ABOUT US

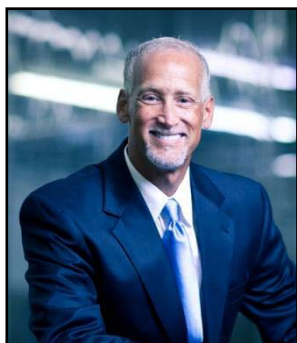

Leading Nutraceutical Manufacturer-Doctor Researched, Developed and Owned

Welcome to Drucker Labs (“DL”), a Plano, Texas based liquid Organically-bound dietary supplement developer and manufacturer. Drucker Labs has dedicated 20+ years to innovating, researching, and developing superior liquid nutraceuticals.

Drucker Labs has combined the best naturally sourced nutrients and its proprietary technology to create products that are BEYOND other liquid nutraceuticals. Each product has been meticulously developed, manufactured and preserved with proprietary technology unique to Drucker Labs.

Dr. Richard A. Drucker, MS, ND, Ph.D.

Dr. Richard Drucker, a highly respected doctor in the field of natural health, is the Founder and CEO of Drucker Labs. For over twenty-five years, Dr. Drucker has worked to perfect the selection of herbal and other natural ingredients to create products to support the body and its optimal health. Dr. Drucker's proprietary 100% Carbon-bond **intraLINE** products (intraMIN[®], intraMAX[®] and intraKID[®]) are created as All-In-One Ounce, 100% Organically-bound ultra-hypoallergenic superior liquid vitamin and mineral formulas. These formulas are tolerated by the most chemically-sensitive patients – children and adults alike.

Dr. Drucker has over twenty-five years of experience in the development of highly proprietary biochemical formulations, which have elevated the intraLINE products to be amongst the most sophisticated metabolic and bio-nutritional nutraceuticals and supplements in the world. His proprietary 100% Carbon-bond and intraCELL[™] Technology allows for maximum nutrient bio-availability, absorption and utilization at the cellular level.

intraLINE products began with Dr. Drucker's own health journey. Shortly after graduating from his undergraduate studies (university), Dr. Drucker was diagnosed with life-threatening autoimmune and immune diseases – diseases which ran in his family and claimed the life of his mother at a young age.

Traditional allopathic medicine was not working and thus, Dr. Drucker turned his attention to naturopathic medicine. After significant trial and error, he designed a proprietary 100% Carbon-based extraction process that utilizes Carbon-bonds as a means of attaching nutrients to organic carbon so as to create as close to a perfect tissue match with our cells and tissues as possible. The result is maximum bioavailability and utilization of the intraLINE products at the cellular level.

Through his research and self-discovery, Dr. Drucker created formulations which saved his own life. This technology spread throughout the medical community. Over-time, rising interest in the intraLINE products and its proprietary technology has resulted in the product line being utilized by thousands of healthcare professionals throughout the United States and Globally. Healthcare professionals for over 25+ years have recommended intraLINE products to their patients for various acute medical diseases and chronic ailments. Short-term and long-term results have shown significant medical efficacy and improvement even in treating those who suffer from the most highly degenerative diseases, immune aberrances, auto-immunity, viral manifestation, chronic pain syndromes (such as fibromyalgia, myalgia encephalomyelitis), and more.

Current National President of the American Naturopathic Medical Association (ANMA)

Dr. Drucker is serving as the current National President of the American Naturopathic Medical Association (ANMA). In this capacity, he is responsible to over-see all Naturopathic Doctors in the United States.

AgraMAX FAO[™] (Food-Air-Ocean) Restoration Initiative. Restoring Our Tomorrow, Today.[™]

For over 25 years, Dr. Drucker has researched and developed a unique, proprietary technology capable of disrupting the agricultural food and fertilizer industry. **AgraMAX FAO[™] (food-air-ocean) Restoration Initiative** is a proprietary technology with the potential to revolutionize these industries as the first to market all-natural 100% Organically Microcomplexed “**Soil-based, Nutrition & Atmosphere Regeneration**” (SNAR) system.

AgraMAX FAO™ is a revolutionary and futuristic 100% Organically Microcomplexed, Soil-based, Nutrition & Atmosphere Regeneration (SNAR) system, that has the capability to help restore significant Organic-complexes (including polysaccharides and muco-polysaccharides) back into the depleted soils. As the soil absorbs AgraMAX FAO, it will begin to regenerate (heal) and over a few short months will once again contain critical (Carbon-based) Organic-complexes and microcomplexes required to feed the organisms needed to nourish our crops and plants. In a short time, the soils will become fertile again and transfer the critical (life-sustaining) Organically-bound (Carbon-based) nutrients and minerals back into our food supply. This will allow moisture (water) to be “held” (stored/retained) back in the soil where it belongs. Subsequently, the soil will be able to sequester (via Dr. Drucker’s proprietary CarbonCAP Technology™) vast amounts of CO2 emissions, thereby transferring back into the soil, excessive CO2 that has accumulated (over decades) in the atmosphere and cannot escape due to the Greenhouse Effect. AgraMAX FAO has the capacity to help rid the planet of excessive CO2 accumulation and help restore the soil, crops and the nutrients in our food supply back to its original state before the 1930’s.

Clinical Education and Practice:

- Advanced study in the field of Quantum Physics and Mechanics
- Advanced study in the field of Natural Immunology (dissertation, study and practice)
- Development of Physical and Metabolic Rehabilitation Technique:
 - E.X.P.I.R.T. - **Extreme Pain and Injury Repair Technique** - Dr. Drucker’s proprietary neuro-muscular pain and injury elimination and rehabilitation technique.
- Certified in N.A.E.T. - Nambudripad’s Allergy Elimination Technique
- Advanced Training in NET - Neuro Emotional Technique
- EDS/EAV/MSA – Electro Acupuncture/ Meridian Stress Testing

Education:

- Bachelors of Science - Indiana University, Bloomington, IN, 1987
- Masters of Science in Natural Health - Clayton College of Natural Health, 1999
- Doctor of Naturopathy with Honors - Clayton College of Natural Health, 1999
- Ph.D. dissertation in Natural Immunology in Natural Health - Clayton College of Natural Health, 2006

ORIGIN STORY

Dr. Drucker, A Young Man Determined to Live to be a Doctor, Committed to Care

At a young age, Dr. Drucker suffered from a serious autoimmune disorder. In his 20's and falling to a life-threatening bodyweight, unable to find relief or a cure from traditional (Allopathic) medicine, he embarked upon a long journey of scientific study. He conducted his own research and studied the importance of high-quality, Organically-bound trace minerals and nutrients for his own health.

In his pursuit of study, he obtained 2 Doctorates: a PhD in Natural Health (with a specialty in natural immunology) and doctorate in Naturopathic Medicine. Dr. Drucker is Board-certified.

A highly respected authority in the field of natural health, Dr. Drucker currently sits as the National President of the American Naturopathic Medical Association (ANMA).

Dr. Drucker is a visionary researcher, developer, and a Board-certified Naturopathic Doctor. Having worked as a Naturopathic Doctor for 30+ years he has an acute awareness of how nutrients are linked to both sicknesses and to health and wellness.

It also led him to create two breakthrough technologies called Carbon-bond Technology and intraCELL™ Technology which separates Drucker Labs from the competition. In time, Drucker Labs became a global leader and

innovator at the forefront of the nutraceutical industry.

Dr. Drucker discovered that Organically-bound trace minerals are the neuro-electrical key ("catalyst") to most cellular function, health and life. This research and understanding were critical in the development of his first nutraceutical "batches" which led to his recovery and health. Amazed by the improvements seen in his own health he embarked upon a journey to further develop and refine nutraceuticals to share with colleague's and other healthcare professionals.

WHERE WE ARE TODAY

DRUCKER LABS A HIGHLY RESPECTED AUTHORITY IN THE FIELD OF NATURAL HEALTH AND WELLNESS.

The Drucker Labs nutraceutical company of today had very humble beginnings. It all started from my "bathtub" over 25 years ago. In my 20's my autoimmune condition was so life threatening that I was given 6 months to live. Knowing that my Mom had passed away from the same auto immune disease that I likely inherited I knew that every day towards finding a cure was critical.

He began studying the work of the 2-time Nobel Prize laureate Linus Pauling. In brief, his findings indicated that our foods were hollow (void) of critical organic minerals and nutrients. This research led him to the development of my unique Organic mineral extraction process in my own bathtub. What I realized is that Carbon is the key to life! So, I spent the next 12 years figuring out how

to attach living Carbon to a mineral and eventually (over many years) to over 35 minerals. Subsequently, he spent the next 15 years figuring out how to attach the new living (Organically-bound) minerals to a nutrient. Eventually, over many years – he was able to attach the Organically-bound minerals to over 400 nutrients.

What he found was that taking high quality Organically-bound (Carbon-based) minerals and nutrients over time, slowly reversed his deadly autoimmune disease and saved his own life! His recovery was nothing less than a miracle. Amazed by the improvements in his own health, Dr. Drucker continued to further develop and refine his proprietary extraction processes and thus soon began to share his unique technology with colleagues and other healthcare professionals. They experienced significantly positive and beneficial results for their patients who were suffering from various immune, autoimmune and other serious disease states.

Dr. Drucker's research has led him to create two breakthrough technologies called Carbon-bond Technology and intraCELL Technology. These two unique technologies separate Drucker Labs from the competition. He discovered that Organically-bound trace minerals are the neuro-electrical key (or catalyst) to many cellular functions and thus to our over-all health and ability to prevent and fight disease.

WHERE WE ARE TODAY, CONT'D

Drucker Labs a highly respected authority in the field of natural health and wellness.

What started as early “batches” of nutraceuticals formulated in his bathtub for his own health and recovery, is today, Drucker Labs, a 40,000 sq. ft. FDA audited facility. DL produces a sophisticated line of nutraceuticals that have been recommended and endorsed by Healthcare Professionals around the world.

Drucker Labs follows current Good Manufacturing Practices (cGMP) as regulated by the Food and Drug Administration and the Texas Department of State Health Services. Its facility adheres to and exceeds the most stringent quality measures as designed and enforced by Food & Drug Administration (FDA). All of DL's ingredients as well as all of DL's **intraLINE 2.0™** products are tested rigorously to ensure their quality and safety, demonstrating our commitment to compliance and excellence in every Lot manufactured.

The qualified team at Drucker Labs is committed to growing and is consistently reaching for the highest level of achievement in developing and manufacturing its products. It is made up of individuals with decades of experience in the areas of product development, testing, quality assurance and solid manufacturing practices.

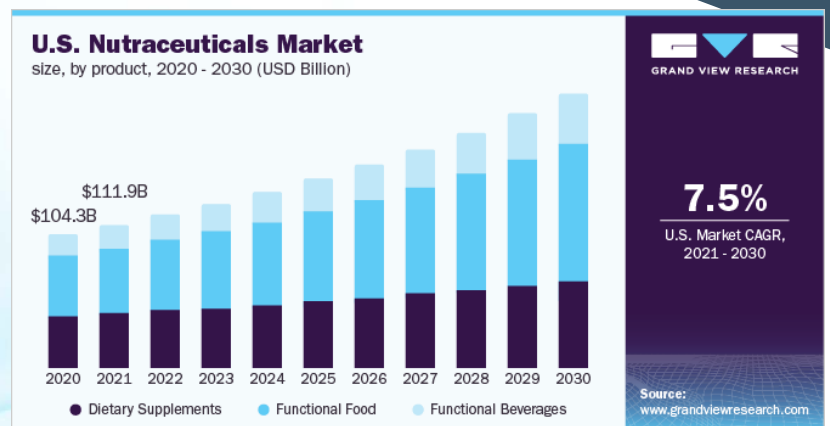

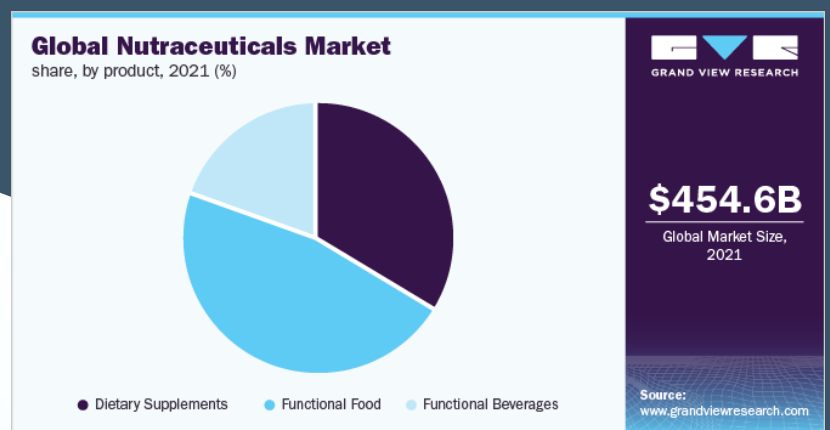

WHAT IS A NUTRACEUTICAL AND WHY THE MARKET DEMAND?

A nutraceutical is defined as a dietary supplement that provides the body with medical or health benefits, including the prevention and treatment of disease. Taking nutraceuticals is a natural way to accomplish therapeutic results with minimal (to zero) side effects, contraindications, or long-term dependencies. The global shift to prevention and wellness has propelled the nutraceutical demand into a multi billion-dollar industry that continues to grow, exponentially, year after year. Drucker Labs intraLINE 2.0 products have been endorsed and used by Healthcare Professionals and patients as a more natural way to provide the body with health benefits to stave off and fight disease. This includes proven results, both therapeutically (curatively) and preventively (prophylactically).

Consumers now more than ever, are taking a greater interest in their health and wellness and how to live a longer, healthier, and more active life. The organic, whole food, keto, vegan, etc. industries are offshoots of this consumer demand. At the same time consumer awareness about the depleting quality of foods and the need for top quality supplements is on the rise.

“ I’VE READ AND RESEARCHED intraMIN AND COMPARED IT TO SO MANY OTHERS, AND MY VERDICT IS EXTREMELY HIGH QUALITY! I HAVE ONLY BEEN USING IT FOR A FEW WEEKS, AND WHEN I TAKE IT, IT TAKES AWAY MY CRAVING FOR COFFEE, BECAUSE I FEEL IT GIVES ME ENERGY ALMOST INSTANTLY!”

**415+ EXCEPTIONALLY SOURCED NUTRIENTS
BEYOND THE COMPETITION**

EXCEPTIONAL NUTRIENTS AND PROPRIETARY MANUFACTURING TECHNOLOGY ELEVATES DRUCKER LAB'S PRODUCTS BEYOND THE COMPETITION

Over 20+ years Drucker Labs has established itself as an innovative leader and manufacturer of a complete line of 100% Organically-bound liquid dietary supplements for both children and adults. Dr. Drucker has perfected the selection of **415+ essential nutrients** to create an impressive line of 100% Organically-bound liquid nutritional supplements that are recommended by healthcare professionals all over the world. Offering 415+ specifically sourced nutrients elevates DL products Beyond its competitors in both QUANTITY and QUALITY.

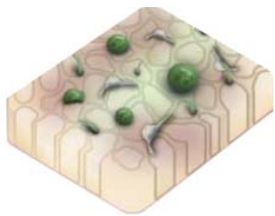

Proprietary Manufacturing (known as Carbon-bond Technology) delivers Rapid Infusion and Maximum Absorption of ALL Drucker Labs products, BEYOND the Competition.

Drucker Labs proprietary Carbon-bond Technology™ is the result of 20+ years of

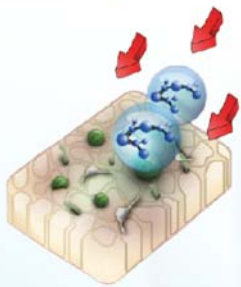

research, development, testing and analysis. This technology is a unique and proprietary technology which rapidly infuses 100% Organically-bound nutrients in the body's cells in a matter of seconds while simultaneously cleansing toxins from extra-cellular space, interstitial fluid and fatty tissue.

Drucker Labs' intraLINE 2.0 products contain 100% Organically-bound Carbon, making them a near "perfect tissue match" with our body's cells and tissues. This near perfect similarity in the bio-chemical structure of DL's Carbon-bond Technology enables nutrients to have rapid systemic absorption, optimal bio-availability and maximum utilization of nutrients at the cellular level. The "building blocks" of the technology are simple; all living cells and tissues are made of Organic Carbon, as opposed to inert or synthetic matter which primarily contain inorganic (toxic) Carbonate.

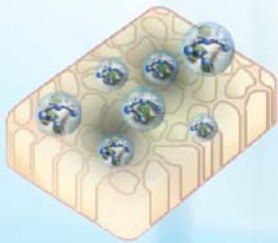

PROPRIETARY CARBON-BOND™ TECHNOLOGY

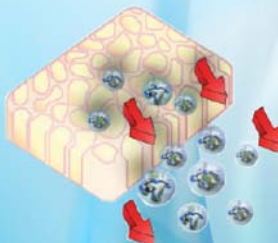

STEP 1: Synthetics and inorganic chemicals can slowly accumulate over time and pollute the body's cells. This image shows the intestinal wall or fatty tissue with harmful inorganic synthetic substances (waste).

STEP 2: 100% Proprietary Organically-bound Carbon-bond Technology has a natural affinity for inorganic (harmful) waste within the cells.

STEP 3: Our Carbon-bond Technology supports the body in neutralizing inorganic waste while simultaneously introducing 100% Organically-bound nutrients into the cells.

STEP 4: The body's cells are now readily supported to release and cleanse inorganic waste/toxins (via urine, skin, and colon).

Drucker Labs Proprietary Carbon-bond Technology allows for Rapid Infusion and Maximum Absorption of its nutrients, BEYOND its competition

Drucker Labs has dedicated 20+ years to innovating, researching, and developing a proprietary Carbon-bond technology for use in nutraceuticals for superior absorption, bio-availability, and utilization at the cellular level. DL has a complete line of liquid dietary supplements for adults as well as children. Carbon-bond Technology is a state-of-the-art ultra-tiny particle-based delivery system.

Essentially, Carbon-bond Technology is designed to help the body digest and absorb trace minerals and other nutrients in the way that nature intended – bonded with Organic carbon as you would find in high quality fruits, vegetables, meats and other natural foods. Sadly, modern farming practices typically deprive these foods of their Organically Carbon bonded trace mineral content. That's why intraMIN®, intraMAX® 2.0 and intraKID® 2.0 are becoming more and more necessary for maintaining a healthy balance of vitamins, minerals, and other vitally important nutrients within the human body.

In more detail - During DL's proprietary Carbon-bond Manufacturing process, Organic Carbon is attached and bound to each (and every) mineral and then to each and every nutrient. It is simultaneously broken-down into much smaller particles that are re-structured and polymerized to Carbon. The new 100% Carbon-bonded minerals and nutrients now consist of the same "living matter" (material) that we are made up in the form of: Methyl's Aromatic Protonates, Heterocyclics, Carbonyls, Carboxyls, Quinones, Ketone-Ketene-like Carbonyls and Ester groups.

The result – DL products Carbon Bond Technology is the most powerful intra-cellular rapid infusion and absorption technology in the liquid nutraceutical industry, propelling its proprietary nutraceuticals BEYOND the competition.

Below is an illustration of how Carbon-bond Technology works within the body to release both intra-cellular and extra-cellular toxins while simultaneously infusing 100% Organically-bound nutrients.

ALL-NATURAL PRESERVATIVE TECHNOLOGY

- NO POTASSIUM SORBATE
- NO SODIUM BENZOATE

intraFRESH™ TECHNOLOGY

Drucker Labs' proprietary intraFRESH™ Technology naturally preserves ALL DL products. Our competitors use un-natural preservatives by adding synthetic (toxic) chemicals.

ALL DL PRODCUTS ARE FREE OF: Synthetic Chemicals, Flavors, Fillers and Preservatives

Drucker Labs proprietary **intraFRESH™** Technology is the result of 7+ years of research, development, testing and analysis. This technology is leading the nutraceutical world with one of the most promising low molecular weight (and size) Organically-bound proprietary preservation technologies.

After 7+ years of Research and Development Drucker Labs has perfected this critically needed all-natural preservation technology. In December 2022, Drucker Labs was FDA authorized to use intraFRESH™ technology in its liquid dietary supplements as a first of its kind All-natural preservation system.

DL's new preservation technology does not use any chemicals whatsoever. Therefore, there is absolutely no sodium benzoate and no potassium sorbate (harsh/toxic chemicals) in any of Drucker Labs intraLINE 2.0 products.

Dr. Drucker felt it was necessary to create an All-natural preservation system so as to naturally preserve the critical nutrients, whole foods and superfoods, enzymes, co-enzymes, factors and co-factors that are present in all intraLINE™ 2.0 products.

Drucker Labs proprietary intraFRESH™ Technology (All-natural preservation system) has proven to be as therapeutically effective/potent (as compared to synthetic/toxic chemicals) in preventing the growth of Yeasts, Molds, Bacteria's, and the like in trials. It exceeds the 9-month maximum shelf life standard for liquids as required by FDA.

THE RESULT

intraFRESH Technology is FDA authorized as an All-natural preservation system. DL's intraLINE 2.0 products are as close to "fresh juicing" as seen anywhere in the world.

PROPRIETARY COLD-FILTERING COLD-FILLING TECHNOLOGY

**FOR MAXIMUM QUALITY
PRESERVATION OF ALL NUTRITIONAL
FACTORS AND CO-FACTORS**

DL is Uniquely Dedicated To A Cold-filtering and Cold-filling Manufacturing Process Unlike its Competitors

Drucker Labs proprietary Cold-Filter and Cold-Fill Processing produces 100% Organically-bound nutrients preserving maximum nutritional integrity and potency of each and every nutrient.

Our competitors are "hot filling" (rather than "cold-filling"), heat pasteurizing and adding harsh chemicals required in standard FDA approved preservative systems. Research has proven that "heat destroys" the vital nutritionally-rich enzymes, factors and co-factors present inside the nutrients rendering the nutrient hollow (void) of its nutritional constitution.

As such, Drucker Labs has spared no expense in dedicating time and care to a long and difficult proprietary manufacturing process of Cold-Filtering and Cold-Filling all intraLINE 2.0 products.

DRUCKER LABS' SUPERIOR PRODUCT LINE SUMMARY

intraMIN[®] | intraMAX[®] |
intraKID[®]

Over 20+ years DL has created a complete line of liquid dietary supplements for adults as well as children.

DL's proprietary intraLINE 2.0 products are the highest quality, Organically-bound trace-mineral based nutrients for maximum energy, strength and stamina. intraLINE 2.0 is also seen as a more natural

way to provide the body with health benefits and stave off or fight disease. This includes proven results both curatively (therapeutically), and preventively (prophylactically).

ALL DRUCKER LABS' PRODUCTS ARE FREE OF...

Because we know what is NOT in a product is just as important as what is in a product, Drucker Labs' products are 100% free of the following:

DOES NOT CONTAIN: Wheat and Gluten, Yeast, Dairy, Milk, Eggs, Soy, Peanuts, Tree Nuts, Shellfish and Caffeine.

ALSO DOES NOT CONTAIN: Artificial Colors, GMOs, Stevia, Erythritol, Sorbitol, Xylitol, Antibiotics (drugs), Pasteurization, Chemicals, Isolates, Herbicides, Pesticides, rBST and rBGH, Xanthum Gum, Salicilates, Sorbic Acid, Sodium Borate, Sodium Benzoate, Potassium Sorbate, Hexane, Fish, Fish Oil, Cholesterol, Fat, Binders, Fillers, Coatings, Excipients and Flow Agents.

All intraLINE 2.0 Products Share the Same Drucker Labs Quality and Technology:

“ I TAKE IT MYSELF AND FEEL THAT IT PROVIDES A GREAT BASIS FOR OVERALL WELL-BEING.”

DR. C. MONAHAN, DC

MEDICAL PROFESSIONAL COMMUNITIES THAT USE AND ENDORSE DRUCKER LABS' PRODUCTS

All Drucker Labs' products are made for and sold exclusively to Licensed Health Care Professionals. For over 20 years, Healthcare professionals around the world, and from all levels of expertise have recommend Drucker Labs' products to their patients for its prophylactic (preventative) and curative results.

Some of our healthcare professionals include:

- Chiropractors (DC)
- Oncologists (MD)
- Medical Doctors (MD)
- Rehabilitation Physicians (MD)
- Naturopathic Doctors (ND)
- Doctors of Osteopathy (DO)
- Holistic Dentists (DDS)

Customer Ratings On Amazon
And Other Distribution Channels

intraMIN ratings and scores are very high on Amazon. Our overall scores are in the 4.7 to 4.9 range.

Amazon shows a growing number of reviews (over 100 reviews)

DL ratings and scores on Distributors' websites and social media are also very high.

Our Distributors' websites are also showing A+ ratings in the 4.8 to 5.0 range

All Natural Tropical Fruit

Naturally Unflavored

WHY DR. DRUCKER CREATED intraMIN

THE NEURO-ELECTRICAL “SPARK-OF-LIFE”

The problem with our present day quality of food

In Brief: Most, if not all Americans are deficient in Organic minerals because modern “economic-based” farming techniques have destroyed and depleted the topsoil and hence what grows in our soil. These Organically-complexed minerals were carried from the first 18 inches to 36 inches of topsoil into our food supply by way of a substance called fulvic acid (a derivative of humic acid). However, In the 1930's farmers stopped rotating crops, and started adding chemical fertilizers to increase crop volume. But the crops without these Organically-complexed minerals were “hollow” of nutritional value, and worse laced with chemicals. This has radically affected our health on a global level.

In More Detail: Before the 1930's, farmers were taught to rotate their crops to ensure the critical “life-sustaining” Organic trace minerals that were present in the soils were not consumed. After the 1930's, “Bio-agricultural” farming was replaced with “Economic-based” farming. Over time, the pressure on farmers to maximize crop yield led farmers to stop rotating their crops. The result is our food supplies became void of critical Organic-complexes and minerals. In addition, chemical companies were created and introduced to the farmers thereby adding a further dimension of insult to the food supply. These chemicals are known as herbicides and pesticides. The chemicals only add to the level of toxicity in our food supply. There is no scientific rationale for this other than financial and economic gain.

Over thousands of years the topsoil's became saturated with these Organic-complexes. After years of research and study, we now understand that these Organically-complexed minerals are critical to life, health, healing, detoxification, growth, development, intra-cellular energy formation, production and metabolic utilization. The list is long and distinguished. They are critical to virtually every life function in our body. They cannot be replaced nor synthesized by our bodies nor made in a lab.

OVER A MONTH OF COMPLETE NUTRITION IN A BOTTLE

THE SOLUTION

intraMIN - supplement your diet with a superior quality (and variety) of 100% Organically-complexed minerals

In Brief: Our bodies require Organic trace minerals to transport vitamins and nutrients into our cells. Without them, cells do not detoxify nor do they function properly, the immune system weakens, the nervous system deteriorates, and aging accelerates. intraMIN provides a full range of **35+** - 100% Organically-bound, plant-derived essential minerals that your body needs to function neuro-electrically, metabolically, physiologically, immunologically, and neurologically as it was intended.

intraMIN is a product with, 20+ years of research and development, and is the base of All Drucker Labs' products. It is the most effective and the only 100% Organically-bound trace mineral supplement available. With 35+ Trace Minerals, including Calcium, Magnesium, Manganese, Zinc and much more. intraMIN helps you meet your nutritional needs in an All-natural great-tasting liquid supplement. It also provides natural Carbon, and Oxygen. intraMIN contains 20+ naturally occurring electrolytes to support All the vital neuro-electrical processes in your body.

In more detail: intraMIN has the ability to "activate" and "carry" nutrients into the bloodstream. intraMIN is the Organically-bound component that "carries" and "activates" nutrients into the blood stream and thus into the cells of our body. intraMIN is made up of the same "living" organic material that our cells are made up, allowing for immediate cellular bio-availability, uptake and utilization. It is a powerful "carrier" and will carry essential nutrients inside the cells of our body. intraMIN "potentiates" nutrients and creates energy "inside the cell" as well as initiates healthy cellular replication. It is a powerful "catalyst". Moreover, it is a strong "Neuro-electrical catalyst". It is the cellular "Spark Of Life." [It is equated to the "spark-plug" in an automobile that creates the combustion inside the cylinder head generating horsepower.] It is the Organically-bound component that produces Adenosine Tri-phosphate known as "ATP" inside the cells of our body. **intraMIN potentiates the energy of the cell.** It potentiates, creates, and sustains intra-cellular energy throughout the body. There is nothing else like it.

intraMIN is a true 100% Organically-bound, liquid, full-spectrum, plant-derived mineral supplement. Due to Drucker Labs' proprietary Carbon-bond Technology, intraMIN is rapidly infused and absorbed. intraMIN provides direct cellular infusion of dozens of Organically-bound trace minerals that are essential for energy production, good health, strength, stamina, brain function, memory, digestion, strong bones, endocrine system balance, hormonal balance, organ strength and more. As such, **intraMIN drives intraMAX 2.0 (or intraKID 2.0) into the cell at a rapid rate for immediate bio-availability and utilization. It can be combined with either (intraMAX 2.0 or intraKID 2.0) for optimal results.**

Each 32-ounce bottle lasts 32 days when used as directed. intraMIN comes in two versions: All-natural Tropical Fruit flavor (32 oz and 2 oz); and Naturally Unflavored (32 oz) – for those chemically sensitive patients or for those that wish to avoid flavor and/or sugar(s) of any kind.

Bundle intraMIN® with intraMAX® (or intraKID®) for INFINITE results

intraMIN ENHANCES intraMAX (or intraKID) to
Maximize your Energy and Cellular "Spark-of-Life"

intraMIN

FULL SPECTRUM TRACE MINERALS

**100% Carbon-bonded Trace Minerals
(Plant-derived and Microcomplexed®)**

20+ Electrolytes (100% Carbon-bound)

THE HEALTH BENEFITS OF intraMIN

Cellular Energy Production, Bio-availability, Utilization, and Healthy Cellular Replication

intraMIN is the "Spark-of-Life" intraMIN is the neuro-electrical catalyst inside the cell that creates a spark to produce cellular energy. It is an essential component helping each cell to detoxify and naturally replicate in a healthy state.

Total Health and Neurological Support: Every tissue and process in your body needs Organically-bound minerals. Without adequate minerals, your health and wellness will deteriorate quickly. Consistently getting the right nutrition helps maintain your health and overall wellness.

Spray Directly On The Skin For Anti-aging Benefits (Anti-oxidation Catalyzation): intraMIN has amazing free radical scavenger abilities. When sprayed directly on the skin (especially before bed), it will tone and tighten the skin as well as any of the top anti-aging creams (or technologies) on the market. It can be sprayed on scars and the scalp as well. It is truly wonderful for the skin.

All-In-One 100% Organically-bound Trace Mineral Formula: There are 16 essential minerals and dozens of important trace minerals. Getting them individually could mean a handful of pills. intraMIN provides them all in one easy to swallow formula.

Supports Healthy Fluid Balance, Energy Production, Hormone Balance, Detoxification, And More: intraMIN is a great source of 100% Organically-bound and naturally occurring electrolytes. Electrolytes are electrically charged minerals that perform many important functions in our body, including promoting optimal fluid balance for maximum healing, hormone balance, detoxification as well as your over-all energy, strength and stamina.

THE TOP 5 REASONS YOU NEED intraMIN

Promotes Energy, Strength, Stamina, Joint Mobility and Neurological Health:

It is the source of cellular energy and the body's ability to create (and sustain) energy, strength and stamina. Low Potassium, Calcium, or Magnesium can cause joint soreness, limit range of motion and cause numerous neurological imbalances/dysfunctions.

Supports Healthy Skin, Teeth and Bones:

intraMIN provides Phosphorous, Calcium, Magnesium, Boron and other key minerals that help to heal the skin as well as strengthen teeth and bones.

Boosts The Immune System and Balances Hormones:

intraMIN provides Zinc, Selenium, Magnesium, Manganese and much more – just a few of the minerals that aid and strengthen the immune system and balance the hormones of the body.

Easy for Your Body to Use:

intraMIN is bio-available due to Drucker Labs Proprietary Carbon-bond Technology for Rapid Infusion and Maximum Absorption.

Gentle on Your Body:

intraMIN is gentle enough for the most Chemically Sensitive patients.

TIP

FOR OPTIMAL RESULTS: Combine intraMIN with intraMAX (or intraKID) daily. intraMIN will "carry" (drive) intraMAX (or intraKID) into the cells and increase efficacy of both products.

TESTIMONIALS

WHAT OUR DOCTORS AND PATIENTS ARE SAYING ABOUT intraMIN

"January, I was injured when by out of control skier who hit me from behind while I was at the Park City Ski Resort. As a result, I had chronic pain in my right hip and shoulder. I did chiropractic, acupuncture and massage for 2 years with no complete resolution of symptoms. In May, I added intraMIN into to my nutrition protocol and within 3 days my body aches and pains were gone! Incredible - just do it!!"

Dr. Cindy

"I have been having hot flashes for 2 years and tried everything. Then I found intraMIN. It took care of all my hot flashes in 2 days! Thanks so much!!"

J. Eakes

"Last October, I was in the Hospital on a ventilator with COVID. I had alopecia in the hospital. I lost 90% of my hair. My friend Tracy gave me a bottle of intraMIN. For the 1st month, I took 1 oz. twice a day then backed off to 1 oz. per day. Now, I have a full head of hair!" She was so excited and sold me on the intraMIN! "My friend ordered a case for my practice, but I want my own account, so I went online and registered. I look forward to getting the Welcome Kit!"

K. Severin

"I've read and researched intraMIN and compared it to so many others, and my verdict is extremely high quality! I have only been using it for a few weeks, and when I take it, it takes away my craving for coffee, because I feel it gives me energy almost instantly!"

Violet

"I want to start by thanking the company of Drucker Labs and all that are making this operation possible, for getting me through a very tough year. I am a fairly new customer, but have truly LOVED every drop of the products and I will continue to stand by it. Not only has intraMIN and intraMAX cut down on the amount of colds I get, but it has also saved me a lot of money as I tried to combine all the nutrients and vitamins that I thought I needed. I have told all of my friends, family, and co-workers about Drucker Labs and shared the travel size samples and pamphlets. I even have asked for the product for my birthday and as a Christmas gift. Customer service has been tremendous; I feel important and needed, and because of which, I felt like part of the family. I absolutely beam when I am called, "Nurse Audrey"; this makes these products even more special. These are truly one-of-a-kind products and you have made a forever customer! Best wishes,"

A. Davis

"I can't express how thrilled I have been with the results of my intraMIN/intraMAX program. Before I started taking these supplements three months ago, I had to take at least one anti-depressant per day for chronic anxiety and panic attacks. Within 10 days of starting intraMIN and intraMAX my panic attacks completely disappeared. I haven't had to take a Lorazepam tablet for anxiety in over two months. Thank you SO MUCH Drucker Labs for providing these life changing products to the public."

J. Kozlowski

"I never give reviews on anything, however I have been taking intraMIN for over a month now and all I can say is WOW! I have a ton of energy I am my old happy self again. I decided to give this a try due to Adrenal fatigue. I had heard that trace minerals could be an issue. My husband and son are both amazed at the huge shift I have made. Again, I NEVER give reviews on anything. But, when I have had this amazing of an experience I knew that someone out there with Adrenal fatigue will appreciate my review. I hope this helps someone else like myself out there. It is worth every penny!"

Christy

"I know I needed more minerals in my diet, but had no idea I would feel such a difference in the function of my body. Great product! I only wish I had purchased it much earlier!"

Penelope

"intraMIN is amazing! I have been a health enthusiast for over 15 years and I have tried a lot of products but intraMIN is at the top of the pile. Along with intraMAX, I use intraMIN to establish a baseline of health by getting key minerals in and toxins out. intraMIN is fantastic for binding toxins and carrying them out of the cell and then getting nutrients in. Love it. And, I have shared intraMIN and intraMAX with many friends and they all love them."

Dr. E.

"I have used intraMIN for several years. It's a great product!!"

intraMIN[®]
Activator / Catalyst / Carrier

FULL SPECTRUM TRACE MINERALS

100% Carbon-bonded Trace Minerals
(Plant-derived and Microcomplexed[®])

20+ Electrolytes (100% Carbon-bound)

intraMIN[®] from Drucker Labs

intraMIN is a 100% Organically-bound comprehensive trace mineral supplement that fits perfectly into any wellness or workout plan.

Complete liquid nutrition.

intraMIN provides Carbon-bound trace minerals and naturally-occurring electrolytes that nutritionally support many of the body's processes, including the endocrine, brain, and nervous system functions. intraMIN also provides Neuro-electrical catalysts that initiate maximum intracellular utilization of Adenosine Triphosphate (ATP).

Easy-to-take.

Getting off to a healthy start each day has never been more convenient! Just a one-ounce daily serving of intraMIN is all it takes to provide your body with maximum energy all day.

Healthy organ support.

A perfect complement to our popular

intraMAX^{2.0}, intraMIN provides supplementary minerals for those that may need additional immune system and muscle function support. In addition, intraMIN also serves as an excellent natural energy source for pre and post workouts.

Best of both worlds.

Available in tropical fruit and unflavored formulas, intraMIN has the right ingredients to fit into any healthy regimen.

Winning results.

Your body will appreciate the gentle benefits and results of starting with intraMIN. It is Vegan, Gluten Free, and Hypo-allergenic, making it easy to assimilate

and gentle enough for those who are environmentally and chemically sensitive (MCS/EI).

intraMIN[®]

- ✓ Complete Organically-bound Trace Minerals
- ✓ Neuro - Electrical Catalysts
- ✓ Natural Energy and Electrolytes
- ✓ One-ounce Daily Dose
- ✓ Available in Unflavored and Great-tasting Tropical Fruit Formulas

DRUCKER LABS’ “FLAGSHIP PRODUCT”

**415+ NUTRIENTS ALL-IN-ONE OUNCE BEYOND
ANY OTHER LIQUID NUTRACEUTICAL/ MULTIVITAMIN**

The Problem with our Quality of Food and Synthetic Multivitamins and how intraMAX Helps to Solve it

In brief we are deficient: Most, if not all Americans are deficient in the daily required vitamins and nutrients for health and well-being. This is mainly due to the following:

As discussed earlier modern “economic-based” farming techniques have destroyed and depleted the topsoil and hence what grows in our soil. It is understood that with the depletion of topsoil the natural synergistic process of nutrients that would naturally transfer from the Organically-complexed (enriched) topsoil to the crops has been compromised and, therefore, the entire food chain has been negatively impacted.

In brief we have toxicity: In the 1930’s, farmers started spraying (adding) toxic chemical fertilizers and other chemicals known as herbicides and pesticides to their crops. Decades later, it is now understood that these toxic chemicals have had a negative effect on health and well-being. The chemicals have added to the level of toxicity in our food supply and in our bodies.

In brief most multivitamin create toxins: In approximately the 1940’s, “synthetic chemical nutrients” also known as “shelf vitamins” made their way into stores across America. Unfortunately, these “shelf vitamins” are not made from natural ingredients. Rather, they are made from synthetic chemicals. It is now widely recognized that adding “synthetic chemical nutrients” to the body has intoxicated our bodies with synthetic nutrition that

the body can not recognize nor utilize. Research has proven these toxins are stored in our bodies in extra-cellular space, interstitial fluid and fatty tissues reaping havoc on our immune system, neuro-cognition and organs.

FLAGSHIP PRODUCT - intraMAX CONT'D

THE SOLUTION

Supplement our Diet with a Superior Quality (and variety) of 100% Organically Complexed Vitamins, Anti-oxidants, and other Nutrients: Hence, after 20+ years of Research and fine tuning, Drucker Labs has Created intraMAX 2.0.

The Solution: Supplement our diet with a superior quality (and variety) of 100% Organically-complexed vitamins, antioxidants, and other nutrients: Hence, after 20+ years of research and fine tuning, Drucker Labs has created intraMAX 2.0.

Our bodies require Organically-bound vitamins and other nutrients for our cellular health and well-being. Without these nutrients our cells do not detoxify nor do they function properly, the immune system weakens, the nervous system deteriorates, and aging accelerates.

intraMAX 2.0 provides a full range of 100% Organically-bound nutrients with Optimal Daily Amounts of over **415+** essential nutrients that our bodies needs to function neuro-electrically, metabolically, physiologically, immunologically, and neurologically as it was intended. intraMAX 2.0 is an All-In-One, 100% Organically-bound liquid vitamin and mineral supplement.

There are 2 versions of intraMAX 2.0, an All-natural peach/mango flavor and an unsweetened version. The unsweetened version was designed for those patients who are watching their carbohydrate intake (such as diabetics, KETO diets, and those patients who are sensitive to sugars or sweets).

intraMAX 2.0 is a highly bio-available state-of-the-art Organically-bound liquid formula, that provides all the essential nutrients to enhance total health and overall wellness.

100% ORGANICALLY-BOUND intraMAX 2.0 CONTAINS OPTIMAL DAILY AMOUNTS OF NATURAL SUPERFOOD NUTRIENTS, VITAMINS, MINERALS AND MORE

35+ Organic Trace Minerals (full spectrum, plant derived)
All-natural peach/mango flavor (also in Unsweetened)
Naturally rich in Carbon, Oxygen and Fulvic acid

THE TOP 5 REASONS YOU NEED intraMAX

1 Support the Immune System and the Muscular Skeletal System

A complete formula like intraMAX 2.0 provides the nutrition needed to support the immune system.

2 Support Brain, Neurological and Endocrine Health

Proper nutrition is essential for normal cognitive functions, including focus, memory, as well as Neurological health, Metabolic and Endocrine balance and much more.

3 Fills the Gaps In Your Diet

Do you get enough Zinc or Magnesium in your food? How about manganese? With intraMAX 2.0, there's no guessing and no gaps in your diet.

4 Highly Absorbable Formula with Rapid Infusion and Maximum Absorption

intraMAX 2.0 is a liquid formula enhanced with proprietary Carbon-bond Technology for rapid infusion, maximum absorption, bio-availability and utilization at the cellular level for maximum, energy, strength, stamina and well-being.

5 Strengthen Your Gut, Gentle On Your Stomach And Tastes Great

intraMAX 2.0 is gentle and won't upset your stomach. The All-natural peach-mango flavor or the new unsweetened version both go down easy. Your microbiota is an important part of the digestive process and helps your body break down and absorb the nutrients in your food.

TIP

FOR OPTIMAL RESULTS: Combine intraMIN with intraMAX daily. intraMIN will "carry" (drive) the intraMAX into the cells and increase the efficacy of intraMAX 2.0.

THE HEALTH BENEFITS OF intraMAX

HEALTH BENEFITS

intraMAX 2.0 is an incredible source of **415+**, 100% Organically-bound essential nutrients. All you need to get healthy and stay healthy.

All-In-One ounce, 100% Organically-bound, All-natural complete liquid formula with proprietary Carbon-bond Technology for rapid infusion and maximum absorption at the cellular level.

intraMAX 2.0 provides a complete array of **415+** Organically-bound essential vitamins, minerals, fruits, vegetables, enzymes, antioxidants, prebiotics, and more in balanced, measured, and optimized ratios.

intraMAX 2.0 is "cold-filtered" and "cold-filled" for maximum effectiveness and integrity of all nutrients.

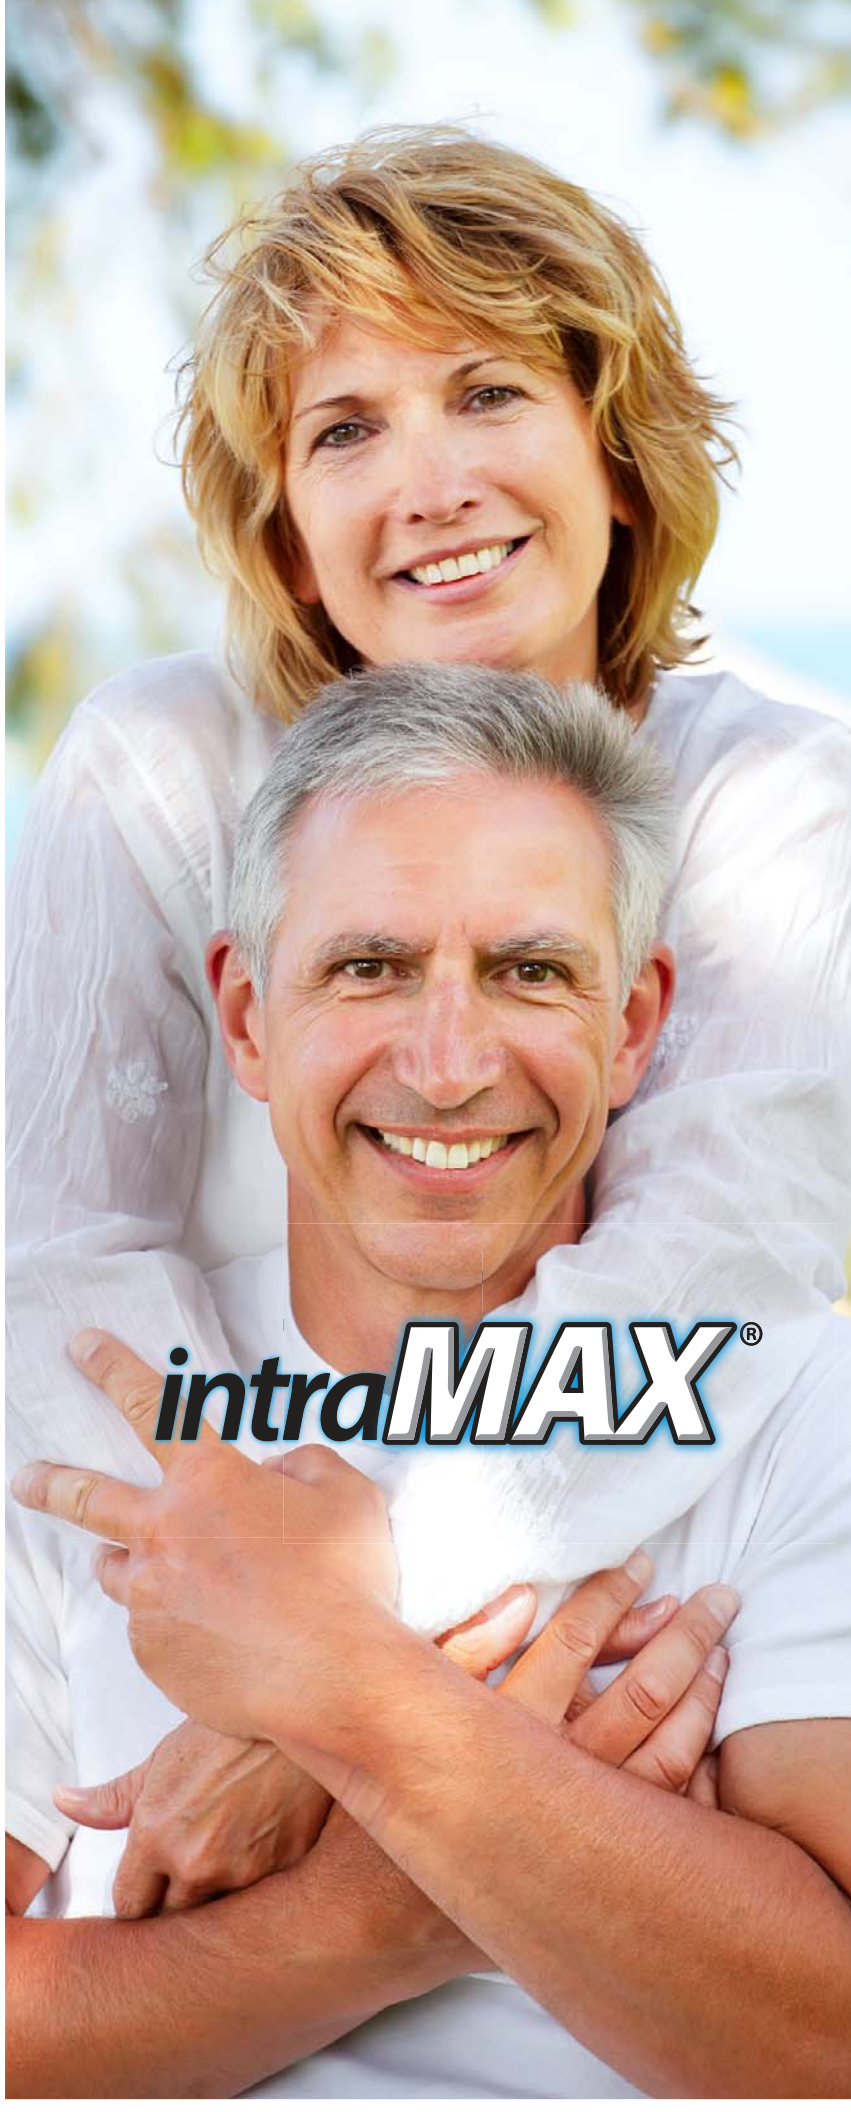

intraMAX 2.0 is naturally preserved with intraFRESH Technology (No chemical preservatives).

Promotes Total Wellness - Good nutrition is the foundation of health and wellness. If you don't get the essentials, you can't be your best. intraMAX 2.0 provides everything you need to support your health from head to toe.

Natural Energy Production - Your energy levels depend upon a number of factors in your body — red blood cell count, oxygen utilization, metabolic health, etc. — and all of them are supported by proper nutrition.

THERMAL IMAGE SCAN

Before and After Taking intraMAX

Below is an example of thermal imaging pictures of an individual before and after taking intraMAX. The individual shows notable differences (within 18 seconds) in blood flow, circulation, and in increased internal body heat showing improved systemic circulation. These images were taken by an independent 3rd party.

intraMAX 2.0 Has Excellent Customer Ratings On Amazon And Other Distribution Channels

Our Amazon ratings and scores are very high. Our overall scores are in the 4.7 to 4.9 range. Amazon shows a high number of reviews (over 1,000 reviews and growing)

Our ratings and scores on Distributors' websites and social media are also very high. Our Distributors' websites are also showing A+ ratings in the 4.7 to 5.0 range

TESTIMONIALS

WHAT OUR DOCTORS AND PATIENTS ARE SAYING ABOUT intraMAX

"I have had MS for years. Nothing has really helped until I tried product. I will never stop using intraMAX 2.0 and feel it may one day save my life. Thanks, Drucker Labs!"

C. West, Patient

"I looked everywhere for a nutritional supplement that would meet my high standards and, with intraMAX 2.0, I found it! I've shared my enthusiasm for with my patients and now it practically sells itself!"

Dr. S. Jensen, MD

"Some of you know that my wife drove up to N.J. a couple of day ago to be with her 96 year old grandmother who may be close to passing away. If she does, I'll be flying up to attend the service.

However, while she was there, she had a chance to see the remarkable improvement in her 96 year old grandfather who started back on intraMAX after a month hiatus to see if that's what was making him better. She said that his thinking is better, he's not using his walker anymore and can shower by himself (which he could not before) and is even thinking of moving out of the hospital room and back into a lower dependency area. He is convinced it's the intraMAX that has helped him improve so much (I've been writing to the doctors there).

Also, I gave intraMax as Christmas gifts to my sister-in-law and my parents-in-law. They are now regular customers and are thrilled with the very noticeable improvements in the way they feel!"

Dr. Roth, DC

"My doctor recommended this product (intraMAX 2.0) and after only a short time I could really feel the difference in how I felt. Thanks to Drucker Labs for changing my life!"

J. Wilson, Patient

"I have both elderly and young patients who can't swallow pills, so intraMAX 2.0 is ideal for them. It's the most complete nutritional supplement I've been able to find on the market and I'm extremely impressed with its absorption and bio-availability. I take every day myself!"

Dr. J. Rogers, DC

"intraMAX 2.0 is by far the best nutritional supplement on the market! Because nutrition is integral for the best outcomes, I recommend it for ALL my patients. I take it myself and feel that it provides a great basis for overall well-being."

Dr. C. Monahan, DC

"I am very impressed with the quality and incredible research that has gone into the intraLINE 2.0 products. I use intraMAX 2.0 for all my patients as well as for myself, and I will keep do so. Dr. Drucker has produced a proven winner!"

Dr. J. Schwartz, ND

"Since I have been supplementing my diet with intraMAX, I have experienced better mood, good energy and better sleep. I am just coming off a detoxification program but I noticed that same night after taking intraMAX that my sleep was tremendously restful and continues. I am grateful!"

Dr. S. LeMond

"Hello Drucker Labs, I just wanted to let you know about Bill's health check up today. His cholesterol 93; blood pressure 124/76; pulse 83. The only medicine he takes now is for acid reflux, the rest is intraMAX. Those are great numbers for a 70 year old, once again it's thanks to intraMAX."

Jeff, TX

"Thank you so much for making a wonderful product. My 15-year-old daughter and I look forward to taking it every morning. Sincerely yours,"

T. Merone, Patient

"My Chiropractor introduced me to intraMAX 2.0. I am 46 and have had severe psoriasis on 90% of my scalp, in my ears, on my forehead and started getting patches on my back. My Dermatologist had me on steroid creams, lotions, and shots for over 25 years. I didn't know better. After only one bottle of intraMAX, my psoriasis is just about gone. AMAZING. I don't usually use the word miracle but in this case I am.

"Drucker Labs is such a blessing during the pandemic. I depend on intraMAX 2.0 to get me through my teaching day and it hasn't let me down! I feel immensely more energized, healthy, focused and calm with intraMAX 2.0."

C. Eastin, Patient

"Yesterday when I went for my eye examination, I could not believe it! I immediately thought the worse until my doctor told me my eye pressure was DOWN to the level it was in 2003. That is a miracle, the ONLY thing that I changed was taking intraMAX everyday. It's a true miracle"

B. Jordan

"After taking the intraMax for only a few days, along with the changes I implemented in my diet, I noticed a change in how I felt. I had more energy to accomplish every day tasks. I FELT GOOD. But the best reward was that I MENTALLY felt good. After a few weeks I felt so good that I decided to take myself off the several anti depressants I had been taking for the past ten years. I no longer needed the chemical crutch to make me feel better when a proper diet, plenty of fluids and nutrients and exercise do that naturally. Thanks Anabel," your patient.

Karen

BREAKING NEWS

intraMAX 2.0 LIGHTS A 1,000-WATT LIGHT BULB TO 1,000 WATTS

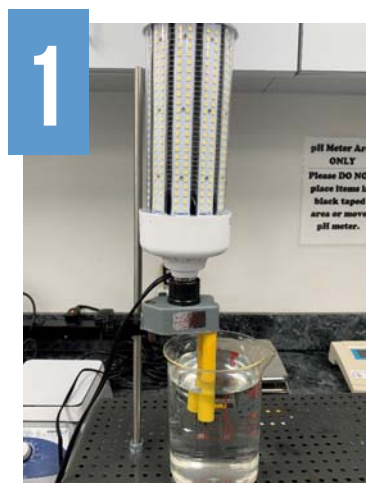

Pictures 1, 2, 3, and 4 (below and to your right) represent and demonstrate the electrolytic functionality of intraMAX 2.0, and intraKID 2.0 as follows:

From a scientific perspective, we began by taking a 60-Watt light bulb and plugging it into the wall. We then inserted two leads into the solution to be tested to check for the presence of electrolysis. When tap water was poured into a beaker there was no electrolysis conducted. The light bulb did not flicker or light. (See image 1 to your right.)

In contrast, we were excited to see that intraMAX 2.0 lit the bulb to a full 60 watts. This confirmed the presence of natural Organically-bound electrolytes in Drucker Labs' intraLINE 2.0 products. We kept going by increasing the watts. We tried a 250 watt light bulb and even a 1,000 watt bulb. **As you can see from pictures 3 and 4 to the right, intraMAX 2.0, intraKID 2.0 fully lit up the 1,000 watt light bulb to a full 1,000 watts.**

Summary: Our bodies need intra-cellular electrolysis (a "catalyst") to convert nutrients inside our cells into energy ("ATP"- which is also known as cellular horsepower). This experiment demonstrates that DL products have an unmatched natural presence of 100% Organically-bound electrolytes and a resulting neuro-electrical circuit/current ("spark plug") affect which is critical for natural intra-cellular energy production. intraLINE 2.0 products are BEYOND the competition because they naturally illuminate (energize) our cells promoting and sustaining maximum energy, strength and stamina.

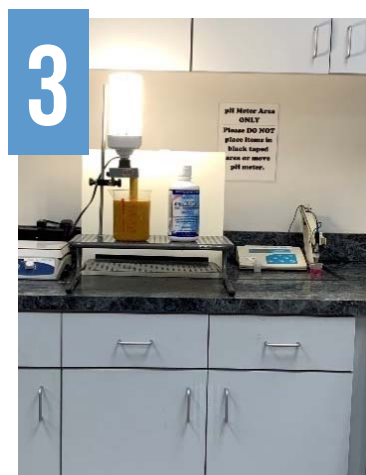

Note that the competition's products all contain **sodium** benzoate (a chemical preservative). Due to the presence of **sodium** benzoate, the light would flicker and/or illuminate lightly. **The key to the experiment:** There is no (zero) sodium (of any kind) in intraMAX 2.0 or any DL product(s). Our products illuminated the light bulbs without the use of **sodium** illustrating the presence of numerous 100% Organically-bound electrolytes contained within Drucker Labs proprietary Carbon-bond Technology.

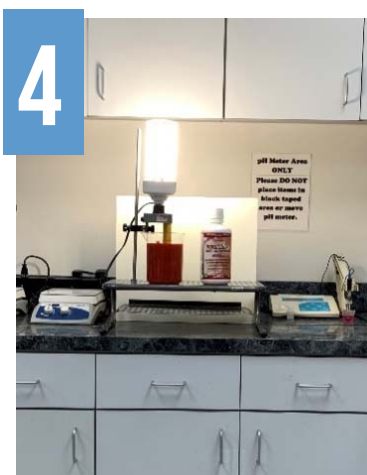

Water does *not* light the bulb

intraMAX 2.0 lights a 100 Watt Bulb to a full 100 Watts

intraMAX 2.0 lights a 1,000 Watt Bulb to a full 1,000 Watts

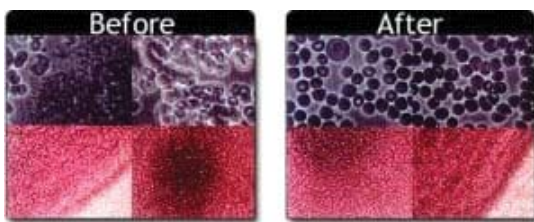

intraKID 2.0 lights a 1,000 Watt Bulb to a full 1,000 Watts

intraMAX CONTINUED

As Seen Under A Dark Field Microscope - Before Taking intraMAX Blood Analysis versus A Post intraMAX Blood Analysis

The pictures below represent the change in seconds after taking 1 oz. of intraMAX. In the "After" picture there is considerably less clumping of the blood cells and a more uniform, healthy blood flow, and consistency.

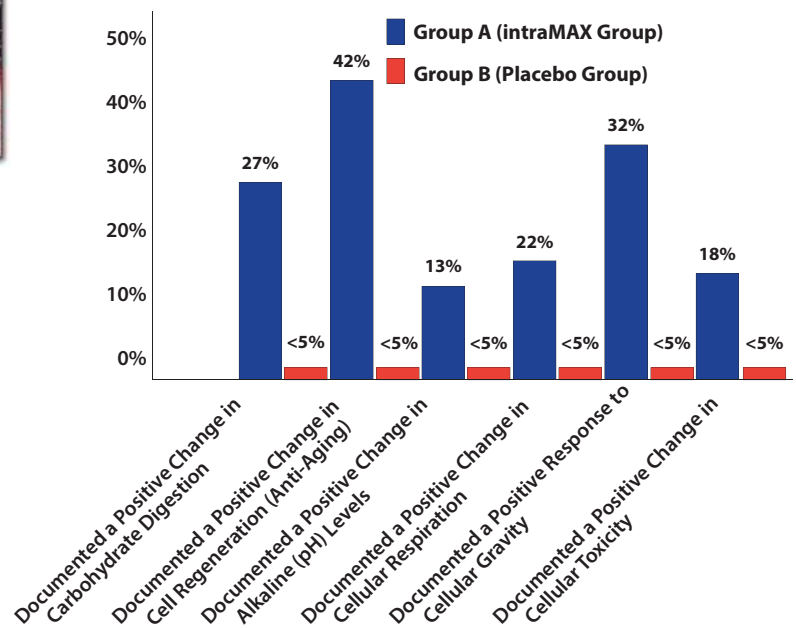

HUMAN CLINICAL TRIAL

Evaluating the Efficacy of intraMAX

In this randomized, gold-standard, double-blind placebo-controlled study, intraMAX was shown to be a highly effective (efficacious) means of improving one's nutritional markers while helping to maintain and improve intra-cellular systems and functions.

Details of the efficacy results supported by the clinical study findings on intraMAX can be grouped into the four areas: energy, intra-cellular function, detoxification and optimal wellness:

"intraMAX 2.0 IS BY FAR THE BEST NUTRITIONAL SUPPLEMENT ON THE MARKET! BECAUSE NUTRITION IS INTEGRAL FOR THE BEST OUTCOMES, I RECOMMEND IT FOR ALL MY PATIENTS. I TAKE IT MYSELF AND FEEL THAT IT PROVIDES A GREAT BASIS FOR OVERALL WELL-BEING."

DR. C. MONAHAN, DC

intraMAX^{2.0} from Drucker Labs

Your first-line Immune defense

intraMAX 2.0 is a 100% Organically-bound all-in-one complete nutritional supplement that is key for strong immune support and overall health.

Complete immune nutrition.

intraMAX 2.0 provides over **415** essential nutrients for Optimal Immune Function including Vitamins A, C, D and E, Zinc, Selenium, Astragalus, L-Lysine, Echinacea, Elderberry, L-Glutathione, Beta-Glucan, Olive Leaf, Cat's Claw, Turmeric, Chlorella, Pau D'Arco, and more!

Easy-to-take.

Getting off to a healthy start each day has never been more convenient. Just a one-ounce daily serving of intraMAX 2.0 provides your body with maximum energy, strength and stamina all day.

Healthy immune and organ support.

The unique ingredient blends in

intraMAX 2.0 not only support the body's ability to release harmful substances; they also provide support for a wide range of organ systems and functions which include: endocrine (stress management) and hormone; blood, cellular, and circulatory; immune; neurological function; skin, bone, skeletal, muscle, and joint; cognitive and brain clarity

Great-tasting.

You will love the taste of the all-natural peach mango flavor, making it easy to maintain your daily nutritional regimen.

MAXimum benefits.

In addition to the current health benefits of having a Vegetarian, Gluten Free and Hypo-allergenic formula, intraMAX 2.0 also includes Methylated B-Vitamins (B9 and B12), is non-GMO, and is naturally preserved with **intraFRESH** technology.

intraMAX^{2.0}

THE HEALTH BENEFITS OF intraKID

HEALTH BENEFITS

intraKID 2.0 ensures your kids get the nutrition they need to grow and be healthy

- ✓ All-In-One ounce, 100% Organically-bound and All-natural formula with proprietary Carbon-bond Technology for rapid infusion and maximum absorption at the cellular level.
- ✓ intraKID 2.0 contains **215+** Organically-bound essential vitamins, minerals antioxidants, omega fatty acids, amino acids, prebiotics and much more in balanced, measured, and optimized ratios. And, kids love the delicious All-natural fruity raspberry flavor.
- ✓ Complete Nutrition - Formulated specifically for kids. No need to worry that your kids picky eating habits are keeping them from getting the nutrients they need. intraKID 2.0 can fill the gaps in your child's diet for consistent nutrition.
- ✓ Overall support for your kids health and growth. Vitamins, minerals, and other essential nutrients are necessary for proper growth and development. intraKID 2.0 is a complete nutritional formula that provides it ALL to help kids grow strong and healthy.
- ✓ intraKID 2.0 is "cold-filtered" and "cold-filled" for maximum effectiveness of ALL nutrients
- ✓ intraKID 2.0 is naturally preserved with intra-FRESH Technology (No chemical preservatives)

intraKID 2.0 Has Excellent Customer Ratings On Amazon And Other Distribution Channels

Our Amazon ratings and scores are very high as well as our ratings and scores on Distributor's websites and social media are also very high. Our overall scores are in the 4.7 to 4.9 range. Amazon's number of reviews is growing.

Our Distributor's websites are also showing A+ ratings in the 4.7 to 5.0 range.

"My son has trouble focusing and has a poor diet he is a picky eater so I decided to Give this product a try I have seen a difference in behavior and focus I would definitely recommend this product."

Sonia C.

THE TOP 5 REASONS YOU NEED intraKID 2.0

1 GENTLE ON THE STOMACH

intraKID 2.0 won't upset sensitive stomachs, and it's formulated with prebiotics to support digestive health.

2 SUPPORTS THE IMMUNE SYSTEM

The nutrients and prebiotics in intraKID 2.0 work together to give the immune system an over-all boost to fight off viruses, infection and more.

3 PROMOTES HEALTHY GROWTH AND BONE DEVELOPMENT

intraKID 2.0 is a great source of ALL the vitamins and minerals kids need to grow and develop healthy and strong.

4 COGNITIVE DEVELOPMENT

intraKID 2.0 offers the best nutritional support to ensure healthy brain function and neuro-cognitive brain and memory development.

5 PARENTAL PEACE OF MIND

Parents feel comfortable knowing that intraKID 2.0 is formulated to help your kids meet their nutritional needs.

TIP

FOR OPTIMAL RESULTS: Combine intraMIN with intraKID daily. intraMIN will "carry" (drive) the intraKID into the cells and increase the efficacy of intraKID 2.0.

BEST VITAMIN, MY DAUGHTER LOVES IT AND I LOVE THE INGREDIENTS. WIN WIN!"

ANGELA F.

Complete and Optimal Daily Liquid Nutrition for Kids, **ALL-IN-ONE OUNCE** 215 Organically-bound Nutrients

TESTIMONIALS

WHAT OUR DOCTORS AND PATIENTS ARE SAYING ABOUT intraKID

"After one month on intraKID the 2-year-old that I am working with that has brain cancer since 10 months old got his mobility back. The medical Doctors after surgery, chemo, and tumor regrowth said they could do nothing further for the child. So yes, we are all excited to see him sitting up and using a few new words in his vocabulary. He has a ways to go but with the intraKID and some other holistic methods, he is on an up-turn. Thank you!!"

Vallery in PA

"My son has trouble focusing and has a poor diet he is a picky eater so I decided to Give this product a try I have seen a difference in behavior and focus I would definitely recommend this product."

Sonia C.

"Several weeks ago we had a retail customer, Susan, call us most upset for her daughter, Rebecca, was competing in figure skate competitions in Grapevine, TX and they had not packed their intraKID. They were driving from Houston and wanted to come by and pick up some intraKID. We had a courier deliver intraKID to their hotel in Grapevine.

Rebecca had four events over four days and was a finalist in all four events. She won 1 Gold and 2 Slivers and placed best in competition in the other. Susan definitely contributes intraKID for giving Rebecca the EDGE that she needed in this grueling competition!"

DL Customer Service Team

"My Daughter was not growing as much as she should even though she eats very well. It was like overnight that she grew. I have recommended this product to others, and they have said the same thing."

Brian B.

"Excellent product. I am continuing with it and will continue purchasing it. We have not experienced any adverse reactions and actually see a slow steady improvement in health while using IntraKID 2.0 Children's Liquid Vitamin."

Sunni

"Best vitamin, my daughter loves it and I love the ingredients. Win win!"

Angela F.

"This product was recommended by our pediatrician who is hyper-focused on nutrition, It is an indispensable part of our children's daily diet. They just gulp it down, no issues with taste. It gives me peace of mind as a safety net for their essential nutritional needs."

Linda S.

"Our granddaughter, McKenna, almost 5 months now, has been getting about a teaspoon of the intraKID 2.0 daily for some time. I don't remember if I told you, but - unless we get a miracle (which we are praying for) - she will have to undergo a procedure to put her left hip back into the socket on the 23rd of June. This will be done at Shriner's Hospital in Sacramento. The doctors there have been very nice, etc., but they called my daughter and told her that they wanted her to take McKenna off of all the vitamin supplements (her pediatrician has her on Vitamin D, 400 IU per day), for a MONTH prior to the procedure! Here's the kicker: they told her that they had never anesthetized a child that was on vitamin supplements before and they didn't want McKenna to be a "guinea pig".

Needless to say, we are flabbergasted at their obvious ignorance of anything to do with vitamin supplementation. We have no intention of taking her off of the vitamins (we are actually planning on upping the dose a little, now that she is bigger) and it puts us in the position of lying about it, which we don't want to do.

She is doing so well on the supplementation. She is so smart, alert and coordinated for her age. Everyone is amazed at her obvious intelligence. We can only credit the intraKID 2.0 and her mom's intraMAX 2.0 and extra Omega 3 supplementation all during pregnancy and nursing, for the wonderful results. God Bless!"

Dana

"Best vitamin, my daughter loves it and I love the ingredients. Win win!"

Angela F.

"This product was recommended by our pediatrician who is hyper-focused on nutrition, It is an indispensable part of our children's daily diet. They just gulp it down, no issues with taste. It gives me peace of mind as a safety net for their essential nutritional needs." Linda S.

I absolutely love this product and since giving it to my children they rarely become ill. This is a plus!!

Christine Q.

Introducing intraKID^{2.0}

Iron (as ferrous gluconate)	0.5 mg	3%
Iodine (as potassium iodide and kelp)	150 mcg	100%
Magnesium (as gluconate, alpha-ketoglutarate, citrate, malate, and taurinate)	62 mg	15%
Zinc (as gluconate, citrate, and L-methionine)	11 mg	100%
Selenium (as selenomethionine)	70 mcg	127%
Manganese (as manganese citrate)	2.3 mg	100%
Chromium (as chromium polynicotinate)	100 mcg	286%
Molybdenum (as sodium molybdate)	45 mcg	100%
Potassium (as citrate, aspartate, iodide, and ascorbate)	94 mg	2%
Choline (as choline bitartrate)	11 mcg	2%
Proprietary Carbon-bond Organic Elements and Nutrients Matrix: Organically-bound Carbon (living), Fulvic Acid and Trace Mineral Water Complex	25 g	†
Proprietary Immune and Wellness Support Matrices Natural Phyto Foods and Adaptogens - Natural Energy, Strength, and Stamina (ALL NUTRIENTS are 100% Organically-bound and Microcomplexed[™]):	135 mg (4,320 mg per bottle)	†
Essential Fatty Acids, Metabolic, Endocrine, Hormone, Oxygen, Cognition, and Cholesterol Matrix: Omega 3, 6, and 9 Essential Fatty Acids - Proprietary Blend (hexane free, no fish); [Omega 3 (alpha linolenic acid) and Omega 9 (oleic acid): flax seed oil (virgin cold-pressed), grape seed oil, and pumpkin seed oil; Omega 6 (linoleic acid and gamma linolenic acid): evening primrose seed oil (cold-pressed), black currant seed oil, hemp seed oil, red palm oil (virgin) (fruit), sesame seed oil, and sunflower seed oil]; Arabinogalactan (AG) (larch tree wood extract); Bioflavonoid Complex (natural); [with quercetin, grape seed extract, bilberry fruit extract, and bitter orange extract (peel and pulp)];		

CoEnzyme Q10 (CoQ10); Panax Ginseng (root); Grape Seed Extract; Grape Skin Extract; L-Glutathione (reduced); Lycopene; Noni Extract [(Morinda citrifolia) (fruit)]; PABA (para-aminobenzoic acid); Phytosterol Natural Plant Complex: (beta sitosterol, brassicasterol, campesterol, campestanol, sitostanol, and stigmasterol); R-Isomer Alpha Lipoic Acid (R-ALA); RNA (ribonucleic acid).

Immune System Strength, Development, and Response Matrix:
Wormwood [(Artemisia annua) (leaf and stem)]; Pau d'Arco (inner bark); Oregano Extract (leaf); Peppermint Extract (leaf).

Blood, Sinus, Neurological, Cellular, Circulatory and Gastrointestinal Health Matrix:
Barley Grass [(leaf) (gluten free)]; Burdock (root); Sheep Sorrel Extract (leaf and stem); Rhubarb (root); Yellow Dock (root); Beet Fiber (root); Milk Thistle Extract (seed); Apple Pectin (fiber); Ginger (root); Raspberry, Red Extract (fruit); Zeolites.

Fatigue, Respiratory, Brain Development and Neurological Health Matrix (with the essential sugars: Fucose, N-Acetylglucosamine, and N-Acetylgalactosamine):
Aloe Vera Extract (leaf gel); oat Grass [(leaf and stem) (gluten free)]; Chlorella (whole algae broken cell pyrenoidosa); Beta Glucan 1,3-1,4; Methylsulfonylmethane (MSM); Glucosamine Sulfate; Gotu Kola Extract (leaf and stem); Dulce (sea vegetable); Conjugated Linoleic Acid (CLA from safflower oil (seed), Cis-9, Trans-11 Isomer and Trans-10, Cis 12 Isomer); Olive Extract (leaf); Bee Propolis; Citric Acid; Echinacea Purpurea (leaf, stem and flower); Echinacea Angustifolia (root); Silver (Organically-bound, non-colloidal).
Essential Sugars: Galactose; Glucose (dextrose); D-Mannose; Xylose.

Amino Acid Matrix – "Building Blocks of Protein" (Skin, Bone, Skeletal, Muscle, Tendon, Ligament, and Joint Health Matrix):
Essential Amino Acids: L-Histidine; L-Isoleucine; L-Leucine; L-Lysine; L-Methionine; L-Phenylalanine; L-Threonine; L-Valine.
Non-essential Amino Acids: L-Alanine; L-Arginine; L-Asparagine; L-Aspartic Acid; L-Citrulline; L-Cysteine; L-Cystine; Gamma-Aminobutyric Acid (GABA); L-Glutamic Acid; L-Glutamine; Glycine; L-Ornithine; L-Proline; L-Pyroglytamic Acid; L-Serine; L-Taurine; L-Theanine; L-Tyrosine; N-Acetyl-L-Tyrosine.

Pure Plant Digestive Enzymes, Prebiotic, and Intestinal Matrix (non-dairy):
Enzymes: Alpha Amylase; Beta Amylase; Bromelain; Cellulase; Lactase; Lipase; Maltase; Marshmallow Extract (root); Papaya (leaf); Sucrase (invertase).
Prebiotics: Acacia (gum); Glucomannan; Guar (gum); Inulin (root); Xylooligosaccharide (XOS); Fructooligosaccharides (FOS).

Herbal Energy, Strength, Stamina, and Stress Management Matrix:
Alfalfa [(gluten free) (leaf and stem)]; Cilantro (leaf); Spirulina (micro-blue-green algae); St. John's Wort Extract (whole herb); Cat's Claw (inner bark); Ginkgo Biloba Extract (leaf); Schisandra Extract (berry); Bee Pollen; Licorice (root); Royal Jelly Extract; Fumaric Acid.

Antioxidant Vegetable Garden, Optimum Seed, Sprout, and Fiber Matrix (with the essential sugars: Galactose and Xylose):
Vegetables: Asparagus (shoots); Beet (root); Broccoli (flower and leaf); Brussels Sprout (sprout); Cabbage (head); Carrot (whole); Cauliflower (head); Fenugreek (seed); Parsley (leaf); Peas, Green (bean); Spinach (leaf and stem); Yellow Squash (fruit).
Seeds, Sprouts, and Fiber: Flax (seed); Pumpkin (seed); Sesame (seed).

Antioxidant Fruit Orchard Matrix (with the essential sugars: D-Mannose and Glucose):
Apple; Banana; Blueberry; Cherry Extract (acerola); Cranberry; Kiwi; Lemon Extract; Lime; Papaya; Pineapple; Pomegranate; Pomegranate Extract (hull); Raisin; Red Raspberry; Tangerine; Tomato.

11 Organically-bound Essential Oils:
Chamomile (Roman) (flower); Cinnamon (bark); Frankincense (resin); Ginger (root); Lavender (flower); Lemon (peel); Myrrh (resin); Oregano (flowering top); Peppermint (leaf); Spearmint (flower, leaf, and stem); Tangerine (peel).

* Percent Daily Values are based on a 2,000 calorie diet
† Daily Values not established

RETAIL PRICING FOR ALL PRODUCTS

Retail pricing for Doctor **intraLINE 2.0** products as follows

intraMAX 2.0 with 415+ nutrients

Available in two versions:

- All-natural peach/mango, and
- Unsweetened

MSRP: \$85.00 per 32 oz. bottle

intraKID 2.0 with 215+ nutrients

- All-natural fruity raspberry

MSRP: \$75.00 per 32 oz. bottle

intraMIN with 35+, 100% Organically-bound Trace Minerals (Microminerals™)

- All-natural tropical fruit and naturally unflavored

MSRP: \$70.00 per 32 oz. bottle

Note: Distributor/Wholesale pricing is available on all DL products.

"My husband was diagnosed with liver disease in August 2012 and was placed on the Liver transplant list in Jan. 2013. His body had deteriorated, he looked like an old man. In May, 2013 he started taking intraMAX. intraMAX is the only thing that he takes now and has now been removed from the transplant list. He has regained his muscle tone and his hernia is very small. I am so thankful that we found this and try to tell everyone especially anyone who has liver issues. Sometimes people are skeptic about taking something new but those who were close to us during his illness are believers in intraMAX. Thank you!!!!"

Carol-Lynn

"Dr. John Sullivan was hit by a car in February as he was training for this certification. He survived with two broken legs and had to have knee surgery in June of that year. He has continually trained along with taking intraMAX and has finally gotten to try out for this Level Two Certification this year!!!"

"They are both so excited that he has passed the morning sessions and she will email us regarding his afternoon sessions – probably on Monday. She stated that "she feels like she should have a Drucker Labs Tattoo for all to see!"

DL Customer Service Team

"Since I have been supplementing my diet with intraMAX, I have experienced better mood, good energy and better sleep. I am just coming off a detoxification program but I noticed that same night after taking intraMAX that my sleep was tremendously restful and continues. I am grateful!"

PHASE 2

VISION AND MOVING FORWARD CONT'D

On the heels of successfully establishing phase 1, Drucker Labs plans to strategically disrupt the agricultural food and fertilizer industry with its **AgraMAX™ FAO (Food-Air-Ocean) Restoration Initiative**. After **30+** years of research, development and scientific study, AgraMAX™ FAO has the proprietary technology to revolutionize these industries as the first to market an All-natural 100% Organically Microcomplexed **"Soil-based, Nutrition & Atmosphere Regeneration" (SNAR) system**.

THE PROBLEMS (and "Yes they are BIG")

Problem 1 - On a global scale there has been massive erosion of the soil and the nutrients contained within topsoil. In the United States, the rapid erosion and destruction of the soil in the 1930's called the "dust bowl", was largely caused by farmers in the mid-west tilling the soil. Since then, chemical fertilizers, and pesticides have made things worse by adding chemicals to the soil. The result is hollow and chemically "toxic" soil, which has led to "hollowed and toxic" food.

Problem 2 - Planet Earth (and all life on Earth) are being threatened by the emissions of greenhouse gases (carbon dioxide) into our air. Climate change as witnessed in its many forms (i.e., melting glaciers, rising sea levels, hurricanes, droughts, etc.) is drastically altering planet Earth's delicate eco systems.

"In every handful of healthy soil there are more [micro] organisms than the number of people that have lived on the planet Earth. "

Dr. Kristine Nichols,
Chief Scientist, Rodale Institute

AgraMAX™ FAO (Food-Air-Ocean) CONT'D

AgraMAX™ FAO – RESTORATION INITIATIVE

RESTORING OUR TOMORROW, TODAY.™

AgraMAX FAO™ (Food-Air-Ocean) – **Soil-based, Nutrition & Atmosphere Regeneration” (SNAR) system**

AgraMAX FAO™ is a revolutionary and futuristic 100% Organically Microcomplexed, Soil-based, Nutrition & Atmosphere Regeneration (SNAR) system, that has the capability to help restore significant Organic-complexes (including polysaccharides and muco-polysaccharides) back into the depleted soils. As the soil absorbs AgraMAX FAO, it will begin to regenerate (heal) and over a few short months will once again contain critical (Carbon-based) Organic-complexes and microcomplexes required to feed the organisms needed to nourish our crops and plants. In a short time, the soils will become fertile again and transfer the critical (life-sustaining) Organically-bound (Carbon-based) nutrients and minerals back into our food supply. This will allow moisture (water) to be “held” (stored/retained) back in the soil where it belongs. Subsequently, the soil will be able to sequester (via Dr. Drucker’s proprietary CarbonCAP Technology™) vast amounts of CO2 emissions, thereby transferring back into the soil, excessive CO2 that has accumulated (over decades) in the atmosphere and cannot escape due to the Greenhouse Effect. AgraMAX FAO has the capacity to help rid the planet of excessive CO2 accumulation and help restore the soil, crops and the nutrients in our food supply back to its original state before the 1930’s.

AgraMAX FAO - Replenished and Regenerated Soil will Significantly Help to Bring Back Balance to Our Climate

How AgraMAX FAO replenished soil works to reduce carbon-dioxide emissions, and sequester carbon dioxide (CO2)... Global thought leaders, and scientists are raising awareness and resources in the hopes of unlocking the soils capacity to reduce, and even rid the planet of existing greenhouse gases. AgraMAX FAO as an Organically Microcomplexed™ Soil Replenisher (OMSR) has the proprietary technology to help restore significant organic complexes back into soils bringing health back to our soil.

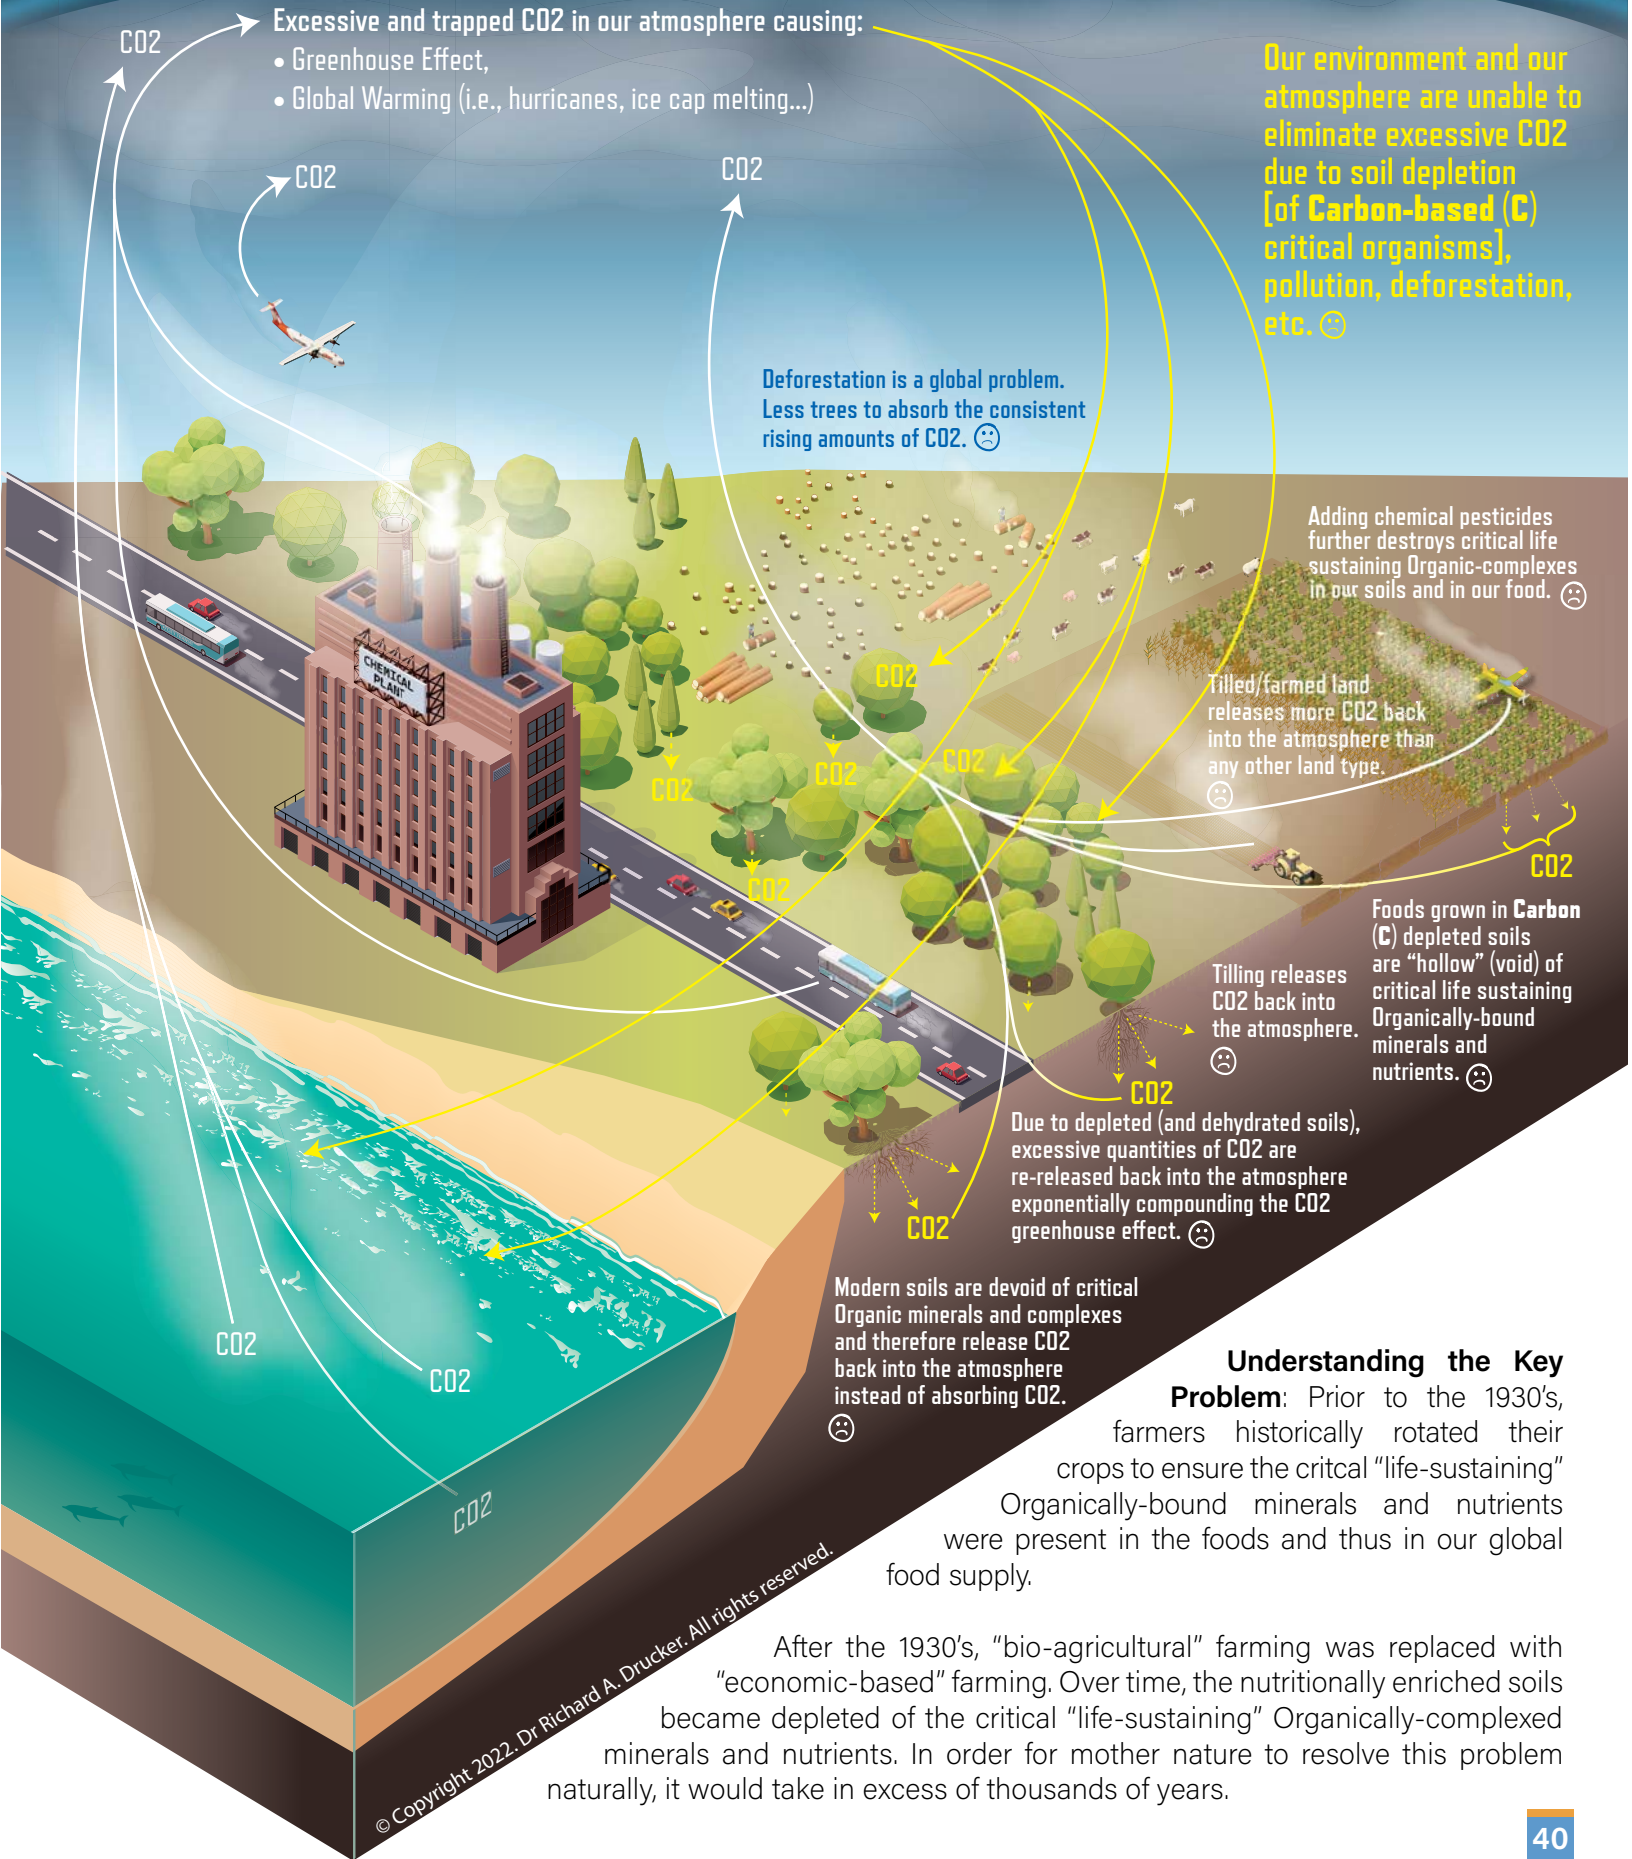

“Plants use sunlight as energy and pull CO2 out of the atmosphere. They turn it into a carbon fuel and that is how they grow. But 40 % of that carbon fuel they send down to their roots.... in a very strategic way to soil micro-organisms. Plants are feeding soil micro-organisms carbon, and the soil microorganisms are bringing plants minerals and nutrients. And in the process of all that, those soil micro-organisms make a carbon glue out of that carbon fuel and they make habitat in the soil. They make pockets in the soil to control the flow of air and water, and that is one of the ways that carbon gets fixed in the soil.”

**Kristin Ohlson- Author,
The Soil Will Save Us**

“In other words, soil has the unique ability to sequester carbon-dioxide out of the atmosphere. That is a big deal, and what is even more amazing the soil contains an entire universe of life. ”

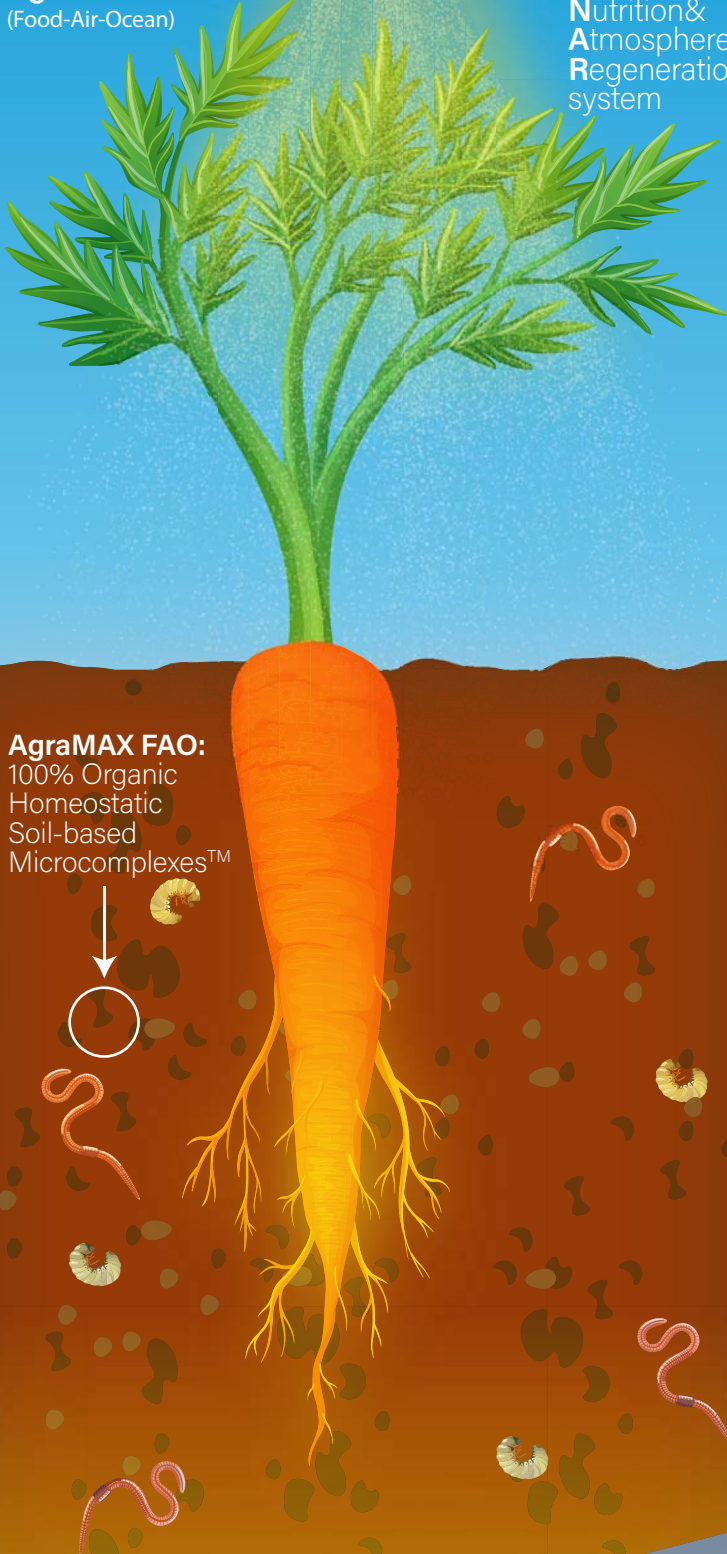

**Woody Haroldson – Actor and Activist
Kiss the Soil Documentary**

Where We Are Now: The Carbon Dioxide (CO₂) Cycle Threatening the Survival of Life on Earth

AgraMAX FAO:
100% Organic
Homeostatic
Soil-based
Microcomplexes™

Over 30 years of research and development has culminated in Drucker Labs' proprietary AgraMAX FAO (Food-Air-Ocean) SNAR*, Carbon-bond, and CarbonCAP Technologies working in combination to restore the soil ecosystem.

*SNAR - Soil-based, Nutrition & Atmosphere Regeneration system

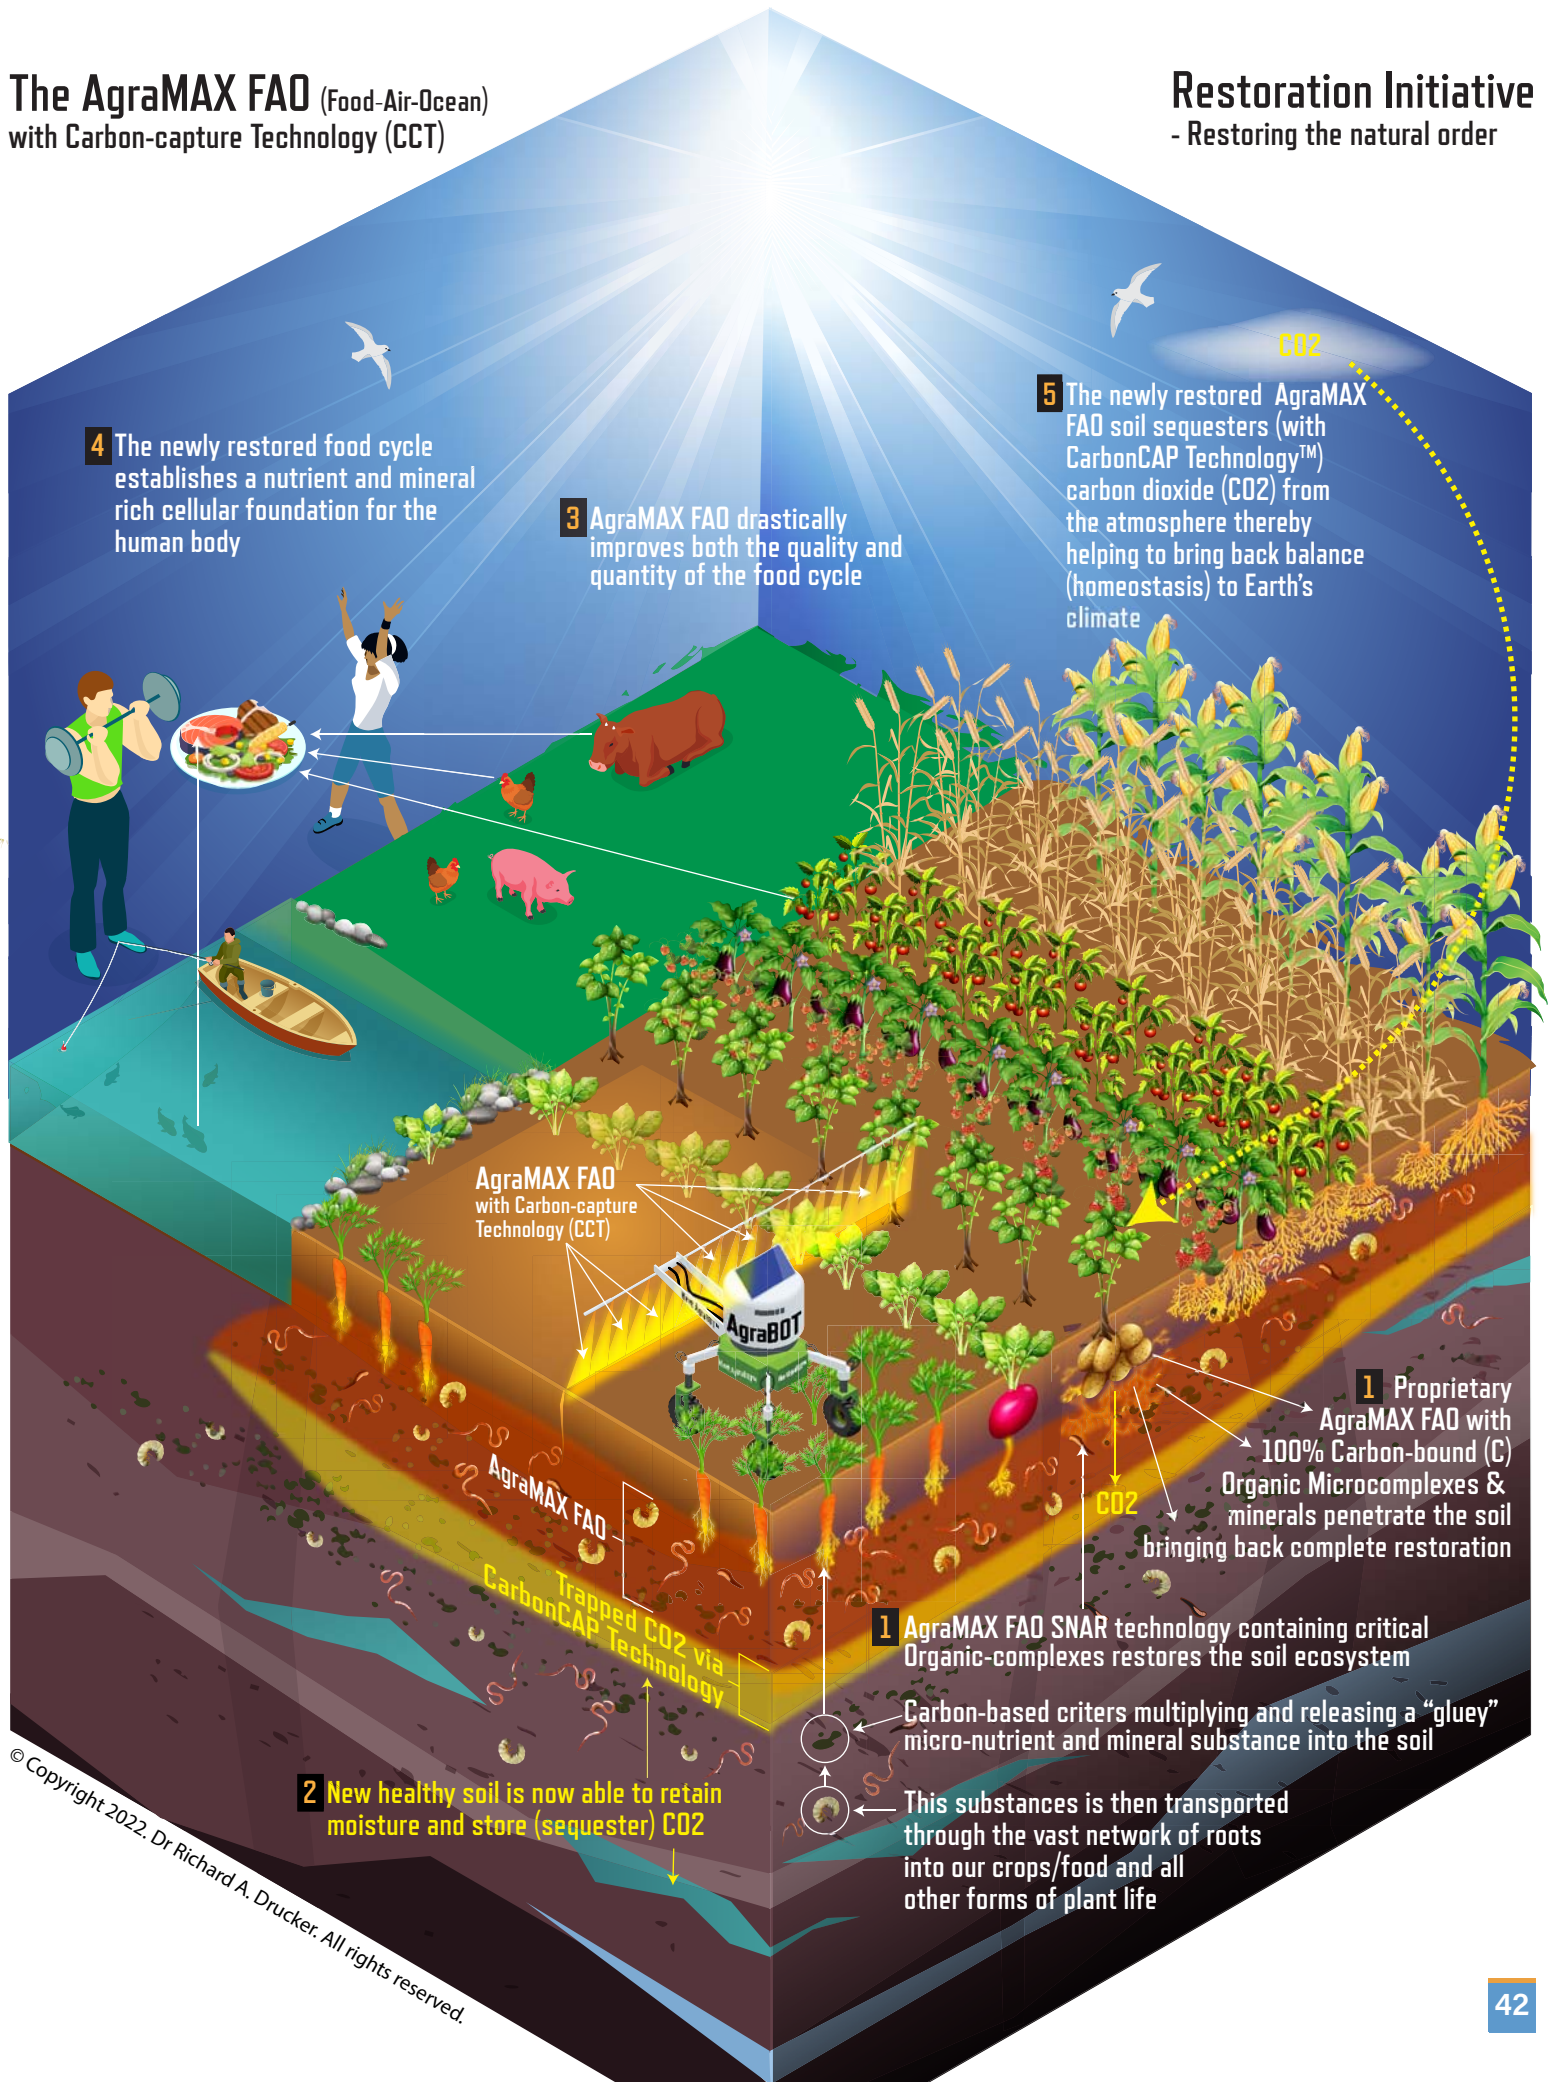

RESTORING OUR TOMORROW, TODAY.™

UNDERSTANDING THE AgraMAX™ FAO (FOOD-AIR-OCEAN) RESTORATION CYCLE

- 1** Proprietary AgraMAX SNAR Technology >>> [which contain critical Organic-complexes] restores the soil eco-system allowing essential soil-based critters to multiply, strengthen and thrive. In this new state, these soil-based critters release necessary Poly-saccharides, Muco-saccharides, organic minerals, etc. into the soil. In a few short months this process brings back health to our depleted soils.
- 2** This new/healthy soil is now able to >>> retain moisture and store (sequester with CarbonCAP Technology™) CO₂ as mother-nature intended. Also, this new/healthy soil contains critical life-sustaining micro-nutrients and minerals in a "gluey-substance". This substances is then transported through the vast network of roots into our crops/food and all other forms of plant life.
- 3** The nutrient enriched plant life is then >>> consumed by humans and animals thereby drastically altering the nutritional value of the vegetarian and non-vegetarian food cycles.
- 4** **The results of the AgraMAX FAO cycle:** >>> The newly restored food cycle establishes a nutrient and mineral rich cellular foundation for the human body, thereby combating disease manifestation in both the human and animal populations worldwide.
- 5** The newly restored AgraMAX FAO soil >>> will begin to sequester (with CarbonCAP Technology™) carbon dioxide (CO₂) from the atmosphere thereby restoring balance (homeostasis) to Earth's climate.

- Predicted global food shortages of EPIC proportions

Drucker Labs products are available exclusively through licensed healthcare professionals

THE BATTLE FOR FOOD HAS STARTED

The war is battering a global food system weakened by covid-19, climate change and an energy shock. Ukraine's exports of grain and oilseeds have mostly stopped and Russia's are threatened. Together, the two countries supply 12% of traded calories. Wheat prices, up 53% since the start of the year, jumped a further 6% on May 16th, after India said it would suspend exports because of an alarming heatwave.

The widely accepted idea of a cost-of-living crisis does not begin to capture the gravity of what may lie ahead. António Guterres, the United Nations

secretary general, warned on May 18th that the coming months threaten "the spectre of a global food shortage" that could last for years. The high cost of staple foods has already raised the number of people who cannot be sure of getting enough to eat by 440 million to 1.6 billion. Nearly 250 million are on the brink of famine. If, as is likely, the war drags on and supplies from Russia and Ukraine are limited, hundreds of millions more people could fall into poverty. Political unrest will spread, children will be stunted and people will starve.

FOOD SECURITY

WE NO LONGER HAVE FOOD SECURITY

A Global Crisis Brings Food Security To The Table

Every plate of food is the center of a story. It's at the heart of our dinner tables, an essential human experience where we connect with our family and friends. But, it's also at the center of a story that connects each of us to farmers, producers, suppliers, grocers, and other families around the world.

The reality of our global food system today every meal is the result of a journey that recently became even more difficult. Why? Because of distribution bottlenecks, rising food prices, grain shortages, energy crises, climate change, global warming, as well as a massive accumulation of CO2 in our atmosphere.

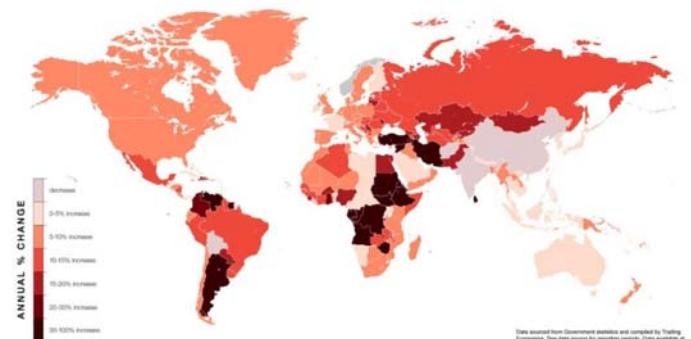

When meal-time conversations turn to the price of bread and higher grocery bills, we're really joining a much larger conversation about where our food comes from and how it arrives on our tables. The recent war against Ukraine has revealed a significant decrease in the global food supply which has undeniably impacted us all.

For many of us, that impact is first felt on the store shelf where food prices are still high despite a five-month decline. According to *The Food and Agriculture Organization Food Price Index* measuring international

prices every month, food is still 7.9 percent more expensive on average than in August 2021. For some, this means paying more for bread and other staples. For many, especially in countries most vulnerable to shortages, regular meals may become unaffordable.

What's more, the challenges we face today could have a significant impact on the future, according to *Eurasia Group*, people facing food insecurity will rise from 142 million to 243 million by November 2022.

Food shortages and disruptions are affecting more countries than ever
Annual change in average food prices over the same month in the previous year

THE CRUSADE TO BRING FOOD TO OUR TABLE

What may end up in your kitchen as chapati/roti (flatbread) or a tortilla begins as a simple seed of wheat germinating in the ground. That seed often starts its life worlds away from where it ends up—and it faces a series of challenges on its way to you.

On the following page, we take a look at some of the acute challenges to the global food system that show up on your plate, exploring some of the ways geopolitical conflict, the pandemic, climate change and other factors which have negatively impacted the cost and availability of the food at your table.

“AgraMAX FAO (Food-Air-Ocean) IS A KEY SOLUTION FOR THIS UNPRECEDENTED FOOD CHALLENGE SO AS TO PREVENT A HUMANITARIAN CATASTROPHE OF BOTH FOOD SHORTAGE AND DISEASE PROLIFERATION TRAGEDIES OF EPIC PROPORTION.”

DR. RICHARD DRUCKER

With so many pressures on the global food system, which have increased food prices worldwide, a ripple effect has been felt even in the most food secure nations, while the most vulnerable nations have been pushed to the edge of starvation.

The world is so interconnected that a crisis anywhere can be felt everywhere. In addition to the devastation, the war in Ukraine has set in motion events that have triggered critical disruptions in the supply chain, food production, fertilizer access, energy usage and more. The war has made a challenging situation worse due to the global pandemic as food prices were already on the rise.

Spiraling costs, fertilizer shortages, and severe weather events have all combined which has made food production more difficult and expensive. As an industry, we must inject targeted resources such as AgraMAX FAO™ to farmers around the globe, to support the vital role nutrients and minerals play in our health and food volatility.

As a company, we at AgraMAX believe both collaboration and swift action at scale are key to mitigating the food crisis and to preventing long-term food shortages. Strengthening our global food system requires innovation, such as AgraMAX FAO along with the dedicated support of local farmers, AgraMAX with "All-natural 100% Organically Microcomplexed Soil-based, Nutrition & Atmosphere Regeneration (SNAR) system is an active approach to fighting climate change, global warming all while reducing the effects of excessive CO2 in our atmosphere.

"AgraMAX FAO (Food-Air-Ocean) is a key solution for this unprecedented food challenge so as to prevent a humanitarian catastrophe of both food shortage and disease proliferation tragedies of epic proportion."

Dr. Richard Drucker

HEALTH FOR ALL, HUNGER FOR NONE

AgraMAX FAO, RESTORING OUR TOMORROW, TODAY.

A deeper understanding of the world on our plates does more than help us address specific challenges—it shows us how connected we are as humans, and how powerful we can be when we work together, whether we gather locally for a meal or innovate globally to **"restore the natural order"** as nature intended.

WORKING TOGETHER TO RESTORE THE NATURAL ORDER - AgraMAX FAO™ (FOOD-AIR-OCEAN)

AgraMAX FAO is an integral part of the restoration initiative:

- Begin to replenish and restore our soils with Carbon (C): via proprietary AgraMAX FAO with 100% Organic Homeostatic Soil-based Microcomplexes™ and SNAR Technology (Soil-based, Nutrition & Atmospher Regeneration system).
- Begin to restore and replenish nutrition in our food supply.
- Begin to reverse the affects of global warming on our atmosphere and oceans by sequestering carbon dioxide (CO2) back into the soil.
- Begin to increase food supply thereby addressing global concerns of food shortage in the developing world.

*"If we get the soil right we can fix a lot of our issues
- healthy soil leads to healthy plants - healthy plants
- healthy animals - healthy humans - healthy water -
healthy climate."*

OUR MISSION

— People | Planet | Purpose

Drucker Labs products are available exclusively through licensed healthcare professionals

OUR MISSION

People | Planet | Purpose

Dr. Drucker's lifelong journey of overcoming his own serious autoimmune disease and caring for those with health needs led him to create Drucker Labs. His entrepreneurial vision of developing superior liquid nutraceuticals for doctors and patients has benefited nutritional wellness around the world. DL is committed to the continued care of people and planet. In its retail launch of innerThrive products, a percentage of profits from each bottle sold, will be donated to give school children in need the exceptional nutritional support of intraKID.

THANK YOU, druckerlabs
