Ester based oils
- Protects against rust and corrosion
- Excellent thermal and oxidation stability
- Contains seal conditioner to prevent leaks
- Superior wear protection for smooth quiet operation
- Resists foaming and enhances low temperature performance

#57174 64 oz

PSF SYNTHETIC (GREEN)

Green synthetic fluid is compatible for systems using Pentosin CHF-7.1, CHF 11S or CHF 202.

- Synthetic PAO and Ester based oils
- Protects against rust and corrosion
- Excellent thermal and oxidation stability
- Contains seal conditioner to prevent leaks
- Superior wear protection for smooth quiet operation
- Resists foaming and enhances low temperature performance

#58132 32\64 oz

DOT-3 SYNTHETIC BRAKE FLUID

Synthetic DOT-3 Brake Fluid for ABS, Disc & Drum Brakes.

- Meets or exceeds all DOT-3 specifications
- Maintains proper operation of the brake system and ensures the safe operation of the vehicle
- Reduces the potential for fluid vaporization and vapor lock by keeping a high wet boiling point
- Extends the life of the brake system and its components
- Can be used in all ABS, Disc and Drum brake systems

#59132 32\64 oz

DOT-4 SYNTHETIC BRAKE FLUID

Synthetic DOT-4 Brake Fluid for ABS, Disc & Drum Brakes.

- Meets or exceeds all DOT-4 specifications
- Maintains proper operation of the brake system and ensures the safe operation of the vehicle
- Reduces the potential for fluid vaporization and vapor lock by keeping a high wet boiling point
- Extends the life of the brake system and its components
- Can be used in all ABS, Disc and Drum brake systems

#94156 6 oz

BRAKE PARTS CLEANER

Strong aerosol cleaner that removes dirt and residue from all brake parts.

- Powerful solvent cleaning formula
- Removes contaminants from brake parts
- Dries quickly to leave a clean dry surface
- Safe for all types of braking systems

#94160 1 oz

BRAKE ANTI-SQUEAL

Lubricates and eliminates noise from disc brakes.

- Improves pad and rotor life
- Reduces brake dust accumulation on the pad
- Reduces brake noise during stop and go driving

CLIMATE SYSTEM PRODUCTS

#94584 2 oz

#94560 2 oz

AC FRESH

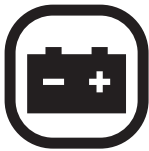

Disinfects and removes musty, foul odors from vehicle AC systems.

- Cleans and renews automotive A/C systems
- Eradicates bacteria and eliminates odor producing organisms
- Deodorizes and freshens the system and cabin

COMPRESSOR CARE

Restores air conditioning performance and prolongs life of compressor parts.

- Enhances A/C system efficiency
- Decreases interior temperatures
- Reduces the impact of 'oil fouling'
- Extends the life of the system
- Improves overall performance
- Easy installation

BATTERY PRODUCTS

#94146 2 oz

BATTERY CLEANER AND LEAK DETECTOR

Battery terminal cleaner cleans and prevents future corrosion.

- Detects electrolyte leaks from battery
- Cleans terminals by removing existing corrosive deposits
- Restores connection between the cable and the terminal

#94590 11 oz

COOLING SYSTEM QUIK COOL

Enhances ability of coolant to transfer heat and control overheating.

- Protects cooling system components from corrosion
- Improves wetting ability of the coolant and increases heat transfer capabilities
- Safe to use with all systems and will not harm metal, rubber or plastic components
- Compatible with all rust inhibitors, coolant types and anti-freeze solutions

#94600 11 oz

COOLING SYSTEM CLEANER

Cleans the radiator and prolongs the life of the cooling system.

- Cleans and conditions the entire cooling system
- Removes harmful rust, scale and sludge deposits
- Safe for use in aluminum radiators and will not harm plastic components
- Restores heat transfer efficiency to prevent over-heating and costly engine damage
- Compatible with all types of coolant and anti-freeze solutions

#94610 11 oz

COOLING SYSTEM CONDITIONER

Maintains fluid pH balance and inhibits system oxidation and wear.

- Inhibits oxidation that causes rust and corrosion to build up in the cooling system
- Lubricates the water pump bearings and seals to improve its operation
- Restores reserve alkalinity to the coolant
- Helps control thermal degradation of coolant
- Compatible with all types of coolant and anti-freeze solutions

BARDAHL WIPERS

UNIVERSAL BEAM BLADE

FRAMELESS FLAT WIPERS

ALL- SEASON PERFORMANCE

Advanced Aerodynamic Design

Smooth, Quiet & Chatter-Free Operation

Easy and Super Secure Installation

- Engineered to fit all popular TRADITIONAL and OEM wiper arms
- Computerized aerodynamic design results in smoother and quieter operation
- Constructed with an internal steel tension spring to ensure uniform pressure from end to end
- Frameless design adapts better to newer curved windshields for a clean wipe in all weather conditions
- Center Spoiler prevents blade lift-off and chattering during high speeds or strong winds
- Synthetic rubber and rust free galvanized steel bracket provides longer life
- Revolutionary CLIP SYSTEM, super secure, easy technician friendly installation
- Inspected, measured and tested using ISO certified production procedures

AVAILABLE SIZES

11", 13", 14", 15", 16", 17", 18", 19", 20", 21", 22", 24", 26", 28"

ALL- SEASON PERFORMANCE

- High quality blade with precise wiping edge for cleaner windshields in all weather conditions
- Engineered with premium synthetic rubber molded to exact specifications and top quality standards
- Aerodynamic design ensures even wiping action and reduces chatter and streaking
- Durable & corrosion resistant finish
- Fast, easy and technician friendly installation
- Strong rust-free steel frame for rugged, heavy duty performance
- Synthetic elastomers resist aging from sun and improve durability
- Stainless steel rivets on all bridges for superior strength and longer life
- Graphite coated squeegee edge provides a smooth and quiet wiping action across the windshield
- Twin-rail stainless steel spine distributes pressure on both curved and flat windshields
- Perforated center bracket prevents blades from lifting off the windshield even in strong winds or at high speeds

SYNTHETIC BLADE

METAL FRAME WIPERS

Fits all popular TRADITIONAL Wiper-Arms

HOOK

BAYONET

SIDE PIN

AVAILABLE SIZES

11", 13", 14", 15", 16", 17", 18", 19", 20", 21", 22", 24", 26", 28"

XTC 100% SYNTHETIC MOTOR OILS

MOTOR OILS

| Motor Oil | Type | Quart | Gallon | 5 Gallon | 6 Gallon | 55 Gallon |
|-----------|-----------|-------|--------|----------|----------|-----------|
| XTC 0W-20 | Synthetic | 22600 | | | 22606 | 22603 |
