

# **Boiler Iguana**<sup>™</sup>

#### DESCRIPTION

Boiler Iguana<sup>™</sup> is a ready-touse waterborne corrosion inhibitor for use in operating hot water systems or wet layup of standby boilers. Its combination of contact and Vapor phase Corrosion Inhibitors protects multi-metal surfaces below and above the water level. Boiler Iguana<sup>™</sup> is easy to apply and does not require frequent monitoring—unlike traditional layup strategies that require maintenance of high pH and regular testing of oxygen scavenger levels. Boiler Iguana™ allows quick startup because it is compatible with other water treatment chemicals and there is no need to drain the boiler before bringing it back online.

#### **PACKAGING & STORAGE**

Boiler Iguana<sup>™</sup> is available in 5-gallon (19 L) pails, 55-gallon (208 L) drums, liquid totes, and bulk.

To ensure best product performance, store in original packaging, indoors, and out of direct sunlight at 40-100 °F (4-38 °C).

Shelf life: 2 years

## **VpCI® ADDITIVES FOR WATER TREATMENT**

### FEATURES

- Contact and vapor-phase corrosion protection
- Does not contain sulfites, silicates, phosphates, or nitrites
- Does not contain EPA or OSHA hazard components
- Effective with systems operating up to 302 °F (150 °C)
- Contains a triazole tracer

#### BENEFITS

- Easy to use
- Eliminates frequent monitoring
- No need to drain before bringing boiler back online
- Protects metals below and above water level

#### **METALS PROTECTED**

- Carbon Steel
- Cast Iron
- Copper
- Brass
- Solder
- Aluminum

#### **TYPICAL PROPERTIES**

Appearance	Clear Yellow Liquid
Density	9.2-9.3 lb/gal (1.10-1.11 kg/L)
рН	8.8-9.3 (1% solution)
Odor	Amine-like

#### APPLICATION

For Hot Closed Loops or Non-Steaming Boiler systems, maintain 2,000 ppm of Boiler Iguana<sup>™</sup> in the circulating water. For wet layup, add Boiler Iguana<sup>™</sup> to feedwater and/or condensate system and pump to the boiler. Shut the system down for layup or maintain low fire for standby, keeping the boiler at high-water level for up to 12 months of protection. Recommended dosage is 2,000 ppm. For standby boilers, monitor product concentration periodically to maintain effective dose as water is lost. Contact Cortec<sup>®</sup> Technical Services for details.

#### LIMITED WARRANTY

All statements, technical information and recommendations contained herein are based on tests Cortec\* Corporation believes to be reliable, but the accuracy or completeness thereof is not guaranteed.

Cortec® Corporation warrants Cortec® products will be free from defects when shipped to customer. Cortec® Corporation's obligation under this warranty shall be limited to replacement of product that proves to be defective. To obtain replacement product under this warranty, the customer must notify Cortec® Corporation of the claimed defect within six months after shipment of product to customer. All freight charges for replacement products shall be paid by customer.

Cortec® Corporation shall have no liability for any injury, loss or damage arising out of the use of or the inability to use the products. BEFORE USING, USER SHALL DETERMINE THE SUITABILITY OF THE PRODUCT FOR ITS INTENDED USE, AND USER ASSUMES ALL RISK AND LIABILITY WHATSOEVER IN CONNECTION THEREWITH.
