MANUFACTURER

The Vitalizer Luxury is a quality product. More than 10 years of experience in the development and distribution of numerous therapy, medical, and health products are incorporated into the Vitalizer Luxury.

WE CONSIDER HEALTH AS THE HIGHEST GOOD OF HUMAN BEINGS AND AS THE MOST IMPORTANT BASIS FOR QUALITY OF LIFE.

We create solutions to enhance the quality of life for people by preventing, alleviating, and treating issues that afflict individuals in our performance-driven society. As a socially and ethically responsible company, we operate sustainably and embrace our responsibility.

DEVELOPMENT

People nowadays are demanding new concepts to help them cope with everyday stress and to make up for missing opportunities to revitalize.

This was the main incentive to develop our product line.

In close cooperation with a team of doctors, researchers, and technicians, Vitalizer Luxury was developed as a healthcare product that delivers positive results for the long term.

"Vitalizer Luxury is the best innovation since the invention of massage."

VITALIZER LUXURY – THE HOLISTIC HEALTHCARE SYSTEM

Select the program you wish to use, switch on, and you can tune out!

Vitalizer Luxury puts you into a recumbent, zero-gravity position that literally takes the weight off your shoulders.

The integrated bluetooth sound system with subwoofer plays your favourite music.

The integrated body scanner uses sensors to individually adjust and to apply to the shape of your spine.

For the next 15-30 minutes, Vitalizer Luxury then handles your recovery and revitalization.

VITALIZER FOR USE IN HEALTHCARE

Spiraldynamik® is a partner of Vitalizer International AG.

The human body is a stroke of a genius in evolution. Researchers are busy deciphering its many mysteries. We now know what postures and movements are anatomically intelligent and which are not.

Spiraldynamik® is like a user's manual for your own body, from your head to your toes.

Stress is the #1 topic in these times. It affects nearly everyone. The stress hormones adrenaline and cortisol are released into the body throughout the day and prevent us from getting the recovery and revitalization we need at night. This is where Vitalizer comes in, offering relaxation with the touch of a button.

VITALIZER FOR USE WITH ATHLETES

Top athletes usually train for several hours a day. As in the workplace, they frequently push their limits too far, resulting in fatigue and drop in performance.

Vitalizer Luxury is the ideal solution for faster revitalization and relaxation.

During its development, care was taken to ensure that Vitalizer Luxury meets the revitalization needs of both top athletes as well as other hard-working professionals.

"I can recommend Vitalizer Luxury to everyone."
