

PRODUCT GUIDE

Be Care Love Spa launched in 2011 with the first complete line of professional spa products with Certified Organic ingredients. This product line elevated the spa experience with luxurious, exotic ingredients that both soothe and enrich the body.

Located in sunny Southern California, BCL products are proudly made in the USA. We make our formulas free from sulfates, parabens, GMOs, phthalates, and harsh preservatives. Committed to using only the best ingredients, we hand select fruit and botanicals that are sustainably sourced.

Step 1: Dead Sea Salt Soak

A naturally detoxifying soak that leaves skin purified and hydrated. We use Dead Sea Salt in our Salt Soak because it contains a higher concentration and variety of minerals than sodium chloride, alone. Dead Sea Salts contain magnesium, potassium, calcium chloride and bromides. These minerals combine to make Dead Sea Salts the most therapeutic salt soak treatment.

To use, we recommend adding 1.5 tbsp to a bowl for hands or ½-1 cup for a foot bath or tub. Soak for 5-10 minutes and then pat skin dry.

Step 2: Sugar Scrub

A gentle exfoliant for hands, feet, or body. Our Sugar Scrubs use sugar as a base, with small, medium, and large crystals to create a luxurious texture that clients will love. Unlike competitor products, the Be Care Love formula uses a higher concentration of ingredients without added water, so a little product goes a long way.

To use, apply 1-2 tbsp to the desired area of the skin and gently rub in a circular motion. Rinse with warm water or a damp towel and then pat skin dry.

Step 3: Moisture Mask

A hydrating mask that deeply nourishes skin. The Moisture Mask is formulated with natural Bentonite and Kaolin clays that remove impurities while keeping skin hydrated. These clays have a rich, creamy texture that feel soothing when applied to skin. Mineral-rich Bentonite is highly detoxifying and comes from volcanic ash while Kaolin absorbs oils and unwanted debris.

To use, apply a thin layer to skin and cover with a warm towel. Let sit for 10-15 minutes, then wipe clean with a damp towel. Pat dry.

Step 4: Massage Cream

Can be used as a massage medium, or simply as a moisturizer to keep skin hydrated and beautifully radiant. Our Massage Cream is infused with natural oils that carry nutrients to the skin, rich in antioxidants, vitamins, and other agents that help protect the skin barrier and fight damaging free radicals. It glides smoothly over skin and absorbs quickly, without leaving a greasy residue.

To use, apply a thin layer over skin with long, soothing strokes until fully absorbed.

mandarin + mango

Suitable for clients with dull skin tone or rough texture & those who are concerned with fine lines or wrinkles.

- Clears blemishes
- Moisturizes and smooths tough, dry skin
- Promotes healthy, rejuvenated skin
- Reduces the appearance of fine lines and wrinkles

Ingredients:

Mandarin oranges, abundant in antioxidants, work wonders in nourishing and shielding the skin from harmful free radicals. Their antiseptic properties deeply cleanse pores, eliminating impurities and enhancing cell turnover for a more luminous complexion.

Mango contains trace amounts of retinol, stimulating collagen and elastin production, facilitating the skin's self-repair mechanism, resulting in suppler and more resilient skin.

Aromatherapeutic Benefits:

The invigorating scents of mandarin oranges and mangos also provide aromatherapy benefits, fostering relaxation and reducing stress during spa treatments.

BCL TIP:

Offer a cup of water with an orange slice or add orange slices to the manicure bowl or foot bath!

lemon + lily with kojic acid

Suitable for clients who are concerned with dull or uneven skin tone and dark spots.

- Reduces dark spots and promotes an even skin tone
- Helps tighten pores
- Provides deep hydration
- Offers anti-inflammatory properties

Ingredients:

Lemon, renowned for its potent citric acid and Vitamin C content, serves as a natural brightening agent, effectively lightening dark spots and promoting a more even skin tone.

Lily is celebrated for its hydrating and soothing characteristics. It deeply hydrates, leaving the skin supple and nourished.

Kojic acid is renowned for its potent skin-brightening properties, effectively targeting and reducing the appearance of dark spots, hyperpigmentation, and uneven skin tone. It has a natural ability to inhibit melanin production, promoting a more radiant and evenly toned complexion.

Aromatherapeutic Benefits:

The refreshing citrus scent of lemon and the delicate floral aroma of lily work wonders in aromatherapy, uplifting the mood, relieving stress, offering a holistic and revitalizing spa experience.

BCL TIP:

Offer a cup of water with a lemon slice or add lemon slices to the manicure bowl or foot bath!

jasmine + coconut

The best choice for clients with dry and sensitive skin.

- Smooths and moisturizes dry and sensitive skin
- Rich in antioxidants and antiseptic properties
- Helps fade scars
- Scrub is made with rice beads instead of sugar, for extra-gentle exfoliation

Ingredients:

Jasmine, with its calming and soothing attributes, helps alleviate skin sensitivity and redness. Its anti-inflammatory properties work wonders in calming irritation and reducing skin discomfort, making it an ideal choice for those prone to reactions.

Coconut, renowned for its hydrating prowess, deeply nourishes sensitive skin without clogging pores. Its natural fatty acids provide a lightweight moisture barrier, which helps protect the skin's natural barrier function.

Aromatherapeutic Benefits:

The harmonious blend of jasmine and coconut promotes relaxation, reduces stress, and creates a calming ambiance during spa treatments, fostering a sense of tranquility and well-being.

BCL TIP:

Offer clients a soothing cup of jasmine tea or refreshing coconut water!

lavender + mint

Ideal for clients with dry, irritated skin, or those looking to de-stress.

- Calms and relaxes the skin
- Relieves stress and tension
- Moisturizes dry skin with soothing benefits

Ingredients:

Lavender is a versatile ingredient, renowned for its soothing, anti-inflammatory properties that calm irritated skin, aid in healing, and balance oil production, making it an excellent choice for various skin types.

Mint is high in Vitamin A and anti-inflammatory properties. Its cooling properties help to reduce redness, calm and soothe the skin, while also strengthening the skin barrier.

Aromatherapeutic Benefits:

The soothing blend of lavender and mint creates an invigorating aroma that promotes relaxation, eases tension, and uplifts the mood, offering a refreshing and calming experience during spa sessions.

BCL TIP:

Add lavender flowers to manicure bowl or foot bath, turn on relaxing music and light a candle!

tropical mojito + CBD

Suitable for clients with soreness and fatigue, or dull skin.

- Targets areas of soreness
- Provides a comforting sensation of cooling
- Balances and energizes skin

Ingredients:

Mint and bergamot team up to deliver refreshing skincare benefits by invigorating the skin, minimizing pores, and providing a cooling sensation, while bergamot's antibacterial properties work alongside mint to cleanse and clarify the skin, leaving it feeling refreshed and revitalized.

CBD is non-psychoactive, penetrating and readily absorbed. Its anti-inflammatory benefits reduce redness, soothe irritation, and promote a sense of relaxation.

Aromatherapeutic Benefits:

The combination of mint and bergamot creates an uplifting and invigorating aroma that revitalizes the senses, promotes mental clarity, and offers a refreshing boost to help banish negativity.

BCL TIP:

Offer a cup of water with slice of lime or a relaxing cup of mint tea.

lemongrass + green tea

Suitable for clients with skin that is prone to blemishes or sun damage.

- Reduces skin damage
- Antioxidant-rich
- Anti-inflammatory
- Addresses the signs of aging

Ingredients:

Lemongrass is a natural antiseptic and astringent. It helps to eliminate toxins and bacteria from the skin while controlling oil production & minimizing the appearance of pores.

Green Tea helps reduce inflammation and redness, while detoxifying and calming your skin for a relaxing, gratifying experience. Soothe irritated skin while helping to regulate excess oil and minimize pores.

Aromatherapeutic Benefits:

Green tea and lemongrass combine to create a revitalizing and energizing aroma that uplifts the mood, reduces stress, and fosters a sense of rejuvenation during spa sessions.

BCL TIP:

Offer clients a warm, relaxing cup of green tea!

milk + honey with white chocolate

Suitable for clients with dry and sensitive skin types.

- Contains antimicrobial and cleansing properties
- Hydrates the skin, restoring moisture balance
- Boosts skin's immunity against free radicals and environmental damage

Ingredients:

Milk's lactic acid content promotes cell turnover for softer, smoother skin, while also possessing moisturizing properties that help hydrate and nourish skin.

Honey is a natural humectant, drawing moisture to the skin, making it an excellent ingredient for hydration and maintaining skin's elasticity. Its antibacterial properties also aid in soothing and healing various skin conditions, promoting a clearer complexion and balanced skin tone.

White chocolate contains cocoa butter, helping to hydrate and soften skin, as well as antioxidants that contribute to protecting skin from environmental damage.

Aromatherapeutic Benefits:

Surround yourself with the cozy, sweet fragrance of milk & honey, creating a comforting ambiance that promotes relaxation and fosters a sense of tranquility during spa sessions.

BCL TIP:

Offer a cup of warm milk or tea with honey, and add white flower petals to the manicure bowl or foot bath.

pink grapefruit

Suitable for clients with dull and tired skin, in need of a boost of energy.

- Antioxidant-rich
- Revitalizes skin to reveal its natural glow
- Rich in Vitamin C and antioxidants

Ingredients:

Organic Pink Grapefruit is rich in antioxidants and vitamins, which provide an array of anti-aging benefits including evening skin tone, lightening dark spots, and fighting off free radicals. Grapefruit refreshes the skin as amino acids make the skin firmer and softer to the touch.

Aromatherapeutic Benefits:

The invigorating scent of pink grapefruit uplifts the mood and energizes the senses, promoting feelings of freshness and revitalization during aromatherapy. Its citrusy aroma is known to enhance mental clarity and diminish feelings of fatigue, offering a rejuvenating experience.

BCL TIP:

Offer clients a refreshing grapefruit lemonade or lemon water.

tingling mint + CBD

Suitable for clients with sore muscles and fatigue.

- Soothes sore, tired muscles
- Provides a comforting sensation of cooling
- Moisturizes dry skin with soothing benefits

Ingredients:

Formulated with Menthol and a unique Essential Oil Blend featuring Wintergreen and Peppermint to create a comforting sensation of cooling and warmth in problem areas.

Organic hemp CBD provides instant relief to areas of soreness and discomfort while powerful anti-bacterial properties keep skin healthy & clear. CBD is non-psychoactive, quickly penetrating and readily absorbed.

Aromatherapeutic Benefits:

Revitalize your mind and let your worries melt away. The combined aromas of menthol, wintergreen, and peppermint create a refreshing and cooling sensation that helps alleviate stress, enhances alertness, and promotes a sense of invigoration.

BCL TIP:

Offer a cup of soothing peppermint tea and add mint or eucalyptus leaves to foot bath.

Ideal for clients dealing with sore muscles and dry, cracked, or sensitive skin.

- Soothes irritated skin
- Deeply moisturizes and smooths tough, dry skin
- Anti-inflammatory
- Antibacterial properties

Ingredients:

Arnica's anti-inflammatory properties make it beneficial in skincare, aiding in soothing and calming irritated skin while potentially reducing swelling and bruising.

Aloe's soothing and hydrating properties make it a versatile skincare ingredient, offering relief for irritated skin, promoting healing, and providing a moisture boost for a supple complexion.

Aromatherapeutic Benefits:

Calming herbal notes and the nurturing essence of aloe promote peace of mind for healing and relaxation.

BCL TIP:

Offer clients a cup of hot herbal tea or hydrating aloe juice.

*exclusively available for sugar scrub and massage cream

coconut + pineapple

Recommended for clients with dry and dull skin types.

- Soothes sensitive skin
- Moisturizes and smooths tough, dry skin
- Promotes healthy, rejuvenated skin
- Reduces the appearance of fine lines and wrinkles

Ingredients:

Coconut, renowned for its hydrating properties, is full of fatty acids and Vitamin E to increase moisture retention. It provides a lightweight moisture barrier, which helps protect the skin's natural barrier function.

Pineapple contains an enzyme called bromelain that can help inhibit acne-causing bacteria and also reduces skin irritation and helps minimize the appearance of dark spots.

Aromatherapeutic Benefits:

The delightful blend of coconut and pineapple creates a tropical and uplifting aroma that evokes a sense of joy, relaxation, and a refreshing ambiance.

BCL TIP:

Offer a cup of water with a slice of pineapple or a refreshing coconut water.

*exclusive to packet boxes only
